Brill's Companion to Ancient Geography Serena Bianchetti, Michele Cataudella, Hans-Joachim Gehrke, 2015-11-24
Brill's Companion to Ancient Geography edited by S Bianchetti M R Cataudella H J Gehrke is the first collection of studies on historical geography of the ancient world that focuses on a selection of topics considered crucial for understanding the development of geographical thought In this work scholars all of whom are specialists in a variety of fields examine the interaction of humans with their environment and try to reconstruct the representations of the inhabited world in the works of ancient historians scientists and cartographers Topics include Eudoxus Dicaearchus Eratosthenes Hipparchus Agatharchides Agrippa Strabo Pliny and Solinus Ptolemy and the Peutinger Map Other issues are also discussed such as onomastics the boundaries of states Pythagorism sacred itineraries measurement systems and the Holy Land *Palladas and the Yale Papyrus Codex (P. CtYBR inv. 4000)*, 2022-11-14 Recent decades have seen the publication of several papyri devoted to ancient epigram one of the most successful poetic forms of antiquity Of these the most enigmatic is the Yale papyrus codex its date authorship and content have been vigorously debated The codex allows us a glimpse of the wealth of material now lost to us and enriches our perception of the genre's dynamism its thematic richness and the process of anthologisation and dissemination This volume offers the first collection of essays by experts in the genre dedicated to this fascinating and elusive text of the imperial period

Saints and Scholars Hugh Magennis, Stuart McWilliams, 2012 Wide ranging survey of current research in Anglo Saxon studies from literature and material culture to religion and politics Anglo Saxon literature and culture and their subsequent appropriations unite the essays collected here They offer fresh and exciting perspectives on a variety of issues from gender to religion and the afterlives of Old English texts from reconsiderations of neglected works to reflections on the place of Anglo Saxon in the classroom As is appropriate they draw especially on Hugh Magennis own interests in hagiography and issues of community and reception Taken together they provide a state of the discipline account of the present and future of Anglo Saxon studies The volume also includes contributions from the leading Irish poets Ciaran Carson and Medbh McGuckian Dr Stuart McWilliams is a Newby Trust Fellow Institute for Advanced Studies in the Humanities University of Edinburgh Contributors Ciaran Carson Marilina Cesario Mary Clayton Ivan Herbison Joyce Hill Malcolm Godden Chris Jones Christina Lee Medbh McGuckian Stuart McWilliams Juliet Mullins Elisabeth Okasha Jane Roberts Donald Scragg Mary Swan John Thompson Elaine Treharne Robert Upchurch Gordon Whatley Jonathan Wilcox

living community of believers it is a work of beauty and a basis for art and culture it is a profoundly significant historical artifact and it is a mysterious survivor from the Late Ancient Arabic speaking world This Handbook accompanies the reader into the many worlds that the Qur'an lives in from its ancient settings to its internal drama and through the 1400 years of discussion and debate about its meaning Bringing diverse approaches to the Qur'an together in one volume The Routledge Companion to the Qur'an represents the vibrancy of the field of Qur'anic Studies today This Handbook is essential reading for students and researchers in religious studies and Islamic studies It will also be very useful for those in related fields such as area studies sociology anthropology and history

Transregional Reformations Violet Soen, Alexander Soetaert, Johan Verberckmoes, Wim François, Tóth Zsombor, Christopher B. Brown, Günter Frank, Bruce Gordon, Barbara Mahlmann-Bauer, Tarald Rasmussen, Günther Wassilowsky, Siegrid Westphal, 2019-06-17 This volume invites scholars of the Catholic and Protestant Reformations to incorporate recent advances in transnational and transregional history into their own field of research as it seeks to unravel how cross border movements shaped reformations in early modern Europe Covering a geographical space that ranges from Scandinavia to Spain and from England to Hungary the chapters in this volume apply a transregional perspective to a vast array of topics such as the history of theological discussion knowledge transfer pastoral care visual allegory ecclesiastical organization confessional relations religious exile and university politics The volume starts by showing in a first part how transfer and exchange beyond territorial circumscriptions or proto national identifications shaped many sixteenth century reformations The second part of this volume is devoted to the acceleration of cultural transfer that resulted from the newly invented printing press by translation as well as transmission of texts and images The third and final part of this volume examines the importance of mobility and migration in causing transregional reformations Focusing on the process of crossing borders in peripheries and borderlands all chapters contribute to the de centering of religious reform in early modern Europe Rather than princes and urban governments steering religion the early modern reformations emerge as events shaped by authors and translators publishers and booksellers students and professors exiles and refugees and clergy and female members of religious orders crossing borders in Europe a continent composed of fractured states and regions

