Nuovo Manualetto Di Linguistica Italiana:

Nuovo manualetto di linguistica italiana Maurizio Dardano, 2017 Manuale di linguistica sarda Eduardo Blasco Ferrer, Peter Koch, Daniela Marzo, 2017-07-10 Oltre un'introduzione dettagliata al contesto storico sociale della situazione linguistica in Sardegna il volume contiene descrizioni sincroniche e diacroniche di tutti i settori dei sistemi linguistici sia delle varietà sarde in senso stretto che delle varietà alloglotte dell'isola. Questo Manuale costituisce cioè un lavoro di riferimento obbligato per chiunque si occupi della lingua e della linguistica sarda It's different with you Nicole Baumgarten, Roel Vismans, 2023-09-15 This book is a collection of studies about forms of address in the world's languages with a focus on contrast and difference. The individual chapters highlight inter and intralinguistic variation in the expression of address and its sociocultural functions across media registers, geographical contexts and time in more than 15 languages. The volume showcases the variety of approaches that exists in current address research including the breadth of contrastive methodologies harnessing surveys and questionnaires, focus group discussions, corpus linguistics, discourse and conversation analysis to offer complementary perspectives on culture-specific address practice. This volume is for students and researchers of address and social interaction in a range of disciplines in the humanities and social sciences including various sub-disciplines of linguistics such as contrastive, variational and intercultural pragmatics, sociolinguistics and morphology and intercultural communication as well as experts in individual languages and qualitative sociologists **Manual de linguística portuguesa** Ana Maria Martins, Ernestina Carrilho, 2016-09-26 This Manual provides a general yet detailed account of the current research in Portuguese linguistics by combining overview chapters and in-depth analyses of selected topics. It integrates diachronic and synchronic standard and dialectal adult grammar and L1 acquisition data and offers comprehensive information on specific features of Portuguese using the methods and insights of present-day linguistic research. The overview chapters feature linguistic fields that significantly developed over the past decades in the context of research on Portuguese: e.g. language contact, prosody, the computational lexicon, forensic phonetics. The chapters covering particular topics in syntax, semantics and phonology deal with new empirical data and current analyses of well-known features of Portuguese such as the inflected infinitive, the pattern of clitic placement, the subjunctive, the reduction of atonic vowels as well as newer issues: e.g. null subjects, complex predicates, the answering system, some dialectal phenomena. The volume will be unique as a state-of-the-art collection of papers conceived to be used as a Manual of Portuguese Linguistics in the academic context. The individual contributors rank among the best-known experts in the field *Tradurre dal greco e dal latino* Chiara Riccardi, 2025-06-04 T00:00:00+02:00 Quando si di fronte a un testo antico scritto in greco o in latino raramente si pensa ad esso come a un testo appunto. Un testo arrivato fino a oggi tramandato attraverso un lungo e più o meno tortuoso percorso e che ora appare agli occhi del lettore come scritto in un determinato modo e non in un altro con quelle parole e non con altre predisposte in quell'ordine e non in un altro per il concorrere di molteplici fattori filologici, linguistici ma anche

comunicativi espressivi Tutti questi elementi preziosi ai fini di una corretta traduzione si perdono cos per strada assieme al vero senso del tradurre un testo antico Questo manualetto vuole fornire spunti di riflessione su queste tematiche cercando di delineare anche attraverso esempi tratti dalle letterature in lingua greca e in lingua latina delle buone pratiche da seguire nell'affrontare la traduzione di testi di partenza antichi e ponendo l'attenzione del lettore su elementi linguistici spesso poco considerati ma invece della massima importanza per rafforzare le proprie competenze testuali al fine di restituire un testo di arrivo che sia il pi corretto possibile Ad accompagnare il lettore in questo percorso una ricca e aggiornata bibliografia e una sitografia particolarmente attenta ai progetti digitali attualmente presenti nel panorama internazionale per la fruizione delle opere greche e latine
