

Section 1. Introduction

ABOUT THIS MANUAL

This manual provides service information for MAJB marine generator sets. This is a complete service manual for the experienced service person. It covers troubleshooting, disassembly, repair, reassembly, and adjustments for the engine, generator, and control. It is recommended that the service person be thoroughly familiar with the principles of gasoline engine operation and have a basic knowledge of electrical fundamentals. Other Onan publications such as Electrical/Mechanical Fundamentals (932-0408), Onan Generator Training Manual (932-0404), Technical Bulletin T-021 (For Onan Marine Electrical Generating Sets) and the Operator's Manual (933-0121) are recommended as additional sources of information.

Read all service procedures completely before beginning any repair work and observe all cautions and warnings. It is extremely important that the generator set installation maintain compliance with the applicable codes and standards for marine installations (see the Operator's Manual and Technical Bulletin T-021). The most critical areas of concern include the exhaust system, fuel system, electrical wiring, and ventilation system. Improper servicing can create an unsafe installation that can result in damage to the equipment or can cause severe personal injury or death to the user.

MODEL IDENTIFICATION

When contacting an Onan Dealer or Distributor, always supply the complete Model Number and Serial Number as shown on the set nameplate. This information is necessary to identify your set when ordering replacement parts.

Always use genuine Onan replacement parts obtained from an authorized Onan Dealer or Distributor. Universal replacement type parts (usually intended for automotive use) often look similar but might not perform to Onan specifications. Only genuine Onan replacement parts are designed and tested for the application to ensure reliable service and dependable operation.

The image shows a black and white photograph of an Onan nameplate. The nameplate is rectangular with a black background and white text. At the top, the 'Onan' logo is prominently displayed. Below the logo, there are several fields for identification: 'Model No.', 'Serial No.', and a note 'Important - Give above No.'s when ordering parts'. There are also fields for 'Service Rating', 'Hertz', and 'Phase'. A large section in the middle is for 'Single Phase' and 'Three Phase' ratings, with columns for 'kW' and 'KVA'. Below this is a table with columns for 'Volts', 'Hertz', 'kW', 'KVA', 'Amps', and 'Hertz'. The bottom section contains 'Insulation' (NEMA Class and 60°C), 'For Electrical Equipment Only', and 'Onan Corporation' information including address and phone number.
