Green Households? Klaas Jan Noorman,Ton Schoot Uiterkamp,1998 Households are one of the main sources of waste and of other environmental impacts Yet most attention to date has focused on the effects of business and industry rather than on domestic consumption of goods energy and resources and their resulting outputs Green Households is the first book to concentrate on this vital but neglected sector Drawing on empirical research largely from The Netherlands it takes households as consumer units and examines the entire household metabolism This includes the way domestic demand can influence where and how goods and services are produced resource flows through households and the differential environmental impacts of different lifestyles It shows both what would constitute sustainable domestic consumption and how far there is to go to achieve this in industrialised and affluent Western society Those involved in planning and policy as it affects households and urban development as well as students and researchers in social science and environmental studies will find it an invaluable source of information **Analyse und Prognose des Modellzyklusses in der**

 Vietor,2005 This text contains cases developed for use in teaching international political economy at the Harvard Business
 School They represent the major developmental trajectories that have defined the recent history of economic growth These
 cases empirically describe the strategies of China India Japan Mexico South Africa Poland and the Czech Republic Europe
 and the United States As a group these countries represent more than half the world's population and nearly two thirds of its
 gross domestic product The cases are as much political and institutional as they are economic and are based on Harvard's
 way of teaching analytical methodology for managers called country analysis which is a method of identifying the economic
 performance social and political context and national development strategy of a country or region It also assesses each
 strategy in terms of its effects on the performance and its fit with context *Whitaker's Book List* ,1991
