**Literature, History, Choice** Hillel Weiss, 2013-11-01 Starting with a discussion on the elements of the genre of alternative counterfactual history and on its place between the poles of historical determinism and relativism this book develops a literary theory of the historical alternativeness principle and applies it to the reading of *The City with All That is Therein* Ir u mloa one of the most important and less studied books of the greatest Israeli writer Nobel Prize winner S Y Agnon 1887 1970 The investigation reveals that this principle is by no means inherent solely in modernism and postmodernism but lies at the very basis of the reading process particularly at the levels of plot and character origination and historical and historiographical conceptions that underlie the author's imagination The book is intended for all who are interested in modern literature and theory Modern Judaism and Historical Consciousness Christian Wiese, Andreas Gotzmann, 2007-05-11 The volume composed by excellent scholars from different academic disciplines is a comprehensive handbook devoted to the complex relationship between modern Judaism and historical thinking in Europe the United States and Israel from the Enlightenment to the present Apart from analyzing the emergence of a new scholarly historical paradigm during this period the contributions interpret the interaction and the tensions between Jewish historiography and other disciplines such as literature theology sociology and philosophy describe the way historical consciousness was popularized and used for ideological purposes and explore the impact of different religious or secular identities on the historical representation of the Jewish past A final part envisions new theoretical and methodological concepts within the field including cultural studies and gender studies **A Literary, Philosophical and Religious Journey into Well-Being** Nili Alon Amit, 2022-09-14 This volume brings together researchers to analyse and describe the concept of happiness in its various appearances in the history of thought They trace its journey from the very first writings in Greek literature and historiography through early Greek philosophy Classical Hellenistic and Neoplatonic philosophers 10th century Christian manuscript writings early and late medieval mysticism to the medieval Hindu philosophy of liberation early modern philosophy and contemporary positive psychology As the volume shows happiness appears in many forms all connected with the human sense of approaching oneness with the world or with the divine **Man's Search for Meaning** Viktor E. Frankl, 2006-06-01 A book for finding purpose and strength in times of great despair the international best seller is still just as relevant today as when it was first published This is a book I reread a lot it gives me hope it gives me a sense of strength Anderson Cooper Anderson Cooper 360 CNN This seminal book which has been called one of the outstanding contributions to psychological thought by Carl Rogers and one of the great books of our time by Harold Kushner has been translated into more than fifty languages and sold over sixteen million copies An enduring work of survival literature according to the New York Times Viktor Frankl's riveting account of his time in the Nazi concentration camps and his insightful exploration of the human will to find meaning in spite of the worst adversity has offered solace and guidance to generations of readers since it

was first published in 1946 At the heart of Frankl's theory of logotherapy from the Greek word for meaning is a conviction that the primary human drive is not pleasure as Freud maintained but rather the discovery and pursuit of what the individual finds meaningful Today as new generations face new challenges and an ever more complex and uncertain world Frankl's classic work continues to inspire us all to find significance in the very act of living in spite of all obstacles A must read companion to this classic work a new never before published work by Frankl entitled *Yes to Life In Spite of Everything* is now available in English

**Impressionable Biologies** Maurizio Meloni,2019-01-10 During the twentieth century genes were considered the controlling force of life processes and the transfer of DNA the definitive explanation for biological heredity Such views shaped the politics of human heredity in the eugenic era controlling heredity meant intervening in the distribution of good

and bad genes However since the turn of the twenty first century this centrality of genes has been challenged by a number of postgenomic disciplines The rise of epigenetics in particular signals a shift from notions of biological fixedness to ideas of plasticity and impressionability of biological material This book investigates a long history of the beliefs about the plasticity of human biology starting with ancient medicine and analyses the biopolitical techniques required to govern such permeability It looks at the emergence of the modern body of biomedicine as a necessary displacement or possibly reconfiguration of earlier plastic views Finally it analyses the returning of plasticity to contemporary postgenomic views and argues that postgenomic plasticity is neither a modernistic plasticity of instrumental management of the body nor a postmodernist celebration of potentialities It is instead a plasticity that disrupts clear boundaries between openness and determination individual and community with important implications for notions of risk responsibility and intervention

