*Out of Her Mind* Rebecca Shannonhouse, 2003-02-04 *Out of Her Mind* edited by Rebecca Shannonhouse captures the best literature by and about women struggling with madness A remarkable chronicle of gifted and unconventional women who have spun their inner turmoil into literary gold the collection features classic short stories breathtaking literary excerpts key historical writings and previously unpublished letters by Zelda Fitzgerald Shannonhouse's recent anthology *Under the Influence: The Literature of Addiction* is also available as a Modern Library Paperback Original

*Woman's Inhumanity to Woman* Phyllis Chesler, 2009-05-01 Man's inhumanity to man the phrase is all too familiar But until Phyllis Chesler's now classic book a profound silence prevailed about woman's inhumanity to woman Women's aggression may not take the same form as men's but girls and women are indeed aggressive often indirectly and mainly toward one another They judge harshly hold grudges gossip exclude and disconnect from other women Like men women are exposed to the messages of misogyny and sexism that permeate cultures worldwide Like men women unconsciously buy into negative images that can trigger abuse and mistreatment of other women But like other social victims many do not realize stereotyping affects members within the victimized group as well as those outside the group They do not realize their behavior reflects society's biases How women view and treat other women matters Are women oppressed Yes Do oppressed people internalize their oppressors attitudes Without a doubt Prejudice must first be acknowledged before it can be resisted or overcome More than men women depend upon one another for emotional intimacy and bonding and exclusionary and sexist behavior enforces female conformity and discourages independence and psychological growth Continuing the pioneering work begun in *Women and Madness* Chesler's bestselling book that broke the story on double standards in psychology *Woman's Inhumanity to Woman* draws on important studies revolutionary theories literature and hundreds of original interviews Chesler urges us to look within to treat other women realistically ethically and kindly and to forge bold and compassionate alliances This is a necessary next step for women without which they will never be liberated

**The Madness of Women** Jane Professor Ussher, Jane M. Ussher, 2011-03-28 Nominated for the 2012 Distinguished Publication Award of the Association for Women in Psychology Why are women more likely to be positioned or diagnosed as mad than men If madness is a social construction a gendered label as many feminist critics would argue how can we understand and explain women's prolonged misery and distress In turn can we prevent or treat women's distress in a non pathologising women centred way *The Madness of Women* addresses these questions through a rigorous exploration of the myths and realities of women's madness Drawing on academic and clinical experience including case studies and in depth interviews as well as on the now extensive critical literature in the field of mental health Jane Ussher presents a critical multifactorial analysis of women's madness that both addresses the notion that madness is a myth and yet acknowledges the reality and multiple causes of women's distress Topics include The genealogy of women's madness incarceration of difficult or deviant women Regulation through treatment

Deconstructing depression PMS and borderline personality disorder Madness as a reasonable response to objectification and sexual violence Women s narratives of resistance This book will be of great interest to students and scholars of psychology gender studies sociology women s studies cultural studies counselling and nursing *Latin American Women and the Literature of Madness* Elvira Sánchez-Blake, Laura Kanost, 2015-05-11 At the turn of the millennium narrative works by Latin American women writers have represented madness within contexts of sociopolitical strife and gender inequality This book explores contemporary Latin American realities through madness narratives by prominent women authors including Cristina Peri Rossi Uruguay Lya Luft Brazil Diamela Eltit Chile Cristina Rivera Garza Mexico Laura Restrepo Colombia and Irene Vilar Puerto Rico Close reading of these works reveals a pattern of literary techniques a poetics of madness employed by the writers to represent conditions that defy language make sociopolitical crises tangible and register cultural perceptions of mental illness through literature **The Politics and Aesthetics of Refusal** Caroline Hamilton, Michelle Kelly, Elaine

