Our Ageing Brain How Our Mental Capacities Develop As We Get Older:

Our Ageing Brain André Aleman, 2014-09-01 An international bestseller delivering good news on brain function and ageing We all worry sometimes that our brains particularly our memories just don't work as well as they used to In this illuminating book internationally acclaimed Dutch neuroscientist Andr Aleman shows that although the decline in our mental capacities begins earlier than we think this is not such a bad thing In fact older people are more resistant to the effects of stress cope better with their emotions and with complex situations and are generally speaking happier than their younger counterparts *Our Ageing Brain* will change the way we think about age and mental acuity Drawn from the latest research in cognitive science it outlines what takes place in the brain as we age how to recognise the early symptoms of Alzheimer's disease and how to distinguish fact from fiction when it comes to ways of slowing down the ageing process It concludes with the seven most important things we can each do to keep our brains healthy Published here in English for the first time this is a refreshing informative and ultimately reassuring examination of what happens to our most important organ as we grow older

Intelligence: A Very Short Introduction Ian J. Deary, 2001-02-22 People value their powers of thinking and most of us are interested in why some people seem to drive a highly tuned Rolls Royce brain while others potter along with a merely serviceable Ford Fiesta This Very Short Introduction describes what psychologists have discovered about how and why people differ in their thinking powers The book takes readers from no knowledge about the science of human intelligence to a stage where they are able to make judgements for themselves about some of the key questions about human mental ability differences Each chapter deals with a central issue that is both scientifically lively and of considerable general interest and is structured around a diagram which is explained in the course of the chapter The issues discussed include whether there are several different types of intelligence whether intelligence differences are caused by genes or the environment the biological basis of intelligence differences and whether intelligence declines or increases as we grow older ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Understanding Brain Aging and Dementia Lawrence J. Whalley, 2015-07-07 The life course method compares an individual's long life and late life behaviors to gauge one's mental decay Arguing the life course approach is the best and simplest model for tracking mental development Lawrence J Whalley unlocks the mysteries of brain functionality illuminating the processes that affect the brain during aging the causes behind these changes and effective coping strategies Whalley identifies the genetic factors that determine the pace of aging and the behaviors starting in childhood that influence how we age Through vignettes charts and tables he composes an accessible book for patients family members and caretakers struggling to make sense of a complex experience
