Spencer,2013-11-15 This volume provides a new and nuanced appreciation of David Hume as a historian Gone for good are the days when one can offhandedly assert as R G Collingwood once did that Hume deserted philosophical studies in favour of historical ones History and philosophy are commensurate in Hume s thought and works from the beginning to the end Only by recognizing this can we begin to make sense of Hume s canon as a whole and see clearly his many contributions to fields we now recognize as the distinct disciplines of history philosophy political science economics literature religious studies and much else besides Casting their individual beams of light on various nooks and crannies of Hume s historical thought and writing the book s contributors illuminate the whole in a way that would not be possible from the perspective of a single authored study Aside from the editor the contributors are David Allan M A Box Timothy M Costelloe Roger L Emerson Jennifer Herdt Philip Hicks Douglas Long Claudia M Schmidt Michael Silverthorne Jeffrey M Suderman Mark R M Towsey and F L van Holthoon     **The Historical Magazine and Notes and Queries Concerning the Antiquities, History and Biography of America** ,1868     American Literature and the Culture of Reprinting, 1834-1853 Meredith L. McGill,2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s American Literature and the Culture of Reprinting 1834 1853 delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights     Magdalene Mysteries Seren Bertrand,Azra Bertrand,2020-04-07 Discover the Womb Rites and initiatory magic of Mary Magdalene who was revered as a Priestess and human embodiment of the Goddess 2020 Nautilus Gold Award Reveals how Mary Magdalene was a sacred priestess of the
