The Origin of Capitalism in England, 1400-1600 Spencer Dimmock, 2014-06-05 Incorporating original archival research and a series of critiques of recent accounts of economic development in pre modern England in *The Origin of Capitalism in England 1400 1600* Spencer Dimmock has produced a challenging and multi layered account of a historical rupture in English feudal society which led to the first sustained transition to agrarian capitalism and consequent industrial revolution Genuinely integrating political social and economic themes Spencer Dimmock views capitalism broadly as a form of society rather than narrowly as an economic system He firmly locates its beginnings with conflicting social agencies in a closely defined historical context rather than with evolutionary and transhistorical commercial developments and will thus stimulate a thorough reappraisal of current orthodoxies on the transition to capitalism **Conflict, Demand and Economic Development** Deepankar Basu, Debarshi Das, 2020-11-26 This book presents a comprehensive overview of three key areas heterodox macroeconomics development economics and classical political economy It offers an alternative macroeconomic framework to analyse policies with an emphasis on issues of equity and justice With contributions by leading economists from across the world it examines the growth and distribution of income trade and finance in developing countries classical political economy and Marxist theory dualism in the US economy economic crisis and agrarian economy in poor countries It explores themes such as the effect of an exogenous shock to wage share Harroddian instability and Steindlian solutions economics and politics of social democracy the role of power in the macroeconomy economic development through the promotion of domestic value chains and reflections on primitive accumulation Going beyond the neo classical tradition the volume opens up a new vista of economics by discussing unexplored questions It provides a refreshing treatment of time tested ideas as well as discussions of recent developments and current research A major intervention in heterodox macroeconomics and a tribute to macroeconomist Amit Bhaduri this book will be useful to scholars and researchers of economics political economy development studies sociology political science public administration economic theory economic history economic geography and critical studies as well as professionals economists and policymakers **Historiography** Susan K. Kinnell, 1987 *From Feudalism to Capitalism* Carlos Astarita, 2021-12-16 Carlos Astarita's *From Feudalism to Capitalism Social and Political Change in Castile and Western Europe 1250 1520* presents for an English speaking readership a major contribution to the debate on the origins of capitalism ***Compassionate Capitalism*** Catherine Casson, Mark Casson, John S. Lee, Katie Phillips, 2021 It may seem like a recent trend but the businesses have been practicing *Compassionate Capitalism* for nearly a thousand years Based on the recently discovered historical documents on Cambridge's urban property market this transdisciplinary study presents an invaluable contribution to our knowledge of the early phases of capitalism **Production and Consumption in English Households 1600-1750** Darron Dean, Mark Overton, Andrew Hann, Jane Whittle, 2012 This economic social and cultural analysis of the nature and variety of production and consumption

Howell, 2010-04-12 Later generations have sometimes found such actions perplexing often dismissing them as evidence that business people of the late medieval and early modern worlds did not fully understand market rules **The Transition from Feudalism to Capitalism**, 1978 **The Rise of Market Society in England, 1066-1800** Christiane Eisenberg, 2013-12-01 Focusing on England this study reconstructs the centuries long process of commercialization that gave birth to the modern market society It shows how certain types of markets e g those for real estate labor capital and culture came into being and how the social relations mediated by markets were formed The book deals with the creation of institutions like the Bank of England the Stock Exchange and Lloyd s of London as well as the way the English dealt with the uncertainty and the risks involved in market transactions Christiane Eisenberg shows that the creation of a market society and modern capitalism in England occurred under circumstances that were utterly different from those on the European continent In addition she demonstrates that as a process the commercialization of business society and culture in England did not lead directly to an industrial society as has previously been suggested but rather to a service economy The Transition from Feudalism to Capitalism, 2013 *The Transition from Feudalism to Capitalism* Paul Marlor Sweezy, 1954 The Progress of Capitalism in England William Cunningham, 1925 **A Millennium of Family Change** Wally Seccombe, 1995 The Transition from Feudalism to Capitalism R.
