*The Black Box Society* Frank Pasquale, 2015-01-05 Every day corporations are connecting the dots about our personal behavior silently scrutinizing clues left behind by our work habits and Internet use The data compiled and portraits created are incredibly detailed to the point of being invasive But who connects the dots about what firms are doing with this information The Black Box Society argues that we all need to be able to do so and to set limits on how big data affects our lives Hidden algorithms can make or ruin reputations decide the destiny of entrepreneurs or even devastate an entire economy Shrouded in secrecy and complexity decisions at major Silicon Valley and Wall Street firms were long assumed to be neutral and technical But leaks whistleblowers and legal disputes have shed new light on automated judgment Self serving and reckless behavior is surprisingly common and easy to hide in code protected by legal and real secrecy Even after billions of dollars of fines have been levied underfunded regulators may have only scratched the surface of this troubling behavior Frank Pasquale exposes how powerful interests abuse secrecy for profit and explains ways to rein them in Demanding transparency is only the first step An intelligible society would assure that key decisions of its most important firms are fair nondiscriminatory and open to criticism Silicon Valley and Wall Street need to accept as much accountability as they impose on others

Esposito,2012-06-14 The political project of pragmatism has focused primarily on its defense of democracy as the best political system to maintain and improve human well being over lifetimes and generations Pragmatism Politics and Perversity Democracy and the American Party Battle describes this project of Peirce Dewey Hook and Rorty and combines it with Charles Beard s study of the party battle as the most determinative influence upon American democracy The book updates and confirms Beard s hypothesis that the history of the party battle is a chronicle of perverse schemes and self inflicted wounds the most salient to date being the American Civil War because it reflects a ceaselessly disruptive contest over the creation of two largely incompatible political states nation state and market state The book supports its thesis with detailed historical accounts of the formation of the Constitution and early federal judiciary the sedition trials and political schemes of the 1790s the frustration of market state Whigs to attract white working class voters by exploiting their religious identities the reckless machinations of Whig Republicans in precipitating a national crisis over a contrived threat of oligarchy and white slavery and the ideological oscillations of the Supreme Court from market state to nation state jurisprudence and back again To reduce perversity in political rhetoric and free up pragmatic democratic practices the book proposes a robust neo Madisonian view of free speech where political actors and their surrogates are not only free to speak and write but are also obligated to explain retract and revise what they have said and written     *Boundaries of State, Boundaries of Rights* Tsvi Kahana,Anat Scolnicov,2016-10-20 This collection of essays draws together innovative scholars to examine the relationship between two legal and political phenomena the shrinking of the state as a monopoly of power in favour of the expansion of power over individuals in private hands and the change in the nature of rights The authors expertly discuss the implications of the changing boundaries of state power the legal responses to this development its application to human rights and re conceptualizations of public life as obligations are handed over to private hands This innovative book deals with an important set of problems and offers a fresh perspective of different legal themes in an integrated fashion     **Yale Law Journal: Volume 123, Number 3 - December 2013** Yale Law Journal,2013-12-18 The December issue of The Yale Law Journal the third of Volume 123 academic year 2013 2014 features new articles and essays on law and legal theory by internationally recognized scholars Contents include Article The Interpretation Construction Distinction in Patent Law by Tun Jen Chiang Lawrence B Solum Article Agencies as Litigation

Public Service and Good Governance for the Twenty-First Century James L. Perry, 2020-05-01 Expert analysis of American governance challenges and recommendations for reform Two big ideas serve as the catalyst for the essays collected in this book The first is the state of governance in the United States which Americans variously perceive as broken frustrating and unresponsive Editor James Perry observes in his Introduction that this perception is rooted in three simultaneous developments government's failure to perform basic tasks that once were taken for granted an accelerating pace of change that quickly makes past standards of performance antiquated and a dearth of intellectual capital that generate the capacity to bridge the gulf between expectations and performance The second idea harkens back to the Progressive era when Americans revealed themselves to be committed to better administration of their government at all levels federal state and local These two ideas the diminishing capacity for effective governance and Americans expectations for reform are veering in opposite directions Contributors to Public Service and Good Governance for the Twenty First Century explore these central ideas by addressing such questions as what is the state of government today Can future disruptions of governance and public service be

