The Problems of Viewing Performance Michael Y. Bennett,2021-03-15 The Problems of Viewing Performance challenges long held assumptions by considering the ways in which knowledge is received by more than a single audience member and breaks new ground by counterintuitively claiming that viewing performance is not a shared experience Given that viewers come to each performance with differing amounts and types of knowledge they each make different assumptions as to how the performance will unfold Often modified by other viewers and often after the performance event knowledge of performance is made more accurate by superimposing the experiences and justified beliefs of multiple viewers These differences in the viewing experience make knowledge surrounding a performance intersubjective Ultimately this book explains the how and the why audience members have different viewing experiences The Problems of Viewing Performance is important reading

Pathology of the Capitalist Spirit D. Levine, 2013-04-05 Pathology of the Capitalist Spirit is about capital and about the economic system that bears its name In this book Levine argues that our pursuit of ever more wealth in the form of capital expresses our dissatisfaction with the world we live in with what we have and what we don t have Capital embodies our hope for something different Because capital embodies this hope it has become desire s object In his study of capitalism Levine explores the meaning of capital as a social reality connected to fundamental human aspirations The link between capital and the pursuit of a hoped for state is especially important in light of the stubborn insistence on the part of its critics that capitalism exists to serve the material interests of those whose vocation is to own capital This misunderstanding ignores what is essential about capital which is its link not to interests but to hope especially the hope that by accumulating capital the individual can achieve an attachment to the good It is this hope that blocks tolerance of any notion that there is something unfair in the capitalist s acquisition of wealth and that fairness can be achieved through its redistribution to others It is also this hope that animates the capitalist system as a whole And in that sense this hope is the spirit of capitalism To develop this theme Levine calls on the ideas and writings of major theorists involved with understanding modernity and capitalism Adam Smith Karl Marx Max Weber Emile Durkheim and Joseph Schumpeter **Live To Your Local Cinema** M. Barker, 2012-10-30 The digital broadcasting of performances to cinemas or livecasting burst onto the world scene in 2006 This book explores the reasons for its rise examines the aesthetics of filming theatre and opera performances and explores

Astrada, 2013-04-26 Today extensive interconnected global processes provide non state actors with a degree of agency that a System of States paradigm cannot account for alone Using Russia Latin America relations as a case study and applying a Complex Adaptive Systems perspective this work explores alternative international mechanisms of order and organization Digital Exposure R.

Sassower, 2013-04-26 This book adopts an explicitly postmodernist perspective of the digital revolution While exploring issues relating to the re creation of social life in the digital world its main focus is on the political economy and in particular the extent to which the paradigms of capitalism and socialism can be mapped as postcapitalism onto this new world

Moments, Attachment and Formations of Selfhood Kelly Forrest, 2012-10-30 Using innovative empirical data this book presents a unique approach to looking at moments exploring the deeper meanings of why memories stand out and how they influence an individual s sense of self Forrest challenges the privileged position of narrative coherence as the basis for healthy identity and formations of selfhood
