**Luca Anceschi, Gennaro
Gervasio, Andrea Teti**

Online Media Revolution Politics Egypt Journalism:

Online Journalism in Africa Hayes Mawindi Mabweazara, Okoth Fred Mudhai, Jason Whittaker, 2014-01-21 Very little is known about how African journalists are forging new ways to practise their profession on the web Against this backdrop this volume provides contextually rooted discussions of trends practices and emerging cultures of web based journalism s across the continent offering a comprehensive research tool that can both stand the test of time as well as offer researchers particularly those in the economically developed Global North models for cross cultural comparative research The essays here deploy either a wide range of evidence or adopt a case study approach to engage with contemporary developments in African online journalism This book thus makes up for the gap in cross cultural studies that seek to understand online journalism in all its complexities

The Political Economy of Egyptian Media Maher Hamoud, 2023-06-01 This book critically analyses the hegemony of Egypt s business and military elites and the private media they own or control Arguing that this hegemony requires the exercise of power to maintain consent under changing conditions such as the 2011 uprising and the 2013 military coup the book answers the central question of why and how Egypt s ruling elites control the media Situated within the interdisciplinary domain of critical political economy CPE the book focuses on popular privately owned newspapers and TV channels and their ownership using a qualitative approach involving fifteen interviews conducted over seven years with key actors and experts in the Egyptian media landscape for unprecedented insight As the first book on the political economy of Egyptian media The Political Economy of Egyptian Media serves as a case study and a country profile and will be of appeal to scholars and experts of Middle Eastern studies political sciences media and the political economy of communication among others

Histories of Digital Journalism Tamas Tofalvy, Igor Vobič, 2024-11-11 Building on the momentum of the recent historical turn in digital media and Internet studies this volume explores how digital journalism has developed from a historical perspective With contributions from established and emerging scholars from Europe Asia South and North America the book investigates not only how established journalistic systems transformed in the early days of digital but how the structural technological and cultural changes induced by digitization have reconfigured the trajectory of journalism The book argues in support of three main claims The first is that emphasis should be given to the plurality of histories instead of one single digital journalism history thereby acknowledging the complexities interactions of social relations cultural traditions power configurations and technological changes that have shaped journalism and digitization The second is the decentralization and decolonization of digital journalism histories The third refers to the need to highlight and demonstrate the idea that the evolution of digital journalism should be viewed as the co construction of the social and technological realms With theoretical and methodological reflections on historicizing digital journalism along with original case studies or comparative inquiries into the phenomena over the decades long digital revolution of journalism this volume will shape the nascent field of digital journalism history and start a global critical exchange of various approaches to and

aspects of historicizing digital journalism As such it will interest scholars and students of digital journalism journalism history digital media Internet studies and technology studies **Egyptian Revolution 2.0** M. el-Nawawy,S. Khamis,2016-04-30

This book sheds light on the growing phenomenon of cyberactivism in the Arab world with a special focus on the Egyptian political blogosphere and its role in paving the way to democratization and socio political change in Egypt which culminated in Egypt s historical popular revolution Digital Technologies and the Evolving African Newsroom Hayes

Mabweazara,2016-04-14 African newsrooms are experiencing the disruptive impact of new digital technologies on the way they generate and disseminate news Indeed newsrooms are being forced to adapt in various ways and there are clear dimensions of localized creativity and adaptations by journalists to the digital revolution In the same way the influences of digitization Internet and social media are changing the informational needs of readers including how they engage with news These developments nonetheless remain on the margins of mainstream journalism research very few researchers have sought to qualitatively capture the implications of developments in digital technologies on the routine practices of African journalists especially in their natural habitat the newsroom In this light this edited volume interrogates the changing ecology of newsmaking in Africa in the context of rapid technological changes in newsrooms as well as in the wider social context of news production It brings together six contributions drawn from five countries Egypt Mozambique South Africa Nigeria and Zimbabwe to explore practices challenges and professional normative dilemmas emerging with the adoption and appropriation of new technologies While the studies point to dimensions of localised new technology appropriations as defined by the complex socio political structures in which African journalists operate they are not rigidly confined to Africa They are expressly in dialogue with theoretical observations largely emerging from Western scholarship In this sense the book goes beyond simply mainstreaming African perspectives it engages directly with dominant theoretical observations and offers a point of departure for developing what could loosely be branded as an African digital journalism epistemology This book was originally published as a special issue of Digital Journalism **Handbook of Applied Journalism** Leon

