Advances in Functionalized Polymer Nanocomposites Gautam Patel, Kalim Deshmukh, Chaudhery Mustansar Hussain, 2024-07-17. *Advances in Functionalized Polymer Nanocomposites: From Synthesis to Applications* presents a detailed review on the synthesis, fundamental chemistry, properties, and applications of these high-performance materials. The introductory chapter provides a brief overview of the various types of organic and inorganic nanofillers used for the synthesis of polymer nanocomposites. Emphasis is placed on their fundamental chemistry, processing methods, functionalization, and/or surface modification strategies. The dispersion state and their specific interaction with polymer matrices is also discussed in detail, as well as characterization techniques for functionalized nanofillers and functionalized polymer nanocomposites and their properties and applications. The book will be a valuable reference source for scientists, engineers, and postgraduate students working in the field of polymer science and technology, materials science, and engineering, composites, and nanocomposites. It covers fabrication, processing, characterization, and properties of various functionalized polymer nanocomposites. It explores usage in energy storage systems, biomedical fields, environmental remediation, catalysis, gas sensing, biosensing, and electromagnetic interference (EMI) shielding. It provides information on lifecycle assessment and environmental and health impacts of these materials.

Corrosion Protection of Metals by Intrinsically Conducting Polymers Pravin P. Deshpande, Dimitra Sazou, 2016. The authors examine strategies to improve CP anticorrosion performance and describe new formulations of CP-based coatings. They discuss an integrated approach involving principles of chemistry, material science, paint technology, and corrosion engineering and present various methods and techniques for corrosion testing and prevention. They also include case studies provided by Zipperling, Kessler, and offer input on future research applications and trends.
