Narrative Medicine in Hospice Care Tara Flanagan, 2019-12-13 Narrative medicine an interdisciplinary field that brings together the studies of literature and medicine offers both a way of understanding patient identity and a method for developing a clinician's responsiveness to patients While recognizing the value of narrative medicine in clinical encounters including the ethical aspects of patient discourse Tara Flanagan examines the limits of narrative practices for patients with cognitive and verbal deficits In Narrative Medicine in Hospice Care Identity Practice and Ethics through the Lens of Paul Ricoeur Flanagan contends that the models of selfhood and care found in the work of Ricoeur can offer a framework for clinicians and caregivers regardless of the verbal and cognitive capabilities of a patient at the end of life In particular Ricoeur's concept of patient identity connects with the narrative method of life review in hospice and offers an opportunity to address the religious and spiritual dimensions of the patient experience

Klitzman, Professor of Psychiatry and Co-Founder of the Center for Bioethics Robert L Klitzman, 2024 Psychiatrist and bioethicist Robert Klitzman here explores the need for spiritual guidance among patients and their families who are experiencing illness They often struggle to make sense of their situation and as they confront their mortality they will try to seek hope purpose and larger connections beyond the world of medicine While physicians are frequently uncomfortable with these issues often under sung hospital chaplains can and do fill this void Klitzman uses interviews with patients families and chaplains to bring their stories to life and more broadly he explores the ways in which hospitals and the health care system might address this neglect of a vital human need in times of crisis

Prayer as Transgression? Sheryl Reimer-Kirkham, Sonya Sharma, Rachel Brown, Melania Calestani, 2020-09-23 Healthcare settings are notoriously complex places where life and death co exist and where suffering is an everyday occurrence giving rise to existential questions The full range of society's diversity is reflected in patients and staff Increasing religious and ethnic plurality alongside decades of secularizing trends is bringing new attention to how religion and

nonreligion are expressed in public spaces Through critical ethnographic research in Vancouver and London Prayer as Transgression reveals how prayer occurs in hospitals long term care facilities and community based clinics in a variety of forms and circumstances Prayer occurs quietly on the edges of day to day healthcare provision and in designated sacred spaces Some requests for prayer however interrupt and transgress the clinical machinery of a hospital such as when a patient asks for prayer from the chaplain while the operating room waits With contributions by researchers healthcare practitioners and chaplains the authors consider how prayer transgresses the clinical priorities that mark healthcare opening up ways to think differently about institutional norms and social structures They show how prayer highlights trends of secularization and sacralization in healthcare settings They also consider the ambivalences about prayer arising from staff and patients varied views on religion and spirituality and their associated ethical concerns amidst clinical and workload demands A window onto religion in the public sphere Prayer as Transgression tells much about how people live well together even in the face of personal crises and fragilities suffering diversity and social change

Pastoral Aesthetics Nathan Carlin, 2019-03-06 It is often said that bioethics emerged from theology in the 1960s and that since then it has grown into a secular enterprise yielding to other disciplines and professions such as philosophy and law During the 1970s and 1980s a kind of secularism in biomedicine and related areas was encouraged by the

need for a neutral language that could provide common ground for guiding clinical practice and research protocols Tom Beauchamp and James Childress in their pivotal *The Principles of Biomedical Ethics* achieved this neutrality through an approach that came to be known as principlist bioethics In *Pastoral Aesthetics* Nathan Carlin critically engages Beauchamp and Childress by revisiting the role of religion in bioethics and argues that pastoral theologians can enrich moral imagination in bioethics by cultivating an aesthetic sensibility that is theologically informed psychologically sophisticated therapeutically oriented and experientially grounded To achieve these ends Carlin employs Paul Tillich's method of correlation by positioning four principles of bioethics with four images of pastoral care drawing on a range of sources including painting fiction memoir poetry journalism cultural studies clinical journals classic cases in bioethics and original pastoral care conversations What emerges is a form of interdisciplinary inquiry that will be of special interest to bioethicists theologians and chaplains

Secularisms in a Postsecular Age? José Mapril, Ruy Blanes, Emerson Giumbelli, Erin K. Wilson, 2017-02-24 This volume ethnographically explores the relation between secularities and religious subjectivities As a consequence of the demise of secularization theory we live in an interesting intellectual moment where the so called post secular coexists with the secular which in turn has become pluralized and historicized This cohabitation of the secular and post secular is revealed mainly through political dialectical processes that overshadow the subjective and inter subjective dimensions of secularity making it difficult to pinpoint concrete sites agents and objects of expression Drawing on cases from South America Africa and Europe contributors apply key insights from religious studies debates on the genealogies and formations of both religion and secularism They explore the spaces persons and places in which these categories emerge and mutually constitute one another

Balboni, 2018-09-18 *Hostility to Hospitality* is one of the first books of its kind to explore the secular sacred divide and the hostilities threatening medicine offering a path forward for the partnership of modern medicine and spirituality Drawing from interdisciplinary scholarship including empirical studies interviews history and sociology theology and public policy the authors argue for structural pluralism as the key to changing hostility to hospitality

Spiritual Healing Sarah Coakley, 2020-10-15 Spiritual healing has been a cornerstone of Christian belief from its beginnings although there are various interpretations of what exactly it is and how it happens To address these questions the contributors to this volume come together to examine spiritual healing from a number of disciplinary perspectives How can such healing be explained through a scientific or medical lens What do biblical and historical instantiations of it tell us today And how are we to think of it as anthropologists philosophers or theologians Finally what does all this mean for those seeking spiritual healing for themselves or pastors walking alongside the afflicted Deftly edited by theologian Sarah Coakley *Spiritual Healing* offers a composite narrative that investigates the many intermingled factors at work in this intriguing phenomenon The result is a human story as much as it is a theological one satisfying discerning believers and skeptics alike in its rigorous pursuit of truth and meaning
