

# NAPOLEON'S CAMPAIGN IN POLAND 1806-1807

by F. Loraine Petre

New Introduction by  
Dr David G. Chandler

# Napoleons Campaign In Poland 1806 1807 Greenhill Military Paperbacks

**Napoleon I (Emperor of the French)**

## **Napoleons Campaign In Poland 1806 1807 Greenhill Military Paperbacks:**

Napoleon's Campaign in Poland, 1806-1807 Francis Loraine Petre, 1907      Artillery of the Napoleonic Wars, 1792-1815 Kevin F. Kiley, 2004-01-06 An extensive look at the large caliber guns of the Napoleonic period the battles in which they were used and the important figures in those conflicts In this heavily researched study Kevin Kiley examines Napoleon s own artillery as well as that employed by his enemies and he evaluates the gunners contribution to warfare in the period By looking at particular battles in detail Kevin Kiley shows just how the effective employment of artillery could tip the scales of victory Artillery of the Napoleonic Wars reveals much of the technical aspects of gunnery during the period how guns were placed their range what calibers were preferred how artillery operates It examines French artillery including that of the Imperial Guard and compares it to that of Britain Russia and Austria it also looks at many of the personalities involved and the difference between good gunnery and mediocre artillery Illustrated with beautiful line drawings and rare contemporary plates this unique book reveals a whole new dimension to the Napoleonic period Based on years of research into regulations of the period eyewitness accounts of artillerymen and material culled from official reports this is a definitive account This must undoubtedly become the standard work for anyone interested in the artillery of the period Waterloo Journal      The Cambridge History of the Napoleonic Wars: Volume 2, Fighting the Napoleonic Wars Bruno Colson, Alexander Mikaberidze, 2023-03-02 The Napoleonic Wars saw almost two decades of brutal fighting Fighting took place on an unprecedented scale from the frozen wastelands of Russia to the rugged mountains of the Peninsula from Egypt s Lower Nile to the bloody battlefield of New Orleans Volume II of The Cambridge History of the Napoleonic Wars provides a comprehensive guide to the Napoleonic Wars and weaves together the four strands military naval economic and diplomatic that intertwined to make up one of the greatest conflicts in history Written by a team of the leading Napoleonic scholars this volume provides an authoritative and comprehensive analysis of why the nations went to war the challenges they faced and how the wars were funded and sustained It sheds new light not only on the key battles and campaigns but also on questions of leadership strategy tactics guerrilla warfare recruitment supply and weaponry      *The Napoleonic Wars (1)* Todd Fisher, 2014-06-06 While Napoleon prepared his army on the coast of France for an invasion of England that would never come Russia and Austria prepared to move against his rear Napoleon turned on the allies and crushed them in one of history s greatest campaigns The following year he met the legendary army of Frederick the Great and annihilated it completely The year after it was Russia s turn again and though the northern winter was the major foe it could not save the Tsar The world and warfare would never be the same again The Empires of Russia Austria Prussia and Britain were not weak How had Napoleon done this Why were his methods and his army different      **A Tarnished Eagle: Napoleon's Winter Campaign In Poland, December 1806 Through February 1807** Major Edward J. Murphy, 2014-08-15 The victories and accomplishments of Napoleon and his Grand Army were by the winter of 1806 the stuff of legend Yet on the bloody field of

Eylau Napoleon lost both his prestige and over one third of his Army How did this Russian Army of notable inferior weapons tactics organization and leadership stave off defeat and almost achieve victory The answer lies in that Napoleon did not only fight the Russians but also suffered a combination of poor morale and inaccurate reconnaissance His overextended lines of communications covered an area that was known for its harsh terrain poor supplies and extremely bad weather The Campaign cost Napoleon over 43 000 casualties and proved indecisive The campaign and Battle of Eylau ruined Napoleon s image of invincibility and completely gutted the Grand Army of a wealth of leadership and experience Over twenty general officers were killed or seriously wounded at Eylau Subsequently Napoleon would have to consistently rely on more conscripts and an ever increasing number of foreign troops to fill his depleted ranks Napoleon s Army would never again resemble the previously invincible Grand Army that died on the blood soaked snows of Poland

