**Integrating East Asian Medicine into Contemporary Healthcare E-Book** Volker Scheid, Hugh MacPherson, 2011-10-24 Traditional East Asian healthcare systems have moved rapidly from the fringes of healthcare systems in the West towards the centre over the past 50 years This change of status for traditional medicines presents their practitioners with both opportunities and challenges as the focus shifts from one of opposition towards one of integration into biomedically dominated healthcare systems Integrating East Asian Medicine into Contemporary Healthcare examines the opportunities and challenges of integrating East Asian medicine into Western healthcare systems from an interdisciplinary perspective Volker Scheid and Hugh MacPherson bring together contributions from acknowledged experts from a number of different disciplines including clinical researchers Chinese Medicine practitioners historians medical anthropologists experts in the social studies of science technology and medicine to examine and debate the impact of the evidence based medicine movement on the ongoing modernization of East Asian medicines The book considers the following questions What are the values goals and ethics implicit within traditional East Asian medical practices What claims to effectiveness and safety are made by East Asian medical practices What is at stake in subjecting these medical practices to biomedical models of evaluation What constitutes best practice How is it to be defined and measured What are the ideologies and politics behind the process of integration of East Asian medical practices into modern health care systems What can we learn from a variety of models of integration into contemporary healthcare

The Making of Modern Chinese Medicine, 1850-1960 Bridie Andrews, 2014-04-01 Medical care in nineteenth century China was spectacularly pluralistic herbalists shamans bone setters midwives priests and a few medical

missionaries from the West all competed for patients This book examines the dichotomy between Western and Chinese medicine showing how it has been greatly exaggerated As missionaries went to lengths to make their medicine more acceptable to Chinese patients modernizers of Chinese medicine worked to become more scientific by eradicating superstition and creating modern institutions Andrews challenges the supposed superiority of Western medicine in China while showing how traditional Chinese medicine was deliberately created in the image of a modern scientific practice

Feeling Machines Shawn Bender, 2024-11-19 In recent years debates over healthcare have accompanied rapid advances in technology from the expansion of telehealth services to artificial intelligence driven diagnostics In this book Shawn Bender delves into the world of Japanese robots engineered for care Care robots kaigo robotto emerged early in the 21st century when roboticists began converting assembly line technologies into responsive machines for older adults and people with disabilities These robots are meant to be felt and programmed to feel While some greet them with enthusiasm others fear that they might replace a fundamentally human task Based on fieldwork in Japan Denmark and Germany Bender traces the emergence of care robots in Japan and examines their impact on therapeutic practice around the world Social science scholarship on robotics tends to be either speculative imagining life together with robots or experimental observing robot human interaction in laboratories or through short term field studies Instead Bender follows roboticists developing technologies in Japan and travels with the robots themselves into everyday sites of care tracking the integration of robots into institutional care and the connection of care practice to robotics development By exploring the application of Japanese robotics across the globe Feeling Machines highlights the entanglements of therapeutic practice and technological innovation in an age of more than human care

**Medicine and Empire** Pratik Chakrabarti, 2013-12-13 The history of modern medicine is inseparable from the history of imperialism Medicine and Empire provides an introduction to this shared history spanning three centuries and covering British French and Spanish imperial histories in Africa Asia and America Exploring the major developments in European medicine from the seventeenth century to the mid twentieth century Pratik Chakrabarti shows that the major developments in European medicine had a colonial counterpart and were closely intertwined with European activities overseas The increasing influence of natural history on medicine The growth of European drug markets The rise of surgeons in status Ideas of race and racism Advancements in sanitation and public health The expansion of the modern quarantine system The emergence of Germ theory and global vaccination campaigns Drawing on recent scholarship and primary texts this book narrates a mutually constitutive history in which medicine was both a tool and a product of imperialism and provides an original accessible insight into the deep historical roots of the problems that plague global health today

**Complementary and Alternative Medicine** Caragh Brosnan, Pia Vuolanto, Jenny-Ann Brodin Danell, 2018-03-26 This book examines how complementary and alternative medicine CAM as knowledge philosophy and practice is constituted by and transformed through broader social developments Shifting the sociological focus away from

