Excerpt from Pachymeningitis Spinalis Externa Recovery Complete J X aged 19 an American of Hebrew parentage single a
salesman and clerk was referred to the Cincinnati Hospital neurological service by Dr A V Phelps February 28 1898 His chief
complaint was loss of power in arms and legs of six weeks duration A few days before his admission he developed fever and a
feeling of general illness which led him to apply for admission to the hospital Family History His father died of throat
consumption at the age of 49 having been ill for one year following a wetting and severe cold His mother is subject to acute
rheumatic attacks One brother died in infancy one sister has inflammatory rheumatism three brothers and one sister are
living and well Personal History He has been generally healthy and remembers no illness up to 14 years of age when he had
sore throat lasting two days Syphilis can positively be excluded He had gonorrhea eight months ago followed in two weeks by
pain and stiffness in the back of the neck which he called rheumatism He recovered and returned to his business within
month and was well for the succeeding five months with the exception of occasional pains in the back of the neck which did
not disable him There were no paralytic symptoms during this time The onset of the paralysis was gradual beginning about
six weeks before his admission to the hospital and being accompanied by some pain and rigidity in back of the neck About the