**The Napoleonic Wars** Todd Fisher,2001 In the space of two years Napoleon Bonaparte transformed the face of warfare crushing every major continental state that stood against him The Empires of Russia Austria Prussia and Britain were not weak so how were Napoleon s methods and his army so formidable This revealing and engaging book explores the rise of Napoleon the Emperor focusing particularly on the lives of both soldiers and civilians affected by the prolonged warfare in Europe The impact of the conflict on aspects of life and culture within Napoleon s Empire is exposed in fascinating detail in this unique approach to the history of the Napoleonic Wars

Napoleon on War Napoleon I (Emperor of the French),2015 The first ever systematic and authoritative compilation of Napoleon s thinking on war this is as close as we will ever get to the great book on war that Napoleon contemplated but never had the time or the will to complete in his last years in exile on Saint Helena

**The Iberian Leech: Napoleon's Counterinsurgency Operations In The Peninsula, 1807-1810** Major Mark A.

Reeves,2015-11-06 By 1807 Napoleon s victories over his European adversaries were legendary His Grand Army had defeated the greatest European armies of the period Each army in succession from the Hapsburg Empire to Russia had been soundly beaten and had not been able to come to grips with how to deal with his lightning style of warfare Yet over a six year period from 1807 to 1813 in the backwater Iberian Peninsula Napoleon lost both his prestige and more troops than he lost in the infamous wintry campaign in Russia How did an army of bandits priests and commoners along with a small expeditionary force achieve victory over the most powerful armies on the continent The answer lies in that Napoleon did not only fight a band of insurgents and a small British led coalition army but he also suffered from a combination of poor morale weak leadership and a refusal to fully recognize the enemy situation His overextended lines of communications covered an area that was bleak and poor in resources and he could no longer rely on foraging to feed and supply his troops many of them suffering from starvation The Iberian Campaign cost Napoleon over 250 000 troops and drained the French of manpower and resources that could have been used elsewhere The campaign bankrupt Napoleon s image of invincibility and sapped his armies leadership and experience Therefore Napoleon would have to rely on more conscripts and an ever increasing number

of foreign troops to fill his depleted ranks Napoleon's generals were entangled in a politico military quagmire for which they were never prepared and for which they received little guidance The Peninsular Campaign sucked the lifeblood of Napoleon's armies and they were never able to fully recover from it

**Fighting Techniques of the Napoleonic Age** Robert Bowman Bruce, 2008-04-15 *Fighting Techniques of the Napoleonic World* explores the tactics and strategy required to win battles with the technology available during the Napoleonic period 1789-1815 and points out how the development of such weapons technology changed the face of the battlefield Divided into five sections it highlights Individual components of the armies the foot soldier the cavalryman and the artilleryman the equipment they wore and used and how they fought together

Technology change the emergence of military professionalism and the impact these changes had on the battlefield How units were used together on the battlefield and strategic positioning of battle units Specialist techniques and equipment developed for artillery Naval warfare from the ships in which the men fought to the weapons they carried

