Buddhist Visual Cultures, Rhetoric, and Narrative in Late Burmese Wall Paintings Alexandra Green, 2018-01-04 Step into a Burmese temple built between the late seventeenth and early nineteenth centuries and you are surrounded by a riot of color and imagery. The majority of the highly detailed wall paintings displays Buddhist biographical narratives inspiring the devotees to follow the Buddha's teachings. Alexandra Green goes one step further to consider the temples and their contents as a whole, arguing that the wall paintings mediate the relationship between the architecture and the main Buddha statues in the temples. This forges a unified space for the devotees to interact with the Buddha and his community with the aim of transforming the devotees' current and future lives. These temples were a cohesively articulated and represented Burmese Buddhist world to which the devotees belonged. Green's visits to more than 160 sites with identifiable subject matter form the basis of this richly illustrated volume which draws upon art historical, anthropological, and religious studies methodologies to analyze the wall paintings and elucidate the contemporary religious, political, and social concepts that drove the creation of this lively art form. *Buddhist Visual Cultures, Rhetoric, and Narrative in Late Burmese Wall Paintings* is truly a tour de force that allows us to see Burmese temple paintings of the Life of the Buddha and similar themes as an open-ended genre that like literary discourse participates in wider social, intellectual, and religious contexts. Juliane Schober, Arizona State University. Alexandra Green introduces this relatively unknown material and subjects it to sophisticated analysis. This study is a major step towards creating a template that could be used for analyzing other late traditions of Buddhist painting. Janice Leoshko, University of Texas at Austin.

Sacred Biography in the Buddhist Traditions of South and Southeast Asia Juliane Schober, 2002 This interdisciplinary collection of essays explores the biographical genre of the Buddhist traditions of South and Southeast Asia. Scholars in the history of religions, anthropology, literature, and art history present a broad range of explorations into sacred biography as an interpretive genre. Each essay makes unique contributions, and the collection as a whole engages methodological and interpretive approaches that are central to scholars of Buddhism and those specializing in the study of South and Southeast Asia.

Folktales of Newfoundland Pbdirect J.D.A. Widdowson, Herbert Halpert, 2015-02-20 This collection of Newfoundland folk narratives first published in 1996 grew out of extensive fieldwork in folk culture in the province. The intention was to collect as broad a spectrum of traditional material as possible, and *Folktales of Newfoundland* is notable not only for the number and quality of its narratives but also for the format in which they are presented. A special transcription system conveys to the reader the accents and rhythms of each

performance and the endnote to each tale features an analysis of the narrator's language. In addition, Newfoundland has preserved many aspects of English and Irish folk tradition, some of which are no longer active in the countries of their origin. Working from the premise that traditions virtually unknown in England might still survive in active form in Newfoundland, the researchers set out to discover if this was in fact the case.

Cinderella's Gold Slipper S. D. Fohr, 2005-03 Samuel D. Fohr holds that the Grimms' tales are not just childish fairy tales but are filled with spiritual symbolism and as such have value for adults as well as children. Snow White, for example, is a story of creation and spiritual growth, and its message parallels Hindu and Judaic creation myths. Hansel and Gretel and Cinderella both portray the journey back to God. Fohr also looks at recurring themes in the stories and answers such questions as: Why are giants always evil and dwarves always good? What is the symbolic significance of the hungry wolf who appears in many stories? Exactly what are genies and why are they always trapped in bottles? A delightful but serious examination of cherished stories, this book reveals new meaning in familiar tales. Also included is an extensive bibliography and an Appendix on the authenticity of the Grimms' tales. The author is a professor of philosophy at the University of Pittsburgh at Bradford. He received his Ph.D. in Philosophy from the University of Michigan and has taught courses in both Western and Eastern Philosophy. He is the author of *Adam and Eve: The Spiritual Symbolism of Genesis and Exodus* and editor of more than a dozen volumes of *The Collected Works of René Guénon*. To say that Fohr retrieves fairy tales from the nursery on the one hand and retrieves them from mere entertainment for adults on the other is only the start of the matter. Like Freud, Jung, and Lévy Strauss, he recognizes the wisdom folktales embody, but he goes beyond those students of myth in arguing that the authors knew what they were doing; they crafted their tales consciously. This is a courageous and cogent book that goes a long way toward revalidating a literary genre that modernity has irresponsibly trivialized.

Interpreting Folklore Alan Dundes, 1980-08-22 Dundes has produced a work which will be useful to both students and teachers who wish to broaden their understanding of modern folklore. Center for Southern Folklore Magazine. It is impossible ever to remain unimpressed with Dundes' excursions; however, much one may be in disagreement or not with his conclusions. Forum for Modern Language Studies. Often controversial, Alan Dundes' scholarship is always provocative, perceptive, and intelligent. His concern here is to assess the material folklorists have so painstakingly amassed and classified to interpret folklore and to use folklore to increase our understanding of human nature and culture.