Minor, 2009-03-26 *The Politics and Aesthetics of Refusal* is an eclectic collection of essays from emerging academics who engage with the notion of refusal both as the embodiment of a resistance to conventional boundaries between academic disciplines and as a concept with an underlying negative or reactive force that can be widely interpreted and applied The applications of refusal outlined in this volume ranging from activism and the politics of cultural production through to problems of identity and knowledge classification raise questions about often elided relationships of agency and complicity in routine experience The sense of refusal that emerges from this book is perhaps most easily classified by what it is not namely a prescriptive conclusive or unified account of what it is to reject react or work against any particular instance of theory or practice in any given domain The value of a thematically oriented collection like this is its ability to work across disciplines media and philosophical frameworks rather than limiting its focus to a narrow territory According to Herbert Marcuse refusal must not only be the guiding principle for all artistic creation it must also be a manifestation of artistic creation itself With this volume we have attempted to compose a collection which is not only theoretically guided by refusal but practically informed by it as well The collection in itself constitutes we hope a constructive rejection of the usual constrictions of discipline and approach placed upon new scholars This rich collection of essays on the political aesthetic and ethical dimensions of that form of social action called refusal is an important contribution to our understanding of the tensions and contradictions of contemporary culture John Frow Professor of English Literary Studies at the University of Melbourne

*Under the Influence* Rebecca Shannonhouse, 2003-02-04 Drawing on two centuries of important literary and historical writings Rebecca Shannonhouse has shaped a remarkable collection of works that are in turn tragic compelling hilarious and enlightening Together these selections comprise a profound and truthful portrait of the life experience known as addiction *Under the Influence* offers classic selections from fiction memoirs and essays by authors such as Tolstoy Cheever Parker and Poe Also included are topical gems by writers who illuminate the causes dangers pleasures and public perceptions

surrounding people consumed by excessive use of drugs alcohol and tobacco Recent provocative works by Abraham Verghese the Barthelme brothers Margaret Bullitt Jonas and others expand and modernize the definition of addiction to include sex gambling and food Together these incomparable writings give shape and meaning to the raw experience of uncontrollable urges Shannonhouse s recent anthology *Out of Her Mind Women Writing on Madness* is also available as a Modern Library Paperback

**Madness in Plural Contexts: Crossing Borders, Linking Knowledge** ,2020-04-14 This volume was first published by Inter Disciplinary Press in 2012 What are we to make of madness in contemporary times Are we to study its various facets following the traditional path Or should we turn towards a less explored territory *Madness in Plural Contexts Crossing Borders Linking Knowledge* represents a decisive turn towards the social and cultural in contemporary understandings of madness While it retains a focus on the diagnosis and interpretation of madness it focuses on mad identities in literature and the media It shows that the boundaries between the psychiatric psychological and the social cultural are blurred Madness appears on stage fuelled by absinthe across pages of novels detective TV shows and philosophical and theoretical dialogues It continues to be haunted by religious connotations while becoming a subtext of social exclusion in contested cultural geographies Madness becomes the rhythm of human life in the face of late modernity s unquenchable thirst for perfection success and progress

**Borders and Borderlands** Richard Pine,Vera Konidari,2021-03-10 The crossing of borders and frontiers between political states and between languages and cultures continues to inhibit and bedevil the freedom of movement of both ideas and people This book addresses the issues arising from problems of translation and communication the understanding of identity in hyphenated cultures the relationship between landscape and character and the multiplex topic of gender transition Literature as a key to identity in borderland situations is explored here together with analyses of semiotics narratives of madness and abjection The volume also examines the contemporary refugee crisis through first hand Personal Witness accounts of migration and political ethnic and religious divisions in Kosovo Greece Portugal and North America Another section gathering together historical and current Poetry of Exile offers poets perspectives on identity and tradition in the context of loss alienation fear and displacement

**Legal Narratives in Victorian Fiction** Joanne Bridget Simpson,2023-03-31 The law holds up a mirror to society and reflects that society and its ongoing preoccupations This book establishes legal interpretation as a mode of literary interpretation contextualising the opinions and sociological background of literature within the context of the law of its period and examines the inherent role of the law in the construction of the narrative in the literature of the nineteenth century From the approach to the operation of jurisprudence and legal application to the prosecution of the poor the criminological approach to moral panics and the use of the affirmative defence to mitigate women within society this book explores the ways in which the authors of the period used the novel form as a way of challenging and critiquing the legal operating model of the world in which their characters found themselves examining the way in which the authors of the period used the novel as a means of

critiquing the nature of the role of the law within society its impact upon the general public and the reciprocity which exists between legal ideals and the society which manifests those ideals through thought and action This is a useful text for students of nineteenth century literature or the law

