Stand on Guard Stephanie Carvin, 2021-06-01 In *Stand on Guard* Stephanie Carvin sets out to explain the range of activities considered national security threats by Canadian security services today. As new forms of terrorism and extremism appear especially online, we need a responsibly widened view of such threats and how they manifest in the contemporary world. Canadians should not be more fearful, Carvin explains, but a more sophisticated understanding among security services personnel and the general public is needed if we are to anticipate and ameliorate threats to national security. As a former security analyst tasked with providing threat assessments to high levels of government, Carvin writes with both authority and urgency. Her book presents an insider's look at the issues facing the Canadian security and intelligence community. Timely and accessible, *Stand on Guard* will be required reading for scholars, practitioners, and any Canadian concerned about national security in the twenty-first century.

Grandmothers on Guard Jennifer Johnson, 2021-05-18 For about a decade, one of the most influential forces in US anti-immigrant politics was the Minuteman Project. The armed volunteers made headlines patrolling the southern border. What drove their ethno-nationalist politics? Jennifer L. Johnson spent hundreds of hours observing and interviewing Minutemen, hoping to answer that question. She reached surprising conclusions. While the public face of border politics is hypermasculine men in uniforms, fatigues, and suits, older women were central to the Minutemen. Women mobilized support and took part in border missions. These women compel us to look beyond ideological commitments and material benefits in seeking to understand the appeal of right-wing politics. Johnson argues that the women of the Minutemen were motivated in part by the gendered experience of aging in America. In a society that makes old women irrelevant, aging white women found their place through anti-immigrant activism, which wedded native politics to their concern for the safety of their families. *Grandmothers on Guard* emphasizes another side of nationalism: the yearning for inclusion. The nation the Minutemen imagined was not only a space of exclusion but also one in which these women could belong.

Solo Standing on Guard Abhijit Naskar, 2021-04-29 In a civilized society, the government's foremost duty is to ensure equal distribution of essentials of life, and the citizen's foremost duty is to share the resources available to them with those without. Planet Earth's Champion of Humanitarianism, Abhijit Naskar, delivers us a masterpiece on human accountability above the intervention of law and policy.

The Case Against Theism Raphael Lataster, 2018-06-14 This monograph offers a critique of arguments for the existence of a specifically Christian God advanced by prominent scholar William Lane Craig The discussion incorporates philosophical mathematical scientific historical and sociological approaches The author does not seek to criticize religion in general or Christianity specifically Rather he examines the modern and relatively sophisticated evidential case for Christian theism Scholars have been arguing for theism or naturalism for centuries and there seems little to add to the discussion especially from the theistic side However to assume that either theism or naturalism obtains is a false dichotomy There are alternatives to both that merit consideration Employing a probabilistic approach the author advances this discussion His work uniquely utilizes not only naturalistic hypotheses to

argue against theism It also presents supernaturalistic hypotheses This leaves no question that theism is almost certainly false even if some form of divine reality exists This project seeks not to argue that Christianity or any other faith or religion is undesirable but only to critically examine evidentialist claims posited by Christianity's learned apologists In fact a major secondary aim is to consider alternative god conceptions such as polytheism and pantheism This work aims to highlight that Christian theism is often granted special privileges by theistic philosophers of religion which seems doubly inappropriate when certain alternative god conceptions may even prove to be more plausible