Barkho,Jairo Alfonso Lugo-Ocando,Sadia Jamil,2024-02-21 This authoritative handbook looks at the entire news cycle and provides a bridge between the theoretical and academic study of journalism and its actual contemporary practice The book s main merit is that it brings theory and practice together with contributors discussing these issues from different perspectives in a way that scholars students and practitioners can find useful in the study of journalism The handbook is also unique as it undertakes an international scope across regions and cultures both from the West and the Global South while providing an overview which balances the over emphasis on content in most academic approaches to journalism The book is divided into four major parts 1 Conceptual foundations 2 Interlink between journalism as scholarship and journalism as practice 3 Regions and cultures and 4 The practitioner world The first two sections lay down the foundation for section 3 which provides an overview of journalism practice in different regions and cultures Section 4 includes contributions by practitioners

in which they attempt to respond to some of the issues raised in preceding sections This handbook will appeal to academics practitioners and professionals alike who are interested in a better understanding of the academic study of journalism and its actual contemporary practice

Arab Digital Journalism Noha Mellor, 2022-11-30 Responding to urgent calls to de westernise Media and Journalism Studies and shed light on local agencies this book examines digital journalistic practices in the Arab region exploring how Arab journalists understand their roles and how digital technologies in Arab newsrooms are used to influence public opinion Drawing on dozens of articles penned by Arab media professionals and scholars supplemented with informal conversations with journalists this book reviews the historical development of digital journalism in the region and individual journalists perceptions of this development While technology has provided a new platform for citizens and powerful agents to exchange views this text examines how it has simultaneously allowed Arab states and authorities to conduct surveillance on journalists curtail the rise of citizen journalism and maintain offline hierarchal forms of political economic and cultural powers Mellor also explores how digital technology serves to cement Western hegemony of the information world order with Arab media organisations and audiences judged to be mere recipients rather than producers of such information Arab Digital Journalism offers an important contribution to the emerging field of digital journalism in the Global South and is a valuable resource for students and researchers interested in media journalism communication and development studies

Transformations in Egyptian Journalism Naomi Sakr, 2013-01-22 Egypt's revolutionary uprising in 2011 raised important questions about the kind of journalism that would be viable in the country's changing political dynamics Suddenly the output of bloggers online radio and social media news operations which had all formed part of the groundswell of action against dictatorship and repression posed an explicit challenge to journalists in state run and commercial media companies who were more directly subject to government controls As different interest groups struggle over the country's future Naomi Sakr considers emerging visions of journalism in Egypt In this book she charts recent transformations in Egyptian journalism exploring diverse approaches to converged media and the place of participatory cross media networks in expanding and developing the country's body of professional journalists She analyses journalists initiatives for restructuring publicly owned media and securing a safe and open environment in which to work

Handbook of Research on Political Activism in the Information Age Solo, Ashu M. G., 2014-05-31 Technology and particularly the Internet has caused many changes in the realm of politics Mainstream media no longer has a monopoly on political commentary as social media blogs and user generated video streaming sites have emerged as an outlet for citizens and political activists to openly voice their opinions organize political demonstrations and network online The Handbook of Research on Political Activism in the Information Age includes progressive research from more than 39 international experts at universities and research institutions across 15 different countries Each of the 25 scholarly chapter contributions focus on topics pertaining to the application of information technology engineering and mathematics to political activism Through its

