

Outbreak Movie Questions

The film, *Outbreak*, portrays the efforts of an Army biologist, Sam Daniels, to prevent a global biological disaster. A rare killer virus from the African jungle has started an epidemic in a small southern California community. The virus has a 100% mortality rate. The film follows the scientists and army officials as they trace the epidemic and work to contain it. The story in the film is fictional BUT could something like this really happen?

The questions in Part 1 are listed for you to answer and use to digest what is occurring in the movie. You must take notes and answer the questions during the movie.

Part 2, which can be done after you view the movie, is a list of things that happened during the story. Some of these seem to be minor incidents, but each one has importance in advancing plot. Your job is to tell how each event is important to the story.

Part 3, consists of small discussion questions summarizing and examining the occurrences of the movie. This is to be typed and answered in formal format. Citations could be used in this section.

Part 1 – Chronological Order Movie Questions

1. Why was the military camp in the Montana River Valley, being headed to Haiti? What did this entail? Explain.
2. In the film, we see a progression of laboratory safety levels at the U.S. Army Medical Research Institute of Infectious Diseases (USAMRIID) at Fort Detrick, Maryland. Describe each level. As you progress from level to level, describe the differences between each the procedures and safety methods observed.
3. Why were Sam Daniels and his crew sent to the Montana Valley, Idaho?
4. How did the mystery disease get to the Montana Valley?
5. What is the infectious's explanation of why the disease was affecting the herd? Do you feel that there could be any truth to the explanation? Justify your answer.
6. a) What are the characteristics of the mystery disease?
7. Why did Casey show so much concern about the small town in Daniels' area as they were about to enter the 1004 area of the lab?
8. One of the staff describes the town "Montana virus" as sounding like the name of a perfume... "one drop and you'll feel so different, your complexion will melt in your arms." How do these words have a prophetic significance?
9. What measures were taken in Cedar Creek to contain the outbreak?
10. What was Operation Clean Sweep? Why did many officials think it was necessary?
11. What was the reason that the R-1100 antibiotic against Montana virus kept a secret?

Rozmiarek,2024-01-24 In addition to the infectious context the COVID 19 pandemic has brought many complications to social life Fear anxiety misinformation and loneliness associated with isolation as well as uncertainty about the days ahead have already caused psychological and emotional changes in many people Many social groups such as cancer patients the elderly schoolchildren and people with disabilities were particularly vulnerable to the psychosocial effects of the COVID 19 pandemic In light of current data even the WHO suggests that the psychological context of the pandemic may have caused more psychological damage than World War II Some researchers also infer the existence already of a post pandemic stress syndrome which is currently not an official medical diagnosis but rather a subtype of PTSD that is being diagnosed Also noted in the context of the pandemic is the breakdown of many social ties due to isolation loneliness the development of symptoms of depressive or anxiety disorders and the transformation of social life Thus it seems reasonable to estimate the magnitude of phenomena of psychosocial importance resulting from the impact of the epidemiological situation associated with the COVID 19 pandemic The primary issue to be considered within the framework of the topic is the identification of psychosocial factors affecting the quality of mental and social health of various social groups which are determined by the epidemiological situation associated with COVID 19 In this view the determining variables will be personal feelings of stress fear anxiety depression discouragement alienation and loneliness and in a global sense the reference of these phenomena to the comfort and quality of social life with particular emphasis on interpersonal relationships COVID 19 as mentioned above continues to be an important social issue and although the situation related to it has recently softened and media reports becoming less frequent It is inferred that we will only now see the full impact of the problems associated with the mental health crisis and the breakdown of interpersonal relationships caused by the COVID 19 pandemic **Public and**

Advancing Online Course Design and Pedagogy for the 21st Century Learning Environment Chatham, Daniel,2021-01-08 The current learning environment is substantially different than what existed for most of the 20th century Learners and teachers today must navigate in perpetually changing contexts where education is influenced by technological advancement and obsolescence economic barriers a changing employment landscape and even international politics Studies indicate that employers seek to hire graduates with strong skills in areas coalescing around international awareness creativity communication leadership and teamwork Skills and experiences in these areas are necessary preparation for the current economy and to pursue jobs that do not exist yet while providing some insulation against the obsolescence of industries that lack these characteristics These interpersonal skills are not often the subject of students degrees yet there are opportunities in online education to cultivate them With increased interest in new career options comes the need to reconsider how to teach subjects in the increasingly online environment Advancing Online Course Design and Pedagogy for the 21st Century Learning Environment is a critical reference book that navigates today s dynamic education requirements and provides examples of how online learning can foster growth in skill areas necessary for career advancement through effective course

design Moreover it helps educators gain insight into online pedagogy and course design for the 21st century learner and prepares them to convert traditional courses and enhance existing online courses thereby supporting students growth and development in the highly dynamic online learning environment Focusing on specific learning activities assessments engagement communication techniques and more this book provides a valuable resource for those seeking to upgrade teaching and learning into the online environment those that seek better employment outcomes for their students and those seeking to explore contemporary online course design strategies or examples This includes teachers instructional designers curriculum developers academicians researchers and students

Crafting Peace Caroline A. Hartzell,Matthew

Hoddie,2009-02-27 The recent efforts to reach a settlement of the enduring and tragic conflict in Darfur demonstrate how important it is to understand what factors contribute most to the success of such efforts In this book Caroline Hartzell and Matthew Hoddie review data from all negotiated civil war settlements between 1945 and 1999 in order to identify these factors What they find is that settlements are more likely to produce an enduring peace if they involve construction of a diversity of power sharing and power dividing arrangements between former adversaries The strongest negotiated settlements prove to be those in which former rivals agree to share or divide state power across its economic military political and territorial dimensions This finding is a significant addition to the existing literature which tends to focus more on the role that third parties play in mediating and enforcing agreements Beyond the quantitative analyses the authors include a chapter comparing contrasting cases of successful and unsuccessful settlements in the Philippines and Angola respectively
