## Napoleonic Heavy Cavalry & Dragoon Tactics

On the battlefields of the Napoleonic Wars, heavy cavalry acted as a bludgeon, usually held in reserve until the decisive moment. Not all armies could afford the expense of a large heavy cavalry arm, but in those that could – notably Napoleon's own Grande Armée – its effectiveness as the ultimate decider of battles varied dramatically from overwhelming triumph (as at Eylau) to utter failure (as at Waterloo). The doctrine for the best employment of heavy cavalry was well understood, but in practice the outcome depended as much upon terrain, timing, morale and discipline as upon the manoeuvres laid out in the instruction manuals. Drawing upon numerous period sources both official and personal, this book offers a concise illustrated explanation of how heavy cavalry and dragoons were organized, equipped and deployed, from the assembly of divisions down to the formations adopted by a squadron. It also reveals how they actually fought, down to the individual trooper's handling of his mount and his sabre.

Napoleon's army is analysed and portrayed here with greater accuracy than previously possible. This is because renowned Napoleonic author Paul Dawson has been granted access to over 1 000 archive boxes found in the Service Historique de l'Armée de Terre in Paris and the Archives Nationales. These have enabled the author to assess how the wide ranging 1806 uniform regulations and the more famous Bardin regulations were adopted in practice. This vast resource as yet untapped by the majority of researchers and historians for understanding the Napoleonic era in general provides detail never before revealed to the general public. This is possible because every year a regiment would be inspected and the condition of the uniforms assessed. A return of all the clothing to be disposed of was made and the appropriate number of new items ordered. Items of clothing and equipment needing repair was also recorded as was how many items had been repaired since the last inspection. Upon joining a regiment the recruit was given his first full set of clothing and equipment which came from stoppages in his pay. Each item of clothing had a specified life. If the items needed repair or replacement inside the prescribed period due to misuse the cost was borne by the soldier. All of this was recorded. There was an annual quota of money available to a colonel to pay for clothing renewals and repairs for his regiment. In addition the regimental Council of Administration drew funds to buy raw materials, equipment and headaddresses. These funds also covered sundry items such as the epaulettes of the adjutant, sous-officiers' lace for rank stripes, service chevrons, musicians' and drummers' lace, plumes and pompoms such as the remarkable level of detail these records contain. These invaluable sources provide bias free empirical data from which we can reconstruct the life story of a regiment, its officers and above all its clothing. In addition to the official records the author has constructed how the regiments were dressed from diaries, letters and even cases of fraud. As well as providing the recorded details, this book shows in scores of beautiful illustrations exactly how each regiment appeared. These images include period paintings as well as works specifically commissioned for this book plus unique photographs of existing items of uniform. Now for the first time since the days of Napoleon we can say exactly what was worn by Napoleon's cavalry.

**French Dragoons** Veronique Letrun, Ludovic Letrun, 2015-04-17 In this second half of the 18th century military tactics changed going from static siege tactics to rapid maneuvers giving the cavalry a predominant role again on the field of battle. The changes in uniform, organization and tactics of the Dragoon regiments evolved over three periods. The main corps gradually joined with the cavalry becoming a key element in the new strategy of movement. The first period included ordinances from 1750 and 1757 and mainly improved the troops' comfort. The second period of change reorganized and unified the corps. Finally the last period provided the republic with the most modern corps and army in the world.
