Nuclear North Korea A Debate On Engagement Strategies:

Nuclear North Korea Victor D. Cha, David Chan-oong Kang, 2003 Coming to the issues from different perspectives the authors together have written an essential work of clear eyed reflection and authoritative analysis They refute a number of misconceptions and challenge faulty thinking that surrounds the discussion of North Korea most important the idea that North Korea is an irrational nation Cha and Kang contend that however provocative even deplorable the North's behavior may at times be it is not incomprehensible or incoherent **North Korea's Strategic Intentions**, *North Korea, Nuclear Risk-Taking, and the United States* Jihwan Hwang, 2023-11-13 Jihwan Hwang analyzes Pyongyang's nuclear policy changes over the last three decades under Kim Il Sung Kim Jong Il and Kim Jong Un Why did a weaker North Korea take the risk of standing up against the much stronger U S with its nuclear weapons program even escalating the crisis to the point of a war Later why did North Korea change its course of action amid the crisis even though the security environment remained essentially the same Hwang draws on the main tenets of prospect theory in international relations and argues that Pyongyang becomes either risk acceptant or risk averse toward the U S depending on the situation it faces When Pyongyang perceived the status quo to be deteriorating it framed its situation as a loss and chose a risk acceptant of confrontation to restore the status quo Equally when Pyongyang perceived the situation to be improving it chose a risk averse engagement in the domain of gain In contrast when Pyongyang perceived an extreme loss such as military confrontation against the United States it would rather choose a risk averse policy to avoid the catastrophic outcome of war The issues of risk are central to an understanding of Pyongyang's nuclear policy decision making Engagement with North Korea Sung Chull Kim, David C. Kang, 2010-07-02 How the world deals with North Korea and its nuclear capability will have ramifications for both regional and global stability Engagement with North Korea examines the still controversial policy strategy known as engagement which aims to persuade rather than force North Korea to be cooperative While examining the converging and diverging policies of engagement practiced by the United States China Russia Japan and South Korea the contributors to this volume uncover how and to what extent engagement has made some form of progress and under what conditions it is likely to achieve complete success In addition to the critical topic of denuclearization the volume also demonstrates that engagement involves the use of negotiations and incentives in both the economic and the security realms This volume is essential reading for both students and policy makers concerned about denuclearization in the multilateral context North Korea's New Diplomacy Virginie Grzelczyk, 2024-07-19 In this second edition of North Korea's New Diplomacy author Virginie Grzelczyk shows how North Korea has managed to weather an uncertain political future and catastrophic economic system since the end of the Cold War Emerging as a state that has successfully developed and tested missiles and nuclear weapons North Korea has consolidated the Kim family dynasty through the appointment of Kim Jong Un as Pyongyang's latest strongman The author provides an up to date empirically rich account of new diplomatic recognitions military partnerships knowledge

trade coping mechanisms to offset international sanctions import and export partners foreign investment practices and engagement within the Global South With new and updated text throughout the book gives a detailed picture of a state that constantly becoming a more complex and relevant actor in the 21st century diplomatic world

From Deterrence to Engagement Terence Roehrig, 2006-02-20 From Deterrence to Engagement provides a comprehensive examination of the U S South Korea defense relationship from 1945 to the present Using deterrence theory as its framework this work explores the evolving nature of U S interests in a region that became a focal point only after the North Korean invasion in 1950 Author Terence Roehrig addresses the changing nature of the threats to U S interests in Korea especially North Korea s buildup and its efforts to acquire nuclear weapons and examines specific measures utilized by the United States to implement its deterrence policy While U S policy regarding Korea has changed over the years this timely and important work argues that although the U S commitment to protect its ally has been credible and effective the same cannot be said for its attempts to prevent North Korean nuclear proliferation From Deterrence to Engagement is certain to find an audience amongst scholars of defense policy national security and Korean security relations

The Korean Peninsula and Indo-Pacific Power Politics Jagannath P. Panda, 2020-03-03 This book assesses the strategic linkages that the Korean Peninsula shares with the Indo Pacific and provides a succinct picture of issues which will shape the trajectory of the Korean Peninsula in the future This book analyses how critical actors such as the United States China Russia and Japan are caught in a tightly balanced power struggle affecting the Korean Peninsula It shows how these countries are exerting control over the Korean Peninsula while also holding on to their status as critical actors in the broader Indo Pacific The prospects of peace stability and unity in the Korean Peninsula and the impact of this on Indo Pacific power politics are explored as well as the contending and competing interests in the region Chapters present country specific positions and approaches as case studies and review the impact of power politics on stakeholders relationships in the Indo Pacific The book also argues that the Korean Peninsula and the issue of denuclearization is of primary importance to any direction an Indo Pacific Partnership may take Bringing together scholars journalists and ex diplomats this book will be of interest to academics working in the field of international relations foreign policy security studies and Asian studies as well as audiences interested

Weapons of Mass Destruction Joseph M. Siracusa, Aiden Warren, 2017-03-29 Whether possessed by a state or non state actor the specter of Weapons of Mass Destruction WMDs and more specifically nuclear weapons and their associated material present a significant threat to global security Notwithstanding the fact that there are fewer nuclear weapons today than the massive stockpiles that existed during the height of the Cold War the complexities relating to nuclear security have in many ways intensified amid globalization and porous borders More states in volatile regions possess such weapons UN Security Council states are busily modernizing their weapons and non states actors have made it clear their intention to use such weapons should they attain them The emerging prospect of a cyber attack or a misunderstanding that could potentially evolve into a limited regional nuclear war would both have dire global ramifications and are scenarios that should not be considered farfetched Additionally concerns pertaining to chemical and biological weapons the associated ramifications relating to nuclear terrorism and broader limitations of the NPT regime all pose major challenges to global stability In considering all of these areas this foundational primer for the Rowman and Littlefield WMD Series seeks to inform and advance policy debate in ways that support international security while also adding important connective tissue between analytical areas in the IR and historical domains that often remain separate Offering a comprehensive analysis of the evolution and current status of WMDs this volume will be of great interest to scholars analysts and students of security studies international history and international relations
