Online Shadow Mount Sinai Peter Sloterdijk:

The Terrible Children of Modernity Peter Sloterdijk, 2025-06-10 Peter Sloterdijk is among the most acclaimed and widely read philosophers of the past half century Called Germany's most controversial thinker by the New Yorker he has challenged and provoked readers worldwide with extraordinarily ambitious and wide ranging works of philosophical and cultural critique In The Terrible Children of Modernity Sloterdijk offers a magisterial and profound investigation into the vicissitudes of historical change and the nature of modernity For Sloterdijk modernity is defined by its need to break with the past Moderns are perpetual rebels who seek to sever the ties of tradition and forms of inheritance that bind generations and eras together With deep philosophical historical and literary range he traces this antigenealogical experiment from the French Revolution onward from Madame de Pompadour and Napoleon through Nietzsche Marx Wagner the Dadaists and Deleuze Acutely aware of the destructive potential of cultural discontinuities Sloterdijk is no less critical of the fathers who condemn change than the terrible children who seek a drastic rupture with their predecessors Equally concerned with the grand sweep of history and our current predicaments he instead calls for new ways to live together in the intersubjectivity of the human condition Incisive and daring breathtaking in its scope this account of youthful rebellion against tradition asks us to reimagine the ethics of genealogy

Terror and Modernity Donatella Di Cesare, 2019-06-10 We are inclined to see terrorist attacks as an aberration a violent incursion into our lives that bears no intrinsic relation to the fundamental features of modern societies But does this view misconstrue the relationship between terror and modernity In this book philosopher Donatella Di Cesare takes a historical approach and argues that terror is not a new phenomenon but rather one that has always been a key part of modernity At its most basic level terrorism is about the struggle for power and sovereignty The growing concentration of power in the hands of the state which is a constitutive feature of modern societies sows the seeds of terrorism which is deployed as a weapon by those who are exposed to the violence of the state and feel that they have no other recourse As Di Cesare illustrates her argument with examples ranging from the Red Brigades and 9 11 to jihadism and ISIS her sophisticated analysis will appeal to anyone who wishes to understand contemporary terrorism more deeply as well as to students and scholars of philosophy and political theory