anticipated What forms of government will emerge from the past and what institutions and structures will be needed to meet future challenges And lastly and perhaps most importantly what knowledge skills and abilities will need to be fostered for tomorrow s civil servants to lead and execute effectively Public Service and Good Governance for the Twenty First Century offers recommendations for bending the trajectories of governance capacity and reform expectations toward convergence including reversing the trend of administrative disinvestment developing talent for public leadership through higher education creating a federal civil service to meet future needs and rebuilding bipartisanship so that the sweeping changes needed to restore good government become possible Contributors Sheila Bair William W Bradley John J DiIulio Jr Angela Evans Francis Fukuyama Donald F Kettl Ramayya Krishnan Paul C Light Shelley Metzenbaum Norman J Ornstein James L Perry Norma M Riccucci Paul R Verkuil Paul A Volcker      The Public Economy in Crisis June A. Sekera,2016-07-04 This Brief proposes a new theory of public economics which deemphasizes reliance on the free market and affirms the importance of public goods and services within the context of the democratic process and constitutional governance Public non market production makes up from a quarter to more than half of all economic activity in advanced democratic nation states Yet by imposing market precepts on the public domain as mainstream economics political science and public administration do public governing capacity is weakened and the democratic system suffers Agencies originally created to meet public needs are being warped into entities whose purpose is to generate revenue and in some cases deliver private profits at public expense Drawing on classic public finance literature this book illustrates the differences between public economy and the market model and why those differences matter Building on this the Brief sketches the elements of a new theory of the public non market and illuminates its connections to the delegation of power and collective provision of resources from the polity This book will be useful to scholars of public economics political science and public administration as well as policy makers and those working in the public sector      **Shareholders' Claims for Reflective Loss in International Investment Law** Lukas Vanhonnaeker,2020-07-16 This book studies shareholders claims for reflective loss and explains why they are justified in international investment law      The Politics of Foster Care Administration in the United States Rebecca H. Padot,2014-10-10 Government by proxy and intergovernmental relations profoundly affect the public administration of foster care Using examples from foster care systems in the states of Delaware Michigan New York and Rhode Island Rebecca Padot eloquently combines a rigorous methodology and theory work to expose the conditions under which foster care outcomes can be improved The cases selected suggest that the federal government has increased its focus on measuring the performance of state programs while simultaneously decreasing its funding of state foster care programs and offering the states very little management or mentorship Padot turns the page and recommends administrators place a greater priority on building community partners integrating the advice of mentors providing leadership from public managers and cultivating relationships with the federal government An original and timely resource for scholars and practitioners this book represents

a significant contribution to our understanding of how leadership and management variables may be associated with more positive foster care practices and performance in the United States

**Judicial Review of Administrative Discretion in the Administrative State** Jurgen de Poorter, Ernst Hirsch Ballin, Saskia Lavrijssen, 2019-06-07 This book deals with one of the greatest challenges for the judiciary in the 21st century. It reflects on the judiciary's role in reviewing administrative discretion in the administrative state, a role that can no longer solely be understood from the traditional doctrine of the *Trias Politica*. Traditionally, courts review acts of administrative bodies implying a degree of discretion with quite some restraint. Typically, it is reviewed whether the decision is non-arbitrary or whether there is no manifest error of assessment. The question arises though as to whether the concern regarding ensuring the non-arbitrary character of the exercise of administrative power, which is frequently performed at a distance from political bodies, goes far enough to guarantee that the administration exercises its powers in a legitimate way. This publication searches for new modes of judicial review of administrative discretion exercised in the administrative state. It links state-of-the-art academic research on the role of courts in the administrative state with the daily practice of the higher and lower administrative courts struggling with their position in the evolving administrative state. The book concludes that with the changing role and forms of the administrative state, administrative courts across the world and across sectors are in the process of reconsidering their roles and the appropriate models of judicial review. Learning from the experiences in different sectors and jurisdictions, it provides theoretical and empirical foundations for reflecting on the advantages and disadvantages of different models of review, the constitutional consequences, and the main questions that deserve further research and debate. Jurgen de Poorter is professor of administrative law at Tilburg University and deputy judge in the District Court of The Hague. Ernst Hirsch Ballin is distinguished university professor at Tilburg University, professor in human rights law at the University of Amsterdam, and president of the T.M.C. Asser Institute for International and European Law. He is also a member of the Scientific Council for Government Policy (WRR). Saskia Lavrijssen is professor of Economic Regulation and Market Governance of Network Industries at Tilburg University.