CAM as a stable entity that elicits perceptions and experiences chapters explore the forms that CAM takes in different settings how global social transformations elicit varieties of CAM and how CAM philosophies and practices are co produced in the context of social change Through engagement with frameworks from Science and Technology Studies STS CAM is reconceptualised as a set of practices and knowledge making processes and opened up to new forms of analysis Part 1 of the book explores how and why boundaries within CAM and between CAM and other health practices are being constructed challenged and changed Part 2 asks how CAM as material practice is shaped by politics and regulation in a range of national settings Part 3 examines how evidence is being produced and used in CAM research and practice Including studies of CAM in Eastern and Western Europe Asia and North and South America the volume will appeal to postgraduate students researchers and health practitioners

*Worlding the south* Sarah Comyn,Porscha Fermanis,2021-07-06 This electronic version has been made available under a Creative Commons BY NC ND open access license This collection brings together for the first time literary studies of British colonies in nineteenth century Australia New Zealand South Africa South America Southeast Asia and the South Pacific Islands Drawing on hemispheric studies Indigenous studies and southern theory to decentre British and other European metropolises the collection offers a groundbreaking challenge to national paradigms and traditional literary periodisations and canons by prioritising southern cultural networks in multiple regional centres from Cape Town to Dunedin *Worlding the south* examines the dialectics of literary worldedness in ways that recognise inequalities of power textual and material violence and literary and cultural resistance The collection revises current literary histories of the British world by arguing for the distinctiveness of settler colonialism in the southern hemisphere and by incorporating Indigenous diasporic and south south perspectives

**Asian Medical Industries** Stephan Kloos,Calum Blaikie,2022-02-28 This book develops the concept of Asian Medical Industries as a novel perspective on traditional Asian medicines Complementing and updating existing work in this field the book provides a critical and comparative analytic framework for understanding Chinese Medicine Ayurveda Sowa Rigpa and Japanese Kampo in the 21st century No longer subaltern health resources or conservative systems of traditional knowledge these medicines have become an integral part of modern Asia as innovative lucrative industries Ten original case studies employ insights from anthropology history geography pharmaceutical sciences botany and economics to trace the transformation of Asian medical traditions into rapidly growing and dynamic pharmaceutical industries Collectively these contributions identify this as a major phenomenon impacting Asian and global healthcare economics cultural politics and environments The book suggests that we can learn more about Asian medicines today by approaching them as industries rather than as cultural or epistemic systems *Asian Medical Industries* is a highly original resource for students and scholars across a range of academic fields such as anthropology history and Asian studies as well as medical practitioners health sector actors and policymakers

*Know Your Remedies* He Bian,2022-03-08 Traditional Chinese medicine has been practiced in various forms for more than a thousand years Practitioners may heal

patients with herbal remedies acupuncture massage exercise and modified diets Even today herbal medicines are of particular importance Chinese pharmacies containing a vast array of remedies can be found in cities and towns the world over This book is an interdisciplinary and cultural history of the concept of pharmacy both the drugs themselves and the trade in medicine during the Ming and Qing dynasties of early modern China This was a time of change for traditional Chinese medicine and for Chinese science as a whole Many historians have argued that sixteenth century China was a high point of scientific inquiry followed by a period of intellectual decline Though political and intellectual shifts led to a crisis of authority over pharmaceutical knowledge in the sixteenth through eighteenth centuries Bian argues that this period of supposed intellectual decline was in fact characterized by numerous efforts to further refine and spread the pharmacological knowledge amassed in the Ming dynasty She draws on a wide range of primary sources but particularly through the study of *bencao* pronounced *pen ts ao* a genre of encyclopaedic works often called *materia medica* or *pharmacopoeia* in the West that collect information on medicinal substances As the early modern Chinese Empire expanded and print culture became more widespread the pursuit of medical remedies became a significant commercial enterprise The author connects theory and practice of pharmacy during the Ming and Qing dynasties to broader developments in intellectual history book culture commerce and taxation

