Gabriel Garcia Márquez' "One Hundred Years of Solitude" as critique on latin americans? Dorothee Koch,2008-05-29 Essay from the year 2007 in the subject American Studies Miscellaneous grade A Bread Loaf School of English Middlebury College Bread Loaf School of English course 20th Century Latin American History language English abstract Garcia Marquez novel One Hundred Years of Solitude records the rise and fall of a fictional town called Macondo Although this town is invented by the author its foundation its development and its fall show social and political realities we know from Latin America s past and Colombia s history in particular The Buendía family who founded the town and lives in it for six generations throughout the novel mirrors Colombian reality post Spanish imperialism e g the Civil War the take over of the United Fruit Company of Boston the massacre of Cienaga etc All these events can be found in the book and can be related to Latin American history Since the novel is amazingly rich and breaks narrative linearity through flashbacks and flashforwards the similarities and the obvious connection between reality and fiction is used as a framework for this paper and lead to the question of whether there is a political message in the book or not Using the history of Latin America and the events in the book referring to it I will prove that there is more than just a critique on the current behaviour of Latin Americans The use of magical realism concerning time shows that history is circular it repeats itself if you do not learn through your experiences if you refuse to progress but stick to the progress of others This is the mistake the Buendías commit and this mistake should be conferred to Latin America in order to finally combat a plague of amnesia Conniff 167

Summary of 100 Years of Solitude Alexander Cooper, 2021-10-16 Summary of 100 Years of Solitude A Comprehensive Summary *One Hundred Years of Solitude* begins as a flashback with Colonel Aureliano Buendía recollecting the years immediately following the founding of Macondo when a band of gypsies frequently bring technological marvels to the dreamy isolated village José Arcadio Buendía the

insatiably curious founder of the town is obsessed with these magical implements Using supplies given to him by Melquades the leader of the gypsies he immerses himself in scientific study to the frustration of his more practical wife Rosala Iguarán Eventually with Melquades's prodding José Arcadio Buendía begins to explore alchemy the pseudo science of making gold out of other metals He is driven by a desire for progress and by an intense search for knowledge that forces him into solitude Increasingly he withdraws from human contact becoming unkempt antisocial and interested only in his pursuit of knowledge But José Arcadio Buendía is not always a solitary scientist On the contrary he is the leader who oversaw the building of the village of Macondo an idyllic place dedicated to hard work and order filled with young people and as yet unvisited by death In his quest for knowledge and progress José Arcadio Buendía's obsession shifts to a desire to establish contact with civilization He leads an expedition to the north since he knows there is only to be continued Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book