analysis of the methods for political activism in the information age the effectiveness of these methods as well as emerging analytical tools this book is designed for use by researchers activists political scientists engineers computer scientists journalists professors students and professionals working in the fields of politics e government media and communications and Internet marketing *Promoting Social Change and Democracy Through Information Technology* Vikas Kumar,Jakob Svensson,2015-06-30 Life in the digital era offers an array of new and invigorating opportunities as well as a new set of challenges when facing the dissemination of fresh innovations While once reserved for personal use online platforms are now being utilized for more critical purposes such as social revolution political influence and governance at both the local and national levels Promoting Social Changes and Democracy through Information Technology is a definitive reference source for the latest scholarly research on the use of the internet mobile phones and other digital platforms for political discourse between citizens and governments Focusing on empirical case studies and pivotal theoretical applications of technology within political science and social activism this comprehensive book is an essential reference source for advanced level students researchers practitioners and academicians interested in the changing landscape of democratic development and social welfare Cases on Web 2.0 in Developing Countries: Studies on Implementation, Application, and Use Azab, Nahed Amin,2012-11-30 As the majority of the world continues to move into an internet based society we have seen significant social cultural economic and technological changes Most developing countries have embraced Web 2 0 and have moved onto the next generation of the World Wide Web however some developing countries still struggle to bridge the digital divide Cases on Web 2 0 in Developing Countries Studies on Implementation Application and Use investigates the perception of the value of Web 2 0 the adoption and application of its technologies as well as the different approaches and innovations necessary for the implementation of Web applications in developing countries *Mediated Identities and New Journalism in the Arab World* Aziz Douai,Mohamed Ben Moussa,2016-11-14 This book looks into the role played by mediated communication particularly new and social media in shaping various forms of struggles around power identity and religion at a time when the Arab world is going through an unprecedented period of turmoil and upheaval The book provides unique and multifocal perspectives on how new forms of communication remain at the centre of historical transformations in the region The key focus of this book is not to ascertain the extent to which new communication technologies have generated the Arab spring or led to its aftermaths but instead question how we can better understand many types of articulations between communication technologies on the one hand and forms of resistance collective action and modes of expression that have contributed to the recent uprisings and continue to shape the social and political upheavals in the region on the other The book presents original perspectives and rigorous analysis by specialists and academics from around the world that will certainly enrich the debate around major issues raised by recent historical events Digital Activism and Cyberconflicts in Nigeria Shola A. Olabode,2018-10-24 This book offers fresh insights on digital activism and cyberconflicts through a

comparison of sociopolitical and ethnoreligious movements in Nigeria Occupy Nigeria Boko Haram and The Movement for the Emancipation of the Niger Delta MEND highlight the digital and organizational aspects of conflict mobilization in contemporary Nigeria

The Egyptian Revolution Mohamed El-Bendary, 2013 This book offers a chronicle of and a revealing look at the 2011 Egyptian Revolution and its aftermath The author an Egyptian American journalist living in Egypt detailed the news coverage and man in the street impressions of Mubarak s fall and Mohamed Morsi s struggle to stay in power At home in the U S as well as in Egypt he uses his experience as a journalist to explain for Americans the confrontation between Islamists and seculars

Cyberactivism and Citizen Journalism in Egypt Courtney C. Radsch, 2016-09-23 This compelling book explores how Egyptian bloggers used citizen journalism and cyberactivism to chip away at the state s monopoly on information and recalibrate the power dynamics between an authoritarian regime and its citizens When the Arab uprisings broke out in early 2011 and ousted entrenched leaders across the region social media and the Internet were widely credited with playing a role particularly when the Egyptian government shut down the Internet and mobile phone networks in an attempt to stave off the unrest there But what these reports missed were the years of grassroots organizing digital activism and political awareness raising that laid the groundwork for this revolutionary change Radsch argues that Egyptian bloggers created new social movements using blogging and social media often at significant personal risk so that less than a decade after the information revolution came to Egypt they successfully mobilized the overthrow of the state and its president

