Online War Drugs Sport Organizational Legitimacy:

The War on Drugs in Sport Vanessa McDermott, 2015-10-23 This book is an innovative and compelling work that develops a modified moral panic model illustrated by the drugs in sport debate Drawing on Max Weber's work on moral authority and legitimacy McDermott argues that doping scandals create a crisis of legitimacy for sport governing bodies and other elite groups This crisis leads to a moral panic where the issue at stake for elite groups is perceptions of their organizational legitimacy The book highlights the role of the media as a site where claims to legitimacy are made and contested contributing to the social construction of a moral panic The book explores the way regulatory responses in this case anti doping policies in sport reflect the interests of elite groups and the impact of those responses on individuals or folk devils The War on Drugs in Sport makes a key contribution to moral panic theory by adapting Goode and Ben Yehuda's moral panic model to capture the diversity of interests and complex relationships between elite groups The difference between this book and others in the field is its application of a new theoretical perspective supported by well researched empirical evidence Společenská odpovědnost ve sportu Kunz Vilém, 2020-11-06 Kniha zku en ho autora se jako prvn v R komplexn v nuje mo nostem vyu it princip konceptu spole ensk odpov dnosti organizac Corporate Social Responsibility v oblasti sportu
