The Reception of Northrop Frye, 2021-08-31 The widespread opinion is that Northrop Frye's influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton's 1983 rhetorical question Who now reads Frye In *The Reception of Northrop Frye* Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye's work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye's reception in front of us such as Hayden White's theory of emplotments applied to historical writing and Byron Almon's theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton's rhetorical question is a very large and growing number the growth being not incremental but exponential

Late Victorian Literary Collaboration Annachiara Cozzi, 2024-07-22 An exciting new contribution to the expanding but still largely uncharted territory of collaboration studies *Late Victorian Literary Collaboration* is the first book length study of the trend for collaborative writing that emerged in the last decades of the nineteenth century As a result of the rapidly growing literary market the years between 1870 and the turn of the century witnessed an unprecedented flow of collaboratively written novels In the 1890s co authorship became a craze with literary partnerships multiplying and fiction co written by twenty and more authors appearing in the pages of popular magazines By 1900 however the trend had already reversed and it quickly slipped into oblivion *Late Victorian Literary Collaboration* investigates the factors that made the period so conducive to collaboration tracing the reasons for its success and subsequent decline Drawing on a vast range of original sources the book discusses and compares different models of collaboration from life long exclusive partnerships to one time widely advertised collaborative ventures between best selling novelists It deals with authors such as Walter Besant Somerville and Ross Andrew Lang H R Haggard and Rhoda Broughton all favourites of the Victorian public but subsequently neglected and only recently reevaluated By unpacking the debate that developed around co authorship in the periodical press of the time the book also sheds light on how collaborative authorship was imagined by the general public and illustrates how the trend effectively if temporarily challenged Victorian assumptions about the author as a solitary genius
