Patent Enforcement Worldwide Christopher Heath, Laurence Petit, 2005 Patent infringement procedures are an instrument whereby the patentee defends his protected invention against unlawful use by a third party the alleged infringer The difficulty is that the patent is no solid object whose damage can be easily detected it belongs to that group of rights whose infringement is not easy to determine The patent is a right described by words and those words written into a claim are so complicated that

laymen and lawyers alike fail to understand them This is the special feature which distinguishes the patent right This book consists of a series of country reports in which expert patent attorneys describe the patent infringement procedures in their jurisdiction Since the first edition of this book was published in 2000 developments in the field of patent enforcement have been significant and required a major rewriting of all the seven original contributions the UK Germany France the Netherlands Italy Japan and the US more than 100 decisions have been added For the second edition another eight countries have been included three from Eastern Europe Poland the Czech Republic and Hungary two from Asia China and Korea two from Latin America Argentina and Brazil and one from Europe Switzerland and there is a new chapter by Dieter Stauder on European issues of patent enforcement cross border litigation cross border assistance in obtaining evidence and the new European Enforcement Directive

Direito Processual Civil da Propriedade Industrial João Paulo F. Remédio Marques,2022-11-21 No quadro do reforço da atração do investimento estrangeiro e da integração dos mercados no espaço jurídico económico e social da União Europeia os direitos de propriedade

industrial tradicionalmente direitos cuja criação e eficácia era circunscrita ao território do Estado cuja entidade administrativa competente principal da territorialidade os concedia ou reconhecia foram submetidos a um regime unitário supranacional. Todavia coexistem com estes múltiplos regimes jurídicos nacionais cujos processos de concessão, manutenção e invalidação convivem com os procedimentos e processos supranacionais de concessão e extinção junto designadamente do Instituto Europeu de Patentes e do Instituto de Propriedade Intelectual da União Europeia. Fornecendo uma visão abrangente das conexões entre os procedimentos administrativos de concessão e registo e os processos judiciais de oposição, concessão, revogação e invalidação dos direitos de propriedade industrial incluindo sobretudo a referência às regras legiferantes processuais que pese embora alvo de tentativas de harmonização na União Europeia no Acordo TRIPS e no Instituto Europeu de Patentes concorrem e sobrepõem e por vezes entram em conflito este livro ajuda o leitor a navegar por uma parte do sistema português e europeu de concessão bem como a compreender a tutela jurisdicional efetiva contra atos de recusa ou concessão de direitos de propriedade industrial por parte das entidades administrativas portuguesas e supranacionais competentes de ameaça de infração ou consumação da infração, revogação e invalidação dos direitos de propriedade industrial.

Intellectual Property Jurisdiction

Strategies Torsten Bjørn Larsen, 2017-10-27 This timely and practical guide compares the jurisdictional advantages of litigating a national IP right with those of the corresponding European unitary IP right. The study offers IP practitioners a meticulous yet principled basis for their jurisdictional decisions and shows why it is advantageous for infringers to litigate based on a national IP right and rightholders to litigate based on a European unitary IP right.

The author analyzes the options available to patent holders and explains how a country's patent law may be used to stop or limit the exploitation of an invention patented in that country and even in other countries where the invention is not patented.
