Online Human Being Becoming Living Adventure:

Unfettered Mandy Smith, 2021-05-18 Smith's sage advice will aid Christians in recognizing the simple joys of practicing their faith. Publishers Weekly: Western culture is in a tailspin and Christian faith is entangled in it; we do kingdom things in empire ways. Western approaches to faith leave us feeling depressed, doubting, anxious, and burned out. We know something is wrong with the way we do faith and church in the West, but we're so steeped in it that we don't know where to begin to break old habits. Popular pastor and speaker Mandy Smith invites us to be unfettered from the deeply ingrained habits of Western culture so we can do kingdom things in kingdom ways again. She explores how we can be transformed by new postures and habits that help us see God already at work in and around us. The way forward isn't more ideas, programs, and problem solving, but in Jesus's surprising invitation to the kingdom through childlikeness. Ultimately, rediscovering childlike habits is a way for us to remember how to be human. *Unfettered* helps us reimagine how to follow God with our whole selves again and join with God's mission in the world. Foreword by Walter Brueggemann.

Why Reading Books Still Matters Martha C. Pennington, Robert P. Waxler, 2017-08-29 Bringing together strands of public discourse about valuing personal achievement at the expense of social values and the impacts of global capitalism, mass media, and digital culture on the lives of children, this book challenges the potential of science and business to solve the world's problems without a complementary emphasis on social values. The selection of literary works discussed illustrates the power of literature and human arts to instill such values and foster change. The book offers a valuable foundation for the field of literacy education by providing knowledge about the importance of language and literature that educators can use in their own teaching and advocacy work.

Adventures in Marxist Theory Douglas Kellner, 2025-08-20 *Adventures in Marxist Theory* provides an introduction and overview of Marxian theory to demonstrate its contemporary relevance to social and political theory and a range of disciplines from philosophy to economics in both the humanities and the social sciences. The text argues that current historical developments and the evolution of economics, politics, society, culture, technology, and everyday life demonstrates the contemporary relevance of Marxism in both theory and politics in the contemporary era. The book presents a twenty-first century Marxism relevant to theorizing contemporary state, capitalist, and technological societies, critically dissecting their major social and political issues and problems while advancing progressive social transformation in the interests of increased democracy and social justice. The volume opens with an Introduction describing a multi-disciplinary and critical approach to Marxism and its application to a wide range of contemporary issues, including the alienation of labor in the workplace, social divisions and injustices such as classism, sexism, racism, and homophobia, and questions of technology, social media, and AI, as well as problems of ecological crisis, autocracy, and state oppression. Specific chapters address the Marxian critique of capitalism and theory of socialism, its concept of ideology and morality, its methodological synthesis of social science, critical theory, and its analyses of globalization, technology, and democracy. Written by a distinguished scholar of Marxism, critical

theory and cultural and political studies the volume will be a key resource for instructors students and readers in historical and contemporary sociology social and critical theory political sociology political and cultural studies and Marx and Marxist studies

now and start *The Human Animal* Markus Gabriel,2024-11-13 The climate crisis has forced us to recognize that we are not separate from nature but are part of the natural world on which we depend human beings are animals and we must understand much better our place in nature and our impact on our environment if we are to avoid our own annihilation as a species And yet we feel nevertheless that we do not entirely fit into nature that we stand apart from other animals in some way in what way exactly Markus Gabriel argues that what distinguishes humans from other animals is that humans are minded living beings who seek to understand the world and themselves and who possess ethical insight into moral contexts Mind is the capacity to lead one's life in the light of a conception of who or what one is The undeniable difference between us and other animals defines the human condition and places a special responsibility on us to consider our actions in the context of other living beings and our shared habitat It also calls on us to cultivate an ethics of not knowing to recognize that however much we may seek to understand the world we will never completely master it Our grasp of reality mediated by our animal minds will always be limited much is and will remain alien to us lending itself only to speculation and to remember this is to stand us in better stead for carving out an existence among the environmental crisis that looms before us all
