Pa Pesticide License Guide:

Pesticide Regulation Handbook Jan Greene, 2018-01-18 Pesticide handlers have never had an easy time keeping abreast of the regulations that affect them but it is getting even more difficult as public pressure adds more layers of new rules. At the same time there is a trend toward making the individual applicant more responsible for knowing the rules and for getting more training. This is the only volume that in clear language describes the system, the current issues in regulation and the science behind them for the user. It can be helpful for the beginner, the veteran or anyone who needs a reference encompassing the entire range of pesticide regulatory issues such as groundwater endangered species recordkeeping worker protection and more. There is also an exclusive first ever compilation of the rules in all 50 states and the District of Columbia for the training and testing required to become a certified applicator, something that varies considerably from state to state.