**Decoding Clausewitz** Jon Tetsuro Sumida, 2008-09-05 For nearly two centuries *On War* by Carl Phillip Gottfried von Clausewitz 1780-1831 has been the bible for statesmen and military professionals strategists theorists and historians concerned about armed conflict The source of the famous aphorism that war is an extension of politics by other means it has been widely read and debated But as Jon Sumida shows in this daring new look at Clausewitz's magnum opus its full meaning has eluded most readers until now Approaching Clausewitz's classic as if it were an encoded text Sumida deciphers this cryptic masterwork and offers a more productive way of looking at the sources and evolution of its author's thought Sumida argues that *On War* should be viewed as far more complete and coherent than has been supposed Moreover he challenges the notion that *On War* is an attempt to explain the nature of armed conflict through the formulation of abstract theories Clausewitz's primary concern Sumida contends was practical instruction of the military and political leadership of his country To achieve this end Clausewitz invented a method of reenacting the psychological difficulties of high command in order to promote the powers of intuition that he believed were essential to effective strategic decision making In addition Sumida argues that Clausewitz's primary strategic proposition is that the defense is a stronger form of war than the offense This concept Sumida maintains must be understood in order to make sense of Clausewitz's positions on absolute and real war guerrilla warfare and the relationship of war and policy politics Sumida's pathbreaking critique is supported by examination of the Prussian officer's experience during the Napoleonic Wars previous major theoretical and historical scholarship on Clausewitz and his writing and modern philosophical and scientific works that have much in common with Clausewitz's creative guide to the consideration of strategic practice A major study of intellectual and military history Sumida's book provides a provocative and above all readily comprehensible treatment of a previously inaccessible classic It will surely become essential reading for all military professionals and serious students of military thought

**Napoleon's Campaign in Poland, 1806-1807** Francis Loraine Petre, 1989 *Land of War* William Nester, 2023-05-01 War in Europe began with the first human migrants

Rival bands fought for thousands of years before the Greeks and Romans began writing about their military history first as legend for instance the hero Achilles battling the Trojans and then as fact War developed from sticks and stones to bronze iron and steel including armor and edged weapons Then came gunpowder guns and cannons which eventually replaced edged weapons Finally in the nineteenth and twentieth centuries technology exploded railroads steamships telegraphs machine guns automobiles airplanes and tanks enabled European states to muster equip arm transport and command more men than ever before with more firepower than ever before In the past seventy five years atomic weapons changed the military landscape of Europe as have the internet and cyber warfare In this colorful new telling of European warfare and indeed European history through the continent's all too numerous wars and conflicts William Nester describes millennia of armed conflict He covers the greatest hits of military history both ancient and current Thermopylae the Peloponnesian War the wars of the Roman Empire across the continent the Battle of Hastings the Crusades Agincourt Waterloo Napoleon and Wellington the Somme the Spanish Civil War Stalingrad and Normandy Churchill Hitler and Stalin Bosnia and up through Putin's attempts to redraw the map of Europe Nester highlights how warfare has been deeply entwined with European statesmanship and undergirds modern institutions such as NATO and the European Union Europe's sense of itself is bound up in its military history Land of War is an epic odyssey from Europe's mythic origins through its latest violent conflicts

**Artillery of the Napoleonic Wars: A Concise Dictionary, 1792-1815** Kevin F. Kiley, 2021-03-15 A comprehensive military history reference book exploring all aspects of the artillery used during the Napoleonic Wars Napoleon began his military career as an artillery cadet and artillery played a fundamental part in all his great battles Until the Napoleonic Wars artillery had been seen merely as a supporting arm to the infantry but Napoleon changed everything He massed his guns in huge batteries to blast holes in his opponent's line He even used the artillery to charge the enemy the gunners galloping up to the enemy to open fire at pointblank range Napoleon's opponents did not all follow suit choosing other tactical deployments As a result the Napoleonic era more than any that preceded or followed it was one of fascinating artillery maneuvers and critical actions that changed the course of many of the key battles As the Prussian Field Marshal Blücher once observed Against Napoleon you needed guns and lots of them The Napoleonic Wars was also a time of innovation with the introduction of shrapnel shells and military rockets This book will examine the artillery arms of all sides from muzzle to butt plate As well as the significant artillerymen of the period the scientists and innovators military and civilian individuals such as Robins Belidor Gribeauval and his colleagues Maritz Liechtenstein and his collaborators as well as the du Teil brothers will all be examined as will the important battles and sieges significant memoirs and documents and artillery terms that soon became part of the military lexicon Written by the renowned historian Kevin F Kiley this will be the definitive book on the subject and will cover all aspects of artillery in the Napoleonic Wars This is a wonderfully complete induction into the details of Napoleonic Artillery As well as defining some of the archaic terms associated with the art of gunnery note point