*Critical Histories of Accounting* Richard K. Fleischman, Warwick Funnell, Stephen Walker, 2013-04-02 The critical tradition in accounting historiography has come to occupy a prominent place in the discipline's academic scholarship Some critical literature has confronted the responsibility of accounting and accountants in precipitating contemporary crises such

as the audit failures that spawned Sarbanes Oxley and the world wide recession Certain contemporary issues have long histories such as the difficulties encountered by women to break the glass ceiling in public accounting and the suffering of indigenous peoples under the imperialistic yoke Other episodes in accounting s long history are seemingly more divorced from the present but in reality they all have contemporary significance Slavery in the New World for example although abolished more than a century ago is still rampant in parts of the world albeit less formally Critical accounting historians feel it a duty to harken to the suppressed voices of the past those groups of people who had no access to an accounting record women persons of color indigenous populations alienated proletarians victims of governmental incompetence and graft and many voiceless others Critical Histories of Accounting Sinister Inscriptions in the Modern Era draws on the foremost work in this developing literature both that authored by the co editors of this volume and that written by others Editors Richard K Fleischman Warwick N Funnell and Steve Walker have written extensively about the dark side of accounting gauging the complicity of those performing accounting functions in episodes in human history that are at worst evil and at best reprehensible The editors have also hand selected a series of historical and contemporary episodes that have been critically investigated by the wider accounting history community preceded by a thorough introduction

**Erich Auerbach and the Crisis of German Philology** Avihu Zakai, 2016-08-24 This book analyzes and contextualizes Auerbach s life and mind in the wide ideological philological and historical context of his time especially the rise of Aryan philology and its eventual triumph with the Nazi Revolution or the Hitler Revolution in Germany of 1933 It deals specifically with his struggle against the premises of Aryan philology based on v lkish mysticism and Nazi historiography which eliminated the Old Testament from German Kultur and Volksgeist in particular and Western culture and civilization in general It examines in detail his apologia for or defense and justification of Western Judaeo Christian humanist tradition at its gravest existential moment It discusses Auerbach s ultimate goal which was to counter the overt racist tendencies and v lkish ideology in Germany or the belief in the Community of Blood and Fate of the German people which sharply distinguished between Kultur

and civilization and glorified v l kisch nationalism over European civilization The volume includes an analysis of the entire twenty chapters of Auerbach s most celebrated book *Mimesis The Representation of Reality in Western Literature* 1946

Histories Written by International Criminal Courts and Tribunals Aldo Zammit Borda, 2020-12-18 This book argues for a more moderate approach to history writing in international criminal adjudication by articulating the elements of a responsible history normative framework The question of whether international criminal courts and tribunals ICTs ought to write historical narratives has gained renewed relevance in the context of the recent turn to history in international criminal law the growing attention to the historical legacies of the ad hoc Tribunals and the minimal attention paid to historical context in the first judgment of the International Criminal Court The starting point for this discussion is that in cases of mass atrocities prosecutors and judges are inevitably understood to be engaged in writing history and influencing collective memory whether or not they so intend Therefore while writing history is an inescapable feature of ICTs there is still today a significant lack of consensus over the proper place of this function Since Hannah Arendt articulated her doctrine of strict legality in response to the prosecutor s expansive didactic approach in Eichmann the legal debate on the subject has been largely polarised between restrictive and expansive approaches to history writing in mass atrocity trials What has been noticeably missing from this debate is the middle ground The contribution this book seeks to make is precisely to articulate a framework that occupies that ground The book asks what are the lenses through which judges of ICTs interpret historical events what kind of histories do ICTs write and what kinds of histories should ICTs produce Its arguments for a more moderate approach to history writing are based on three distinct but interrelated grounds 1 Truth and Justice 2 Right to Truth and 3 Legal Epistemology Different target audiences may benefit from this book Court officials and legal practitioners may find the normative framework developed herein useful in addressing the tensions between the competing objectives of ICTs and in particular in assessing the value of the history writing function Lawyers historians and other academics may also find the analysis of the strengths constraints and blind spots of the historical narratives written by ICTs interesting This issue is particularly timely in view of current debates on the legacies of ICTs Aldo Zammit Borda is Director of the Centre for Access to Justice and Inclusion at Anglia Ruskin University Cambridge UK