The Digital Divide Massimo Ragnedda, Glenn W. Muschert, 2013-06-19 This book provides an in depth comparative analysis of inequality and the stratification of the digital sphere Grounded in classical sociological theories of inequality as well as empirical evidence this book defines the digital divide as the unequal access and utility of internet communications technologies and explores how it has the potential to replicate existing social inequalities as well as create new forms of stratification The Digital Divide examines how various demographic and socio economic factors including income education age and gender as well as infrastructure products and services affect how the internet is used and accessed Comprised of six parts the first section examines theories of the digital divide and then looks in turn at Highly developed nations and regions including the USA the EU and Japan Emerging large powers Brazil China India Russia Eastern European countries Estonia Romania Serbia Arab and Middle Eastern nations Egypt Iran Israel Under studied areas East and Central Asia Latin America and sub Saharan Africa Providing an interwoven analysis of the international inequalities in internet usage and access this important work offers a comprehensive approach to studying the digital divide around the globe It is an important resource for academic and students in sociology social policy communication studies media studies and all those interested in the questions and issues around social inequality

Information Technology for Peace and Security Christian Reuter, 2024-10-31 Technological and scientific progress especially the rapid development in information technology IT and artificial intelligence AI plays a crucial role regarding questions of peace and security This textbook

extended and updated in its second edition addresses the significance potential of IT as well as the challenges it poses with regard to peace and security It introduces the reader to the concepts of peace conflict and security research especially focusing on natural technical and computer science perspectives In the following sections it sheds light on cyber conflicts war and peace cyber arms control cyber attribution infrastructures artificial intelligence as well ICT in peace and conflict

Arab Revolutions and World Transformations Anna M Agathangelou, Nevzat Soguk, 2013-09-13 Stories about institutions and regimes that have failed us are echoing worldwide This book critically engages the multiple uprisings in the Middle East and North Africa MENA following the self immolation of Tunisian street vendor Mohamed Bouazizi in December 2010 It brings together authors who critically analyse the unstoppable force unleashed in the streets of Tunisia Egypt Bahrain Syria Libya and Yemen This book analyses the roots and trajectory of the recent revolts in the context of the global transformations that have redefined the politics of movement and revolution For example some authors engage extensively with the strategies embraced by the younger generation of activists Others argue that the power of these revolutions lies in the people s creative orientations including their collaborations While much of the mobilization efforts in these different parts of the world happen through word of mouth radio cartoons placards and SMS services sites such as Facebook helped people meet each other with a click carrying their claims through stories songs poetry and art of protest across international borders quickly enabling them to rapidly bring authoritarian regimes to the brink of collapse and make a qualitatively different expression of uprisings All authors in this volume address the question of the stakes in these revolts as through them spectacular and everyday violence can be challenged and alternative social projects can emerge Neither a footnote to the West s history nor an appendix to neoliberal capitalist global projects people are actively drawing on their power to disrupt domination and oppression creatively responding to global problems and calling for democratic institutions with viable ecologies This book was published as a special issue of Globalizations *Digital Middle East* Mohamed

Zayani, 2018-05-15 Assesses government and civil society responses to the digital revolution in the Middle East Informal Power in the Greater Middle East Luca Anceschi, Gennaro Gervasio, Andrea Teti, 2014-02-05 Over the last decade or so academic and non academic observers have focussed mainly if not exclusively on the institutions and places of formal power in the Greater Middle East depicting politics in the region as a small area limited to local authoritarian rulers In contrast this book aims to explore the hidden geographies of power i e the political dynamics developing inside in parallel to and beyond institutional forums arguing that these hidden geographies play a crucial role both in support of and in opposition to official power By observing less frequented spaces of power co option and negotiation and particularly by focusing on the interplay between formal and informal power this interdisciplinary collection provides new insights in the study of the intersection between policy making and practical political dynamics in the Greater Middle East Contributing a fresh perspective to a much discussed topic *Informal Power in the Greater Middle East* will be an invaluable resource for students scholars and

those interested in the politics of the region

Reviewing **Online Media Revolution Politics Egypt Journalism**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing.
