Automotive Automatic Transmission and Transaxles Keith Santini, Kirk Vangelder, 2017-05-18 Automotive Automatic Transmission and Transaxles published as part of the CDX Master Automotive Technician Series provides students with an in-depth introduction to diagnosing, repairing and rebuilding transmissions of all types. Utilizing a strategy-based diagnostics approach, this book helps students master technical trouble shooting in order to address the problem correctly on the first attempt. Outcome-focused with clear objectives, assessments and seamless coordination with task sheets, it introduces transmission design and operation, electronic controls, torque converters, gears and shafts, reaction and friction units and manufacturer types. Equips students with tried and true techniques for use with complex shop problems. Combines the latest technology for computer-controlled transmissions with traditional skills for hydraulic transmissions. Filled with pictures and illustrations that aid comprehension as well as real-world examples that put theory into practice. Offers instructors an intuitive, methodical course structure and helpful support tools. With complete coverage of this specialized topic, this book prepares students for MAST certification and the full range of transmission problems they will encounter afterward as a technician. About CDX Master Automotive Technician Series: Organized around the principles of outcome-based education, CDX offers a uniquely flexible and in-depth program which aligns learning and assessments into one cohesive and adaptable learning system. Used in conjunction with CDX MAST Online, CDX prepares students for professional success with media-rich integrated solutions. The CDX Automotive MAST Series will cover all eight areas of ASE certification.