blank is not what we mostly believe it to be it provides background to the careers of the key characters in the science The book contains many excellent technical drawings to explain sketches and images to inform and data tables in the appendix to which to refer Overall it is an indispensable aid to understanding the artillery of the period Michael McCarthy battlefield guide *Reader's Guide to Military History* Charles Messenger,2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations **A History of the Peninsular War** Charles Oman,Sir Charles Oman,1996 The 1807 1814 war in the Iberian Peninsula was one of the most significant and influential campaigns of the Napoleonic Wars Arising from Napoleon s strategic necessity to impose his rule over Portugal and Spain it evolved into a constant drain on his resources Sir Charles Oman s seven volume history of the campaign is an unrivalled and essential work His extensive use and analysis of French Spanish Portuguese and British participants accounts and archival material together with his own inspection of the battlefields provides a comprehensive and balanced account of this most important episode in Napoleonic military history Volume IV covers the period during which Portugal was finally secured from the danger of French conquest French successes in Spain continued but the army under Massena was forced finally to retreat from Portugal The Allied offensive began to gather momentum although their attempt to recapture Badajoz was unsuccessful

**Historical Dictionary of the Napoleonic Era** George F. Nafziger,2001-12-11 The author covers one of the most explosive and most exciting periods of world history spanning the time from the eruption of the French Revolution through the end of the Napoleonic wars 1789 1815 These twenty six years of history saw the birth of nationalism and Western democracy economic crisis and political convulsion the growth of industrialism the death of ancient traditions and the birth and break up of empire It was the time of Napoleon who gave his name to this period of tremendous change the period in which the roots of modern Europe were planted This work is intended as a broad review devoting a majority of its attention to the military and political events and personalities of the period while also surveying the major artistic social and cultural events and personalities that formed this period The Greenhill Napoleonic Wars Data Book Digby Smith,1998 Actions and Losses in Personnel Colours Standards and Artillery 1792 1815 from cover **Artillery of the Napoleonic Wars: Artillery in Siege, Fortress and Navy, 1792-1815** Kevin F. Kiley,2020-01-24 Filled with statistical information on the guns ammunition and carriages used by the armies places the reader on the ground with the gunners The Napoleon Series Napoleon was an artilleryman before he was an emperor He understood the power and effectiveness of cannon and their ability to pulverize defenses reduce fortresses and destroy attacks In return the guns won Napoleon battles This impressive

study chronicles the story of the guns and men during the twenty three years of almost continuous warfare from 1792 1815 from the battlefields of continental Europe to the almost primitive terrain of North America and of the seas lakes and rivers that connected them Detailed technical information is accompanied by vivid descriptions which allow the reader to imagine what it must have been like to maneuver and man the guns in a variety of situations whether on the march or on the battlefield Based on years of research into regulations of the period eyewitness accounts of artillerymen and material culled from official reports the scope and depth of material will satisfy the serious researcher while the lively narrative will appeal to the casual reader Kiley s research is impeccable and deserves the highest praise Moreover he writes in so entertaining a manner that he informs and educates without effort For the enthusiastic student of the attack and defense of fortified places this is an essential book of reference Fortress Study Group      **A History of the Peninsular War** Sir Charles William Chadwick Oman,1996      Warfare in the Western World: Military operations from 1600 to 1871 Robert A. Doughty,1996

Authoritative and concise Warfare in the Western World concentrates on selected campaigns and battles showing how political and military leaders in the West have used armies to wage war effectively over the last four centuries The text moves through the centuries discussing how operational developments and technological improvements eventually led to the concept of total war first approached in the American Civil War and culminating in the twentieth century s two world wars
