**Money Loves Clarity -Money Mindset Planner Journal** Hillary Scholl,2021-07-27 Money Loves Clarity Is Having a Money Mindset Necessary to Make Money There are many ways people can make money The question is why do you even need a money mindset if making money is easy While the dynamics of making money may be easy if you are not taking the right steps you won't be making enough for it to be worthwhile You not only want to optimize your money making abilities but you also want to keep the money that you do make Further you want to make it grow in the fastest possible manner and by the most amount For this you certainly want to consider taking on a money mindset You need to focus your efforts on opportunities that will give you the highest return Most people aren't taught how to do this They learn it by trial and error Which means they will likely do the wrong things that will cost them a

lot of money That money took a long time to make As people age they have less time to recoup the losses It s also tougher to get jobs when you get older Learning about the right approaches to money management can counter all of these problems You can try trending passive income techniques to earn money for yourself but like everybody you will want to invest your money and get them earning more for you instead Changing Your Financial Outlook with the Proper Money Mindset If you look at the profiles of wealthy people you will find they have a different mindset than others They know the value of money and they know the fundamental factors of how to make their money grow If you are not yet wealthy and feel you are struggling take some tips from these wealthy people If your money grows on its own and the money that you earn ends up growing as well it s only a matter of time when this amounts to a decent sum of money And if you keep adding to the balance that money will also grow along with it The situation is a bit more complicated today with government taxing the growth of money But you can invest in an IRA or 401K and have that tax deferred until some future period Stay out of debt as much as possible The debt will drain your savings and your portfolio There can be smart uses of debt as long as the result of using that debt brings in more money than the debt itself But most debt should be avoided to keep your financial outlook stable
