

Berlin blockade

By 1948 the distrust between the USA and USSR was so great that leaders were talking in public about the threat of war between them

- > the two sides actually increased their stock of weapons
- > each side took every opportunity to denounce the policies or the plans of the other
- > a propaganda war was developed
- > despite all threatening talk the two sides never actually fired on one another
- > but in 1948 they came dangerously close to a war

The western zones recover

After the war Germany was divided into four zones

- > Germany was a real headache for the western allies
- > after the destruction of war their zones were in economic chaos
- > Stalin feared a recovering Germany and wanted to keep the crippled
- > was clear to the allies that Germany could not feed its people if it was not allowed to rebuild its industries
- > Britain, France and USA combined their zones in 1946 to form one which was called Trizonia to start with but in 1949 became known as west Germany
- > in 1949 they reformed the currency and in months there were signs that they were recovering

The blockade

Stalin felt that the USA's handling of western Germany was provocative

- > he could do nothing about the reorganisation of western zones, or new currency
 - > he felt he could stamp his authority on Berlin
 - > was deep in the soviet zone and linked to western zones of Germany by vital roads, railways and canals
 - > in June 1948 Stalin blocked all these supply lines
-
- > cutting off the 2 million strong population of west Berlin from western help
 - > Stalin believed this would force the allies out of Berlin and make them entirely dependent on USSR

Notes From The Blockade:

Notes From the Blockade Lydia Ginzburg, 2011-05-31 The 900 day siege of Leningrad 1941-44 was one of the turning points of the Second World War. It slowed down the German advance into Russia and became a national symbol of survival and resistance. An estimated one million civilians died, most of them from cold and starvation. Lydia Ginzburg, a respected literary scholar who meanwhile wrote prose for the desk drawer through seven decades of Soviet rule, survived. Using her own notes and sketches she wrote during the siege, along with conversations and impressions collected over the years, she distilled the collective experience of life under siege. Through painful depiction of the harrowing conditions of that period, Ginzburg created a paean to the dignity, vitality, and resilience of the human spirit. This original translation by Alan Myers has been revised and annotated by Emily van Buskirk. This edition includes *A Story of Pity and Cruelty*, a recently discovered documentary narrative translated into English for the first time by Angela Livingstone. *Blockade Diary* Lidia Ginzburg, 1995

A fictionalized account of the 900 day siege of Leningrad during World War II, describing the day-to-day business of finding something to eat while avoiding bombs and shells. The siege cost 600,000 lives. **Notes from the Blockade** Lidia Ginzburg, 2016 The 900 day siege of Leningrad was one of the turning points of the Second World War. It slowed down the German advance into Russia and became a national symbol of survival and resistance. Some 750,000 civilians died of cold and hunger. Lydia Ginzburg, a respected literary scholar, survived. Using her own diary records, along with conversations and impressions collected over the years, she distilled the collective experience of life under siege into this moving account. **Notes from the Blockade, And, A Story of Pity and Cruelty** Lidia Ginzburg, 2016

Lydia Ginzburg's Prose Emily Van Buskirk, 2016-01-05 The Russian writer Lydia Ginzburg (1902-90) is best known for her *Notes from the Leningrad Blockade* and for influential critical studies such as *On Psychological Prose*, investigating the problem of literary character in French and Russian novels and memoirs. Yet she viewed her most vital work to be the extensive prose fragments composed for the desk drawer in which she analyzed herself and other members of the Russian intelligentsia through seven traumatic decades of Soviet history. In this book, the first full-length English language study of the writer, Emily Van Buskirk presents Ginzburg as a figure of previously unrecognized innovation and importance in the

literary landscape of the twentieth century Based on a decade s work in Ginzburg s archives the book discusses previously unknown manuscripts and uncovers a wealth of new information about the author s life focusing on Ginzburg s quest for a new kind of writing adequate to her times She writes of universal experiences frustrated love professional failures remorse aging and explores the modern fragmentation of identity in the context of war terror and an oppressive state Searching for a new concept of the self and deeming the psychological novel a beloved academic specialty inadequate to express this concept Ginzburg turned to fragmentary narratives that blur the lines between history autobiography and fiction This full account of Ginzburg s writing career in many genres and emotional registers enables us not only to rethink the experience of Soviet intellectuals but to arrive at a new understanding of writing and witnessing during a horrific century