**Forgotten Disease** Hilary A Smith, 2023-05-25 Following the course of one disease over nearly two millennia this book provides a wonderful and highly readable history of Chinese medicine Isis Around the turn of the twentieth century disorders that Chinese physicians had been writing about for over a millennium acquired new identities in Western medicine sudden turmoil became cholera flowers of heaven became smallpox and foot qi became beriberi Historians have tended to present these new identities as revelations overlooking evidence that challenges Western ideas about these conditions In *Forgotten Disease* Hilary A Smith argues that by privileging nineteenth century sources we misrepresent what traditional Chinese doctors were seeing and doing therefore unfairly viewing their medicine as inferior Drawing on a wide array of sources ranging from early Chinese classics to modern scientific research Smith traces the history of one representative case foot qi from the fourth century to the present day She examines the shifting meanings of disease over time showing that each transformation reflects the social political intellectual and economic environment The breathtaking scope of this story offers insights into the world of early Chinese doctors and how their ideas about health illness and the body were developing far before the advent of modern medicine Smith highlights the fact that modern conceptions of these ancient diseases create the impression that the West saved the Chinese from age old afflictions when the reality is that many prominent diseases in China were actually brought over as a result of imperialism She invites the reader to reimagine a history of Chinese medicine that celebrates its complexity and nuance rather than uncritically disdaining this dynamic form of healing An extraordinary book replete with rich and imaginative storytelling and insightful analyses *Harvard Journal of Asiatic Studies*

*The Church, Migration, and Global (In)Difference* Darren J. Dias, Jaroslav Z. Skira, Michael S.

Attridge, Gerard Mannion, 2021-01-21 The painful reality faced by refugees and migrants is one of the greatest moral challenges of our time in turn becoming a focus of significant scholarship This volume examines the global phenomenon of migration in its theological historical and socio political dimensions and of how churches and faith communities have responded to the challenges of such mass human movement The contributions reflect global perspectives with contributions from African Asian European North American and South American scholars and contexts The essays are interdisciplinary at the intersection of religion anthropology history political science gender and post colonial studies The volume brings together a variety of perspectives inter related by ecclesiological and theological concerns     **Medicine Between Science and Religion**

Vincanne Adams, Mona Schrempf, Sienna R. Craig, 2010-12-01 There is a growing interest in studies that document the relationship between science and medicine as ideas practices technologies and outcomes across cultural national geographic terrain Tibetan medicine is not only known as a scholarly medical tradition among other Asian medical systems with many centuries of technological clinical and pharmacological innovation it also survives today as a complex medical resource across many Asian nations from India and Bhutan to Mongolia Tibet TAR and China Buryatia as well as in Western Europe and the Americas The contributions to this volume explore in equal measure the impacts of western science and biomedicine on Tibetan grounds i e among Tibetans across China the Himalaya and exile communities as well as in relation to globalized Tibetan medicine and the ways that local practices change how such science gets done and how this continually hybridized medical knowledge is transmitted and put into practice As such this volume contributes to explorations into the bi directional flows of medical knowledge and practice     **A Companion to Hong Kong Cinema**

Esther M. K. Cheung, Gina Marchetti, Esther C. M. Yau, 2015-06-08 A Companion to Hong Kong Cinema provides the first comprehensive scholarly exploration of this unique global cinema By embracing the interdisciplinary approach of contemporary film and cultural studies this collection navigates theoretical debates while charting a new course for future research in Hong Kong film Examines Hong Kong cinema within an interdisciplinary context drawing connections between media gender and Asian studies Asian regional studies Chinese language and cultural studies global studies and critical theory Highlights the often contentious debates that shape current thinking about film as a medium and its possible future Investigates how changing research on gender the body and sexual orientation alter the ways in which we analyze sexual difference in Hong Kong cinema Charts how developments in theories of colonialism postcolonialism globalization neoliberalism Orientalism and nationalism transform our understanding of the economics and politics of the Hong Kong film industry Explores how the concepts of diaspora nostalgia exile and trauma offer opportunities to rethink accepted ways of understanding Hong Kong s popular cinematic genres and stars     **Medical Transitions in Twentieth-Century China**

Bridie Andrews, Mary Brown Bullock, 2014-08-14 Rich insights into how one country has dealt with perhaps the most central issue for any human society the health and wellbeing of its citizens The Lancet This volume examines important aspects of

China's century long search to provide appropriate and effective health care for its people. Four subjects: disease and healing encounters and accommodations, institutions and professions, and people's health. Organize discussions across case studies of schistosomiasis, tuberculosis, mental health, and tobacco and health. Among the book's significant conclusions are the importance of barefoot doctors in disseminating western medicine, the improvements in medical health and services during the long Sino-Japanese war, and the important role of the Chinese consumer. This is a thought provoking read for health practitioners, historians, and others interested in the history of medicine and health in China. **China's Modernization I**

