Church History Study Guide, Pt. 2 Randal S. Chase,2012-03-01 Church History Study Guide Pt 2 1831 to 1844 This volume is the second of three on Church History and the Doctrine and Covenants It covers Church history during the Kirtland and Missouri periods including a series of breathtaking revelations on temples the Plan of Salvation the three kingdoms of glory the Second Coming principles of priesthood power the Word of Wisdom and the Law of the Church We also learn about fasting tithing missionary work and enduring to the end We go with the Prophet Joseph Smith and Saints through the crucible of trials in Missouri and Liberty Jail Then we follow them on to Nauvoo where the Kingdom rose again on the Mississippi River work for the dead was introduced and the law of celestial marriage was revealed Again persecution raised its ugly head ending in the martyrdom of Joseph and Hyrum Smith at Carthage In all it covers 11 years of Church History and covers sections 100 135 of the Doctrine and Covenants The cover features Brother Joseph a beautiful portrait of the Prophet Joseph Smith by David Lindsley *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1965 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July December Library Journal ,1968-04 *Doing Oral History* Donald A. Ritchie,2014-09-19 Doing Oral History is considered the premier guidebook to oral history used by professional oral historians public historians archivists and genealogists as a core text in college courses and throughout the public history community Over the past decades the development of digital audio and video recording technology has continued to alter the practice of oral history making it even easier to produce quality recordings and to disseminate them on the Internet This basic manual offers detailed advice on setting up an oral history project conducting interviews making video recordings preserving oral history collections in archives and libraries and teaching and presenting oral history Using the existing Q A format the third edition asks new questions and augments previous answers with new material particularly in these areas 1 Technology As before the book avoids recommending specific equipment but weighs the merits of the types of technology available for audio and video recording transcription preservation and dissemination Information about web sites is expanded and more discussion is provided about how other oral history projects have posted their interviews online 2 Teaching The new edition addresses the use of oral history in online teaching It also expands the discussion of Institutional Review Boards IRBs with the latest information about compliance issues 3 Presentation Once interviews have been conducted there are many opportunities for creative presentation There is much new material available on innovative forms of presentation developed over the last decade including interpretive dance and other public performances 4 Legal considerations The recent Boston College case in which the courts have ruled that Irish police should have access to sealed oral history transcripts has re focused attention on the problems of protecting donor restrictions The new edition offers case studies from the past decade 5 Theory and Memory As

a beginner's manual *Doing Oral History* has not dealt extensively with theoretical issues on the grounds that these emerge best from practice. But the third edition includes the latest thinking about memory and provides a sample of some of the theoretical issues surrounding oral sources. It will include examples of increased studies into catastrophe and trauma and the special considerations these have generated for interviewers.

6 Internationalism Perhaps the biggest development in the past decade has been the spreading of oral history around the world facilitated in part by the International Oral History Association. New oral history projects have developed in areas that have undergone social and political upheavals where the traditional archives reflect the old regimes particularly in Eastern Europe, the Middle East, Asia, Africa, and Latin America. The third edition includes many more references to non U.S. projects that will still be relevant to an American audience. These changes make the third edition of *Doing Oral History* an even more useful tool for beginners, teachers, archivists, and all those oral history managers who have inherited older collections that must be converted to the latest technology.

Students as Historians, Scott K. Scheuerell, 2024-07-30. *Students as Historians Using Technology to Examine Local History Beyond the Classroom* makes a case for using technology to further the research of local history. Part 1 of the book explores the history of Black people in communities across the nation while Part 2 uses census reports, Google Earth, and other materials to investigate. One example includes Western Missouri on the eve of the Civil War. Part 3 involves design-based research in a social studies classroom where students investigated the history of Mobile, AL during the Civil Rights movement using technology. Throughout the book, the Inquiry Design Model (IDM) is emphasized and implemented.
