J. Kunst, 2012-12-06 One day in the summer of 1921 a postal delivery brought me a little packet of reprints from the periodical Djawa articles about Indonesian music by Dr JAAP KUNST which until that moment had not come to my notice A cursory glance was enough to convince me that the author was a very gifted man who had made a sound and absolutely scientific study of the subject and thereby made a valuable contribution by means of careful observation and actual tone measurements to the facts known from the older studies by GRONEMAN LAND and ELLIS These measurements were particularly satisfying to me personally since they constituted an astonishing confirmation of a hypothesis concerning the genesis of tone systems through the cycle of blown fifths which I had propounded two years previously without however having published it At the same time it was proved through the perfect conformity existing between the measured and the theoretical absolute pitches vibration frequencies that Indonesian gamelan tuning too belongs to the radius of ancient Chinese culture much the same as is the case with Pan pipes and xylo phones all over the world The first contact between Dr KUNST and myself led to a regular correspondence which especially contributed to a further development of the above mentioned theory of tone systems *The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University* Hoover Institution on War, Revolution, and Peace, 1969 **Ethnomusicology** E.D Kunst, 2012-12-06 This booklet hardly needs a preface the contents I think speak for themselves It contains a short and carefully brought up to date resume of all that I as a private University Lecturer in Amsterdam have tried to teach my pupils It is intended as a general introduction to ethnomusicology before going on to the study of the forms of separate music cultures I sincerely hope that those who wish to teach themselves and to qualify in this branch of knowledge will find a satisfactory basis for selftuition in the matter here brought together Regarding the possibility of a new edition any critical remarks or information as to possible desiderata would be very gratefully received J K PREFACE TO THE SECOND EDITION My request for critical remarks and desiderata has not been ignored My sincere thanks to all who took the trouble to let me know what they missed in my booklet Through their collaboration the contents have undergone a considerable improvement and enlargement as compared to the original edition issued in 1950 by the Royal Tropical Institute Amsterdam under the title Musicologica I have taken care to add many particulars from non European sources with the result that now the book is no longer so Europe centric as it was Furthermore I have done my best to mention in a special bibliography all the more important ethnomusicological publications with the exception of those issued in the Russian Arabic Chinese Indonesian Javanese
