IFA named in Honor of Dov Noy at The University of Haifa a treasure house of Jewish lore that has remained largely
unavailable to the entire world until now Since the creation of the State of Israel the IFA has collected more than 20 000
tales from newly arrived immigrants long lost stories shared by their families from around the world The tales come from the
major ethno linguistic communities of the Jewish world and are representative of a wide variety of subjects and motifs
especially rich in Jewish content and context Each of the tales is accompanied by in depth commentary that explains the tale's
cultural historical and literary background and its similarity to other tales in the IFA collection and extensive scholarly
notes There is also an introduction that describes the culture and its folk narrative tradition a world map of the areas covered
illustrations biographies of the collectors and narrators tale type and motif indexes a subject index and a comprehensive
bibliography Until the establishment of the IFA we had had only limited access to the wide range of Jewish folk narratives
Even in Israel the gathering place of the most wide ranging cross section of world Jewry these folktales have remained
largely unknown Many of the communities no longer exist as cohesive societies in their representative lands the Holocaust
migration and changes in living styles have made the continuation of these tales impossible This series is a monument to a

Marilyn Jurich, 1998-08-20 Based on the author's discovery of a new folktale type the female trickster Jurich's book identifies and celebrates those female protagonists in folktales who use trickery to save themselves and others to find new directions for their lives and to declare their individual autonomies especially in societies that diminish and oppress women Through creative strategies depending on verbal facility psychological acuity and diplomatic know how these women tricksters better named trickstars uncover the absurdity hypocrisy and corruption in the larger patriarchal society Through the trickstar's efforts the system is circumvented or foiled often enlightened and usually improved This multicultural comparative study reveals universal human traits as well as gender differences between female and male tricksters and realizes the values and attitudes which shape the trickstar's character and behavior Trickstars also appear outside of the oral folktale tradition the author discusses their roles in contemporary feminist revisionist tales as well as in mythology biblical narratives Shakespearean comedy novels plays and opera How the female trickster differs from her male counterpart is for the first time in folklore studies illustrated through a comparison of their functions in the narrative scheme of the tale These functions include the diverting or amusing role the morally ambiguous or reprehensible role the role of the manipulator or strategist and the role of the transformer or culture bringer who reforms and improves the nature of her society Jurich delineates the specific types of tricksters who perform these functions suggests how trickstar tales variously affect listeners and readers and shows how particular types of trickstar characters contribute to the intent of the tale Feminist views of the protagonists are analyzed as well as contemporary revisionist tales which seek to reverse negative female images and to present independent women characters who can and do make positive contributions to society For the first time in folklore studies both female and male tricksters are defined and differentiated their functions are illustrated through analyzing narrative schemes and the term trickstar invented by the author is used to define and describe a female trickster **Turandot's Sisters**
