Internationalising Programmes in Higher Education Jeanine Gregersen-Hermans, Karen M. Lauridsen, 2021-06-29 This book addresses challenges that higher education institutions face when bridging the gap between internationalisation as a key university strategy and their delivery of interculturally competent and responsible graduates Combining international case studies and research outcomes it provides an in depth understanding of the role educational developers can play in the internationalisation of higher education and in the provision of an internationalised learning experience for all students The book situates international education in global and local contexts and contributes to the design and delivery of

internationalised curricula in very concrete terms In doing so it suggests how academic staff may enhance the quality of their programmes by leveraging the opportunities of international classrooms where students have diverse academic linguistic and cultural backgrounds The content of the book is therefore also foundational for continuing professional development CPD programmes that enhance staff competences for designing and teaching inclusive internationalised programmes and include topics such as An international competence profile for educational developers Intercultural competence as a graduate attribute Internationalised curriculum design and delivery Intercultural group dynamics The role of languages in internationalised higher education classrooms Reflective processes for teaching and learning in the international classroom This book is essential reading and a go to resource for any academic looking to internationalise their education programmes It will also be of interest to those directly involved in curriculum development learning and teaching as well as those who have more strategic responsibilities within and beyond HEIs or who are involved in higher education research

**Teaching Critical Thinking in the Context of Political Rhetoric** Joseph Sanacore, 2021-11-15 During the past several decades there has been a blitz of information sometimes referred to as the knowledge explosion and students have struggled in their attempts to distinguish true fake and terribly biased information especially regarding political issues This book highlights the value of critical thinking as a way to navigate this difficult and frustrating terrain so that students grow and develop as knowledgeable independent thinkers To promote this growth the book offers thoughtful evidence based advice for teachers to support students deep thinking as it relates to real world contexts Strategies presented include student reflection based on experience moving from narrow to broader perspectives and using graphic organizers to build and activate knowledge before during and after instructional activities With the instructional guidance and activities presented in this short easy to apply volume teachers can give students the tools they need to negotiate the often murky waters of political communication
