Environmental Unconscious in the Fiction of Don DeLillo Elise A. Martucci, 2007 This book presents an ecocritical reading of DeLillo's novels in an attempt to mediate between the seemingly incompatible influences of postmodernism and environmentalism Martucci argues that although DeLillo is responding to and engaging with a postmodern culture of simulacra and simulation his novels do not reflect a postmodernist theory of the end of nature Rather his fiction emphasizes the lasting significance of the natural world and alerts us to the dangers of destroying it In order to support this argument Martucci examines DeLillo's novels in the context of traditional American literary representations of the environment especially through the lens of Leo Marx's discussion of the conflict between technology and nature found in traditional American literature She demonstrates that DeLillo's fiction explores the way in which new technologies alter perceptions and mediate reality to a further extent than earlier technologies however she argues that he keeps the material world at the forefront of his novels thereby illuminating the environmental implications of these technologies Through close readings of *Americana*, *The Names*, *White Noise* and *Underworld* and discussions of postmodernist and ecocritical theories this project engages with current criticism of DeLillo postmodernist fiction and environmental criticism **A Multicultural Dictionary**

Miyano,2006 Graham Greene once wrote that Innocence is a kind of insanity This book examines the many shades of innocence in Greene s characters the blank innocence depraved innocence and absurd innocence of Anthony Farrant the piteous innocence of Pinkie the simple innocence of Raven the pure innocence of Father Quixote the paradoxical innocence of the Whisky Priest the inverted innocence of Sarah Miles the faithful innocence of Father Rivas the Dog Ears Priest the intrusive innocence of Doctor Fischer and the playful innocence of Harry Lime The complex concept of innocence is found to be a prevailing theme in Greene s novels *The Law and the Knowledge of Good and Evil* Chris A. Vlachos,2009-01-01 First Corinthians 15 56 The sting of death is sin and the power of sin is the law is both puzzling and neglected It is puzzling since there appears to be no precursor in 1 Corinthians to the law critical statement found there It is neglected because of its size Nevertheless the short verse offers the opportunity to analyze in a rudimentary state Paul s law sin notion that appears full blown in Romans and the absence of a polemical setting allows scholars to examine a law critical statement issued during a polemical lull In *The Law and Knowledge of Good and Evil* Vlachos weighs attempts to explain the presence of 1 Cor 15 56 in 1 Corinthians and argues that the Genesis Fall narrative where the tempter plied his seductions by way of the commandment provides the theological substructure to Paul s understanding of the law s provocation of sin In doing so Vlachos contends that Paul reaches the historical high water mark of his polemic against the salvific efficacy of the law by locating a law sin nexus in Eden and contrary to some recent perspectives on Paul he argues that the edenically informed axiom in 1 Cor 15 56 suggests that Paul s fundamental concern with the law was rooted in primordial rather than ethnic soil While studies of Paul and the law have tended to bypass Eden *The Law and Knowledge of Good and Evil* breaks ground by moving the argument beyond Second Temple Judaism to the Genesis Fall account where the prohibition against partaking of the knowledge of good and evil led to the knowledge of sin NTC's Dictionary of Easily Confused Words Deborah Williams,1995 An easy to use guide that will help the user understand confusing words and their usage and to then choose the correct spelling or meaning of a word for any given situation The Coding Manual for Qualitative Researchers Johnny Saldana,2012-10-04 The Second Edition of Johnny Salda a s international bestseller provides an in depth guide to the multiple approaches available for coding qualitative data Fully up to date it includes new chapters more coding techniques and an additional glossary Clear practical and authoritative the book describes how coding initiates qualitative data analysis demonstrates the writing of analytic memos discusses available analytic software suggests how best to use *The Coding Manual for Qualitative Researchers* for particular studies In total 32 coding methods are profiled that can be applied to a range of research genres from grounded theory to phenomenology to narrative inquiry For each approach Salda a discusses the method s origins a description of the method practical applications and a clearly illustrated example with analytic follow up A unique and invaluable reference for students teachers and practitioners of qualitative inquiry this book is essential reading across the social sciences

Vanishing Voices Katarzyna Dudek, 2020-01-15 The nature of silence is hard to grasp This book serves to systematize this concept and explore it in the works of three major poets of religious experience namely Gerard Manley Hopkins T S Eliot and R S Thomas Since these poets worked within a Christian framework the silences they refer to are mainly those emerging in the context of the relationship between God and man in a post Christian climate The book s textual analyses place special attention on the dynamics between thematic and structural manifestations of silence and are situated at the crossroads of the poetics philosophy and theology In this first study bringing together the poetry of Hopkins Eliot and Thomas the three poets each in his unique way emerge as poetic ministers practitioners and producers of silence who try to find a new language to talk about the Ineffable God and one s experience of the divine
