Social Work with Children and Their Families Christopher G. Petr, 2004 An extensively revised version of the first edition this text focuses on the practical foundational knowledge required to practice social work effectively in the complex and fast changing world of services to children and their families The core organizing framework consists of eight pragmatic perspectives combating adultcentrism family centered practice the strengths perspective respect for diversity and difference the least restrictive alternative ecological perspective organization and financing and achieving outcomes Unlike most texts that focus either on direct practice or on policy Petr's revised volume integrates current policy including recent reform efforts with best practices The student thus gains a deep appreciation for how direct social work practice is linked to and even guided by contemporary policy initiatives and the values that underscore those initiatives Two new chapters are devoted specifically to the fields of child welfare and children's mental health providing an overview of the laws policies practices and terminology pertaining to each setting The

next eight chapters focus on each pragmatic perspective and its relevance to child welfare and children's mental health. The in-depth case studies that comprise the concluding two chapters illustrate how typical client situations can be successfully addressed within the context of the pragmatic perspectives. Packed with case studies, specific practice instruction, chapter summaries, and suggested learning activities, this book prepares students and practitioners to think and act professionally in ways that are consistent with current laws, values, policies, and reform efforts in the field.

Pediatric Life Care Planning and Case Management Kate M. Grady, Andrew M. Severn, Paul R. Eldridge, 2011-04-26 Pediatric Life Care Planning and Case Management provides a comprehensive and unique reference that goes beyond the clinical discussion to include legal and financial aspects, life expectancy data, and assistive technology. It also includes case samples of actual plans related to specific conditions. The book is divided into five parts: Normal Growth, School Nursing, Janice Selekman, Robin Adair Shannon, Catherine F. Yonkaitis, 2019-07-01. Produced in cooperation with the National Association of School Nurses, this text includes comprehensive coverage of the multiple facets of school nursing, from the foundations of practice and the roles and functions of a school nurse through episodic and chronic illness and behavioral issues to legal issues and leading and managing within school settings. Written and edited by school nurses and pediatric experts, it features real-world tested best practices based on evidence and experience. There's content here that you won't find in other books such as health assessments, individualized health plan development, mental health conditions including adolescent depression, contemporary legal issues, and current policy statements essential to school nursing.

Foundations in Neonatal and Pediatric Respiratory Care Teresa A. Volsko, Sherry Barnhart, 2022-05-25 Advances in respiratory care over the past years have made a significant impact on the health and well-being of infants, children, and their families. Designed to be the primary text for the Neonatal and Pediatric course as part of the respiratory care core curriculum, Foundations in Neonatal and Pediatric Respiratory Care provides students and practitioners alike with a comprehensive yet reader-friendly resource. In this second edition, the authors recognize the importance of sharing the essential elements of care that are unique to children as they grow and develop and provide the clinician with the knowledge needed to effectively communicate recommendations for therapeutic intervention or changes to the plan of care. This text has contributions in each chapter by national experts who are actively practicing in their subject areas, providing the most relevant evidence-based material and content that has a significant and practical application to current practice. Every new print copy includes Navigate Premier Access that unlocks an interactive eBook, the Heart Lungs Module, an Equipment Simulator, Anatomy Physiology Module, additional case studies, test prep, and additional flashcards. NEW! Each chapter will feature five review questions per chapter. NEW! Chapter on non-invasive ventilation. Each chapter begins with a list of objectives in the NBRC testing format. Innovative and unique illustrations found throughout the text demonstrate how to properly provide care and use equipment in this specialty area. Following the NBRC matrix, this text is an exceptional reference for credentialed practitioners who are interested in taking the Neonatal Pediatric

Special credentialing exam and includes a comprehensive practice exam of 140 new itemsCase studies or critical thinking questions conclude every chapter allowing readers to apply what they have learnedA full suite of flashcards are included in the back of the book as a study tool for students 2023 750 pages