Georg Peter, Reuß-Markus Krauß, 2015-09-09. The idea of only one way leading to a modern society seems to be hardly tenable. But even if we agree to this, our theories and terms describing modernization are gained on our own Western history. So social science has to reconsider its basic terms to describe China's modernization and maybe even the understanding of modernization itself. The first of two volumes on China's modernization collects articles by leading Chinese and Western scientists focusing on the main conflicts and differences this process involves. In a first section, *Changing China: Dealing with Diversity*, Björn Alperman analyses the terms *Class*, *Citizenship*, and *Individualization* in China's Modernization. Andrew Kipnis analyses the Chinese Nation Building as *Instead of and Before Globalization*, while John R. Gibbins examines *Principles for Cosmopolitan Societies: Values for Cosmopolitan Places On Modernization, Law, Business, and Economy in China*. The second section deals with *Modernizing Chinese Law: The Protection of Private Property in China* by Sanzhu Zhu, *Chinese Organizations as Groups of People Towards a Chinese Business Administration* by Peter J. Peverelli, and *Income Gaps in Economic Development: Differences among Regions, Occupational Groups, and Ethnic Groups* by Ma Rong. The last section, *Thinking Differentiations: Chinese Origin and the Western Culture*, concentrates on the role of religion with articles by Richard Madsen, *Christianity and Hybrid Modernity in China*, and Thorsten Botz-Bornstein, *Confucianism, Puritanism, and the Transcendental China and America*. Jeffrey N. Wasserstrom argues that Nathan Sharansky's test for free nations should take regional variations into account in China and the *Town Square Test: In Metaphor, Poetry, and Cultural Implicature*. Ying Zhang examines if the Western understanding of metaphor can be transferred to Chinese language and culture. The additional rubric *On Contemporary Philosophy* involves three articles about the question *Can Science Change our Notion of Existence* by Jody Azzouni, *The Epistemological Significance of Practices* by Alan Millar, and *On Cappelen and Hawthorne's Relativism and Monadic Truth* by J. Adam Carter. Content and abstracts: [www.protosociology.de](http://www.protosociology.de). **EFieldnotes** Roger Sanjek, Susan W. Tratner, 2016. Examines how anthropological fieldwork has been affected by technological shifts in the 25 years since the 1990 publication of *Fieldnotes: the making of anthropology*, edited by Roger Sanjek, published by Cornell University Press.

**Migrant Conversions** Erica Vogel, 2020-03-10. A free open access ebook is available upon publication. Learn more at [www.luminosoa.org](http://www.luminosoa.org). Peruvian migrant workers began arriving in South Korea in large numbers in the mid 1990s, eventually becoming one of the largest groups of non-Asians in the country. *Migrant Conversions* shows how, despite facing unstable

income and legal exclusion migrants come to see Korea as an ideal destination Some even see it as part of their divine destiny Faced with looming departures Peruvians develop cosmopolitan plans to transform themselves from economic migrants into pastors lovers and leaders Set against the backdrop of 2008 s global financial crisis Vogel explores the intersections of three types of conversions money religious beliefs and cosmopolitan plans to argue that conversions are how migrants negotiate the meaning of their lives in a constantly changing transnational context At the convergence of cosmopolitan projects spearheaded by the state churches and other migrants Peruvians change the value and meaning of their migrations Yet in attempting to make themselves at home in the world and give their families more opportunities they also create potential losses As Peruvians help carve out social spaces they create complex and uneven connections between Peru and Korea that challenge a global hierarchy of nations and migrants Exploring how migrants churches and nations change through processes of conversion reveals how globalization continues to impact people s lives and ideas about their futures and pasts long after they have stopped moving or that particular global moment has come to an end

**The Routledge Handbook of Archaeology and Globalization** Tamar Hodos, 2016-11-18 This unique collection applies globalization concepts to the discipline of archaeology using a wide range of global case studies from a group of international specialists The volume spans from as early as 10 000 cal BP to the modern era analysing the relationship between material culture complex connectivities between communities and groups and cultural change Each contributor considers globalization ideas explicitly to explore the socio cultural connectivities of the past In considering social practices shared between different historic groups and also the expression of their respective identities the papers in this volume illustrate the potential of globalization thinking to bridge the local and global in material culture analysis The Routledge Handbook of Archaeology and Globalization is the first such volume to take a world archaeology approach on a multi period basis in order to bring together the scope of evidence for the significance of material culture in the processes of globalization This work thus also provides a means to understand how material culture can be used to assess the impact of global engagement in our contemporary world As such it will appeal to archaeologists and historians as well as social science researchers interested in the origins of globalization
