Online Dying Forget Palestine Foundations Policy:

Dying to Forget Irene L. Gendzier, 2015-11-17 Irene L. Gendzier presents incontrovertible evidence that oil politics played a significant role in the founding of Israel the policy then adopted by the United States toward Palestinians and subsequent U S involvement in the region Consulting declassified U S government sources as well as papers in the H S Truman Library she uncovers little known features of U S involvement in the region including significant exchanges in the winter and spring of 1948 between the director of the Oil and Gas Division of the Interior Department and the representative of the Jewish Agency in the United States months before Israel s independence and recognition by President Truman Gendzier also shows that U S consuls and representatives abroad informed State Department officials including the Secretary of State and the President of the deleterious consequences of partition in Palestine Yet the attempt to reconsider partition and replace it with a UN trusteeship for Palestine failed jettisoned by Israel s declaration of independence The results altered the regional balance of power and Washington s calculations of policy toward the new state Prior to that Gendzier reveals the U S endorsed the repatriation of Palestinian refugees in accord with UNGA Res 194 of Dec 11 1948 in addition to the resolution of territorial claims the definition of boundaries and the internationalization of Jerusalem But U S interests in the Middle East notably the protection of American oil interests led U S officials to rethink Israel s military potential as a strategic ally Washington then deferred to Israel with respect to the repatriation of Palestinian refugees the question of boundaries and the fate of Jerusalem issues that U S officials have come to realize are central to the 1948 conflict and its aftermath

Our Palestine Question Geoffrey Levin, 2023-01-01 A new history of the American Jewish

relationship with Israel focused on its most urgent and sensitive issue the question of Palestinian rights Provide s an essential backstory to one of the keenest debates today within Jewish communities Kenan Malik The Guardian American Jews began debating Palestinian rights issues even before Israel s founding in 1948 Geoffrey Levin recovers the voices of American Jews who in the early decades of Israel s existence called for an honest reckoning with the moral and political plight of Palestinians These now forgotten voices which include an aid worker turned academic with Palestinian Sephardic roots a former Yiddish journalist anti Zionist Reform rabbis and young left wing Zionist activists felt drawn to support Palestinian rights by their understanding of Jewish history identity and ethics They sometimes worked with mainstream American Jewish leaders who feared that ignoring Palestinian rights could foster antisemitism leading them to press Israeli officials for reform But Israeli diplomats viewed any American Jewish interest in Palestinian affairs with deep suspicion provoking a series of quiet confrontations that ultimately kept Palestinian rights off the American Jewish agenda up to the present era In reconstructing this hidden history Levin lays the groundwork for more forthright debates over Palestinian rights issues American Jewish identity and the U S Israel relationship more broadly
