Strategy for Tackling Poverty in Nigeria Dr. Ebikinei Stanley Eguruzo, 2017-02-08. This research evaluates what the National Youths Service Corps members' community perceives as their support needs in Nigeria in tackling poverty. It also analyses the process of leveraging policymaking using social marketing techniques. It seeks a deeper understanding of the poverty elimination processes in Nigerian and beyond. A mixed methods research design was adopted, engaging a quantitative approach in which 351 NYSC members were surveyed using self-completion questionnaires. In addition, qualitative studies in which policy makers as well as young people within the NYSC members' community were interviewed. The main findings of the research reveal that young people's NYSC members' support needs in Nigeria are inadequate. A great deal more needed to be done. A Marshall plan scale of support is required. The most significant causes of poverty amongst the NYSC members are absence of jobs, corruption of government officials, low wages, tribalism, oil pollution, natural disasters, IMF World Bank conditionalities and wars. The main experiences of poverty include a high youth unemployment rate, no money to go to school, no money to start small businesses, less food to eat, no money to treat sickness, no money to buy clothes, no money to afford decent homes, prostitution, absence of a public transportation system as well as involvement in drugs and kidnapping.