Inhabited Spaces Nicole Guenther Discenza, 2017-01-01 In Inhabited Spaces Nicole Guenther Discenza examines a variety of Anglo Latin and Old English texts to shed light on Anglo Saxon understandings of space

Orientation to the History of Roman Judaea Steve Mason, 2016-12-09 No field of study is livelier than the history of Roman era Judaea ca 200 BC to AD 400 Bold reinterpretations of texts and new archaeological discoveries prompt us constantly to rethink assumptions What kind of religion was Judaism How did Jews and Christians relate to Roman imperial power Should we speak of Judaism or Judaisms How should the finds at Qumran affect our understanding Did Paul and other early Christians remain within Judaism Should we translate Ioudaioi as Jews or Judaeans These debates can leave students perplexed this book argues because the participants share only a topic They are actually investigating different

questions using disparate criteria In the hope of facilitating communication and preparing advanced students this book explores two basic but neglected problems What does it mean to do history if history is what we wish to do And how did the ancients understand and describe their world It is not a history then but an orientation to the history of Roman Judaea Rather than trying to specify which questions are good ones or what one should think about them the book offers new perspectives to help unleash the historical imagination while reckoning squarely with the nature of our evidence

Translating Europe in Ælfric's Lives of Saints Luisa Ostacchini, 2024-06-26 Translating Europe in Ælfric's Lives of Saints is the first study of the representation of European peoples places and geographies in the Lives of Saints one of early medieval England's most famed works It examines the Lives of Saints as a unified collection whose various items work cumulatively and concurrently to provide audiences with teachings far beyond the scope of an individual homily or saint's life In doing so it demonstrates that Ælfric's European characters and settings served not merely as a convenient skeleton on which to frame his hagiographical narratives but rather lay at the heart of his didactic praxis and pedagogic aims Luisa Ostacchini systematically compares each of the 30 plus items that comprise Ælfric's Lives of Saints to their Latin sources and to one another to highlight previously unnoticed patterns and formulae within collection In so doing she demonstrates that Ælfric's interest in community was both inward and outward looking he sought on the one hand to situate England within the wider Christian world and on the other hand to promote the internal unity of the English kingdom and the reformed monastic establishment This book sheds new light on the ways that Ælfric wrote about the Christian world and England's place within it and further illuminates the didactic praxis and ideology of one of the most influential and significant authors of the early medieval period Luisa Ostacchini is a college lecturer at St John's College Oxford where she teaches Old and Middle English literature

Zephaniah: An Earth Bible Commentary Nicholas R. Werse, 2024-10-17 With astute attention to Zephaniah's intertextual relationships with other biblical texts Nicholas R Werse explores the implications of Zephaniah as a book in perpetual conversation with other biblical cosmologies and conceptions of the human place in relationship with creation Werse guides readers to critically examine Zephaniah's ancient worldview and subsequent legacy in dialog with the world's modern ecological crises Werse argues that Zephaniah begins and ends with the land It begins with the removal of all life from the land and ends with a proclamation returning the exiles to their ancestral home Along this journey all three chapters of Zephaniah systematically reverse language and imagery from Gen 1 11 and draw deeply from the language of earlier prophets to depict the 6th century BCE destruction of Jerusalem as nothing short of the unravelling of creation While remaining suspicious of Zephaniah's distinctively androcentric worldview Werse traces Zephaniah's rhetorical journey from the deconstruction of creation and the nations to its proclamations of hope for the future

Style and Context of Old Greek Job Marieke Dhont, 2018-04-17 In Style and Context of Old Greek Job Marieke Dhont offers a new understanding of the linguistic and stylistic diversity in the Septuagint corpus To this end the author innovatively uses Polysystem Theory which

has been developed in the field of modern literary studies After discussing the appropriateness of a systemic approach to understanding Jewish Greek literature the author reflects on the Jewishness of Greek language texts Dhont then presents a thorough literary analysis of the Old Greek version of the book of Job On this basis she explains the dynamics that produced the translation of Old Greek Job and its position within the development of a Jewish Greek literary tradition

Empiricisms Barry Allen, 2021 Empiricisms is about the value of experience and experiments Why do we esteem them and what is their contribution to knowledge The work is unique in the detail with which it explains empiricism from its beginning in ancient medicine to its emergence as a philosophy of modern science It elucidates the ideas of the so called radical empiricists clarifying their relation to historical empiricism and explaining what is radical about them and develops a comparison between European empiricism and ideas and practice in traditional China Bringing China into the argument is an unexpected innovation and makes the work a model for comparative philosophy