**Encountering Silencing** Michael B Buchholz,Aleksandar Dimitrijevic,2024-04-18 Editors Michael B Buchholz and Aleksandar Dimitrijevic are joined by Ana Altaras Dimitrijevic Uta Blohm Roger Frie Stephen Frosh Babette Gekeler Gail A Hornstein and Hans Christoph Ramm to share their knowledge research and experience on these dark issues Encountering Silencing is an invitation to closely observe the very practices and processes of silencing used by perpetrators of abuse and totalitarian institutions alike A carefully selected group of contributors reveal the dark side of communication that silences victims witnesses and perpetrators women religious heretics gifted children victims of racism psychoanalytic dissidents and psychiatric patients individuals and groups total strangers and one s family members as well as one own self All of these forms of silencing are analysed with the help of literature historiography interviewing archival research and psychoanalytic and family therapy This book helps us to face the seemingly inevitable conclusion that silencing is everywhere in our individual and social lives and that it is the silencing of trauma that leads to mental disorders more than trauma itself The hope is that by opening up these topics in a considered containing and thoughtful way the underlying mechanisms of trauma related disorders will be better understood and help victims to overcome them Encountering Silencing is the first in a series of three books on this vital but overlooked subject

**Understanding Postpartum Psychosis** Teresa M. Twomey,2009-03-20 Offering an understanding of postpartum psychosis this riveting book explains what happens and why during this temporary and dangerous disorder that develops for some women rapidly after childbirth Most of us are familiar with the baby blues a passing sadness that strikes 50 to 75 percent of new mothers after delivery And most of us understand postpartum depression a sadness post delivery that lingers for weeks or months for an estimated one in every 10 new mothers But a more serious form of disorder that strikes up to one in every 500 is postpartum psychosis triggering severe agitation confusion insomnia hallucinations delusions mania and possible thoughts of suicide or murder Every year women in the United States and around the world kill their babies children and themselves as a result of this mental illness Here author Twomey an official with Postpartum Support International gives us insight into the psychological personal medical legal and historical perspectives on this little understood mental illness which is both preventable and treatable While most women who suffer postpartum psychosis eventually recover without harming anyone they most often do so in silence Paranoia is a common symptom explains Twomey and that moves women to hide their symptoms from everyone around them The woman can hence appear normal but be putting both herself and her baby at risk We can prevent and treat this but we need to recognize it by better screening of women postpartum says Twomey

**Smoking Privileges** Laura D. Hirshbein,2015-01-31 Current public health literature suggests that the mentally ill may represent as much as half of the smokers in America In Smoking

Privileges Laura D Hirshbein highlights the complex problem of mentally ill smokers placing it in the context of changes in psychiatry in the tobacco and pharmaceutical industries and in the experience of mental illness over the last century Hirshbein a medical historian and clinical psychiatrist first shows how cigarettes functioned in the old system of psychiatric care revealing that mental health providers long ago noted the important role of cigarettes within treatment settings and the strong attachment of many mentally ill individuals to their cigarettes Hirshbein also relates how as the sale of cigarettes dwindled the tobacco industry quietly researched alternative markets including those who smoked for psychological reasons ultimately discovering connections between mental states and smoking and the addictive properties of nicotine However Smoking Privileges warns that to see smoking among the mentally ill only in terms of addiction misses how this behavior fits into the broader context of their lives Cigarettes not only helped structure their relationships with other people but also have been important objects of attachment Indeed even after psychiatric hospitals belatedly instituted smoking bans in the late twentieth century smoking remained an integral part of life for many seriously ill patients with implications not only for public health but for the ongoing treatment of psychiatric disorders Making matters worse well meaning tobacco control policies have had the unintended consequence of further stigmatizing the mentally ill A groundbreaking look at a little known public health problem Smoking Privileges illuminates the intersection of smoking and mental illness and offers a new perspective on public policy regarding cigarettes **Feminist Bookstore News** ,1999 **The New Yorker** ,2000
