Online Deep State Constitution Shadow Government:

The Deep State Mike Lofgren, 2016 The U S spends ten times more on the political circus leading up to elections than any other country but what are they getting for all of that money The truth as Mike Lofgren reveals in this devastating takedown of beltway business is that U S elected leaders provide a fig leaf for those who really hold the levers of power the unelected functionaries of ever growing bureaucracies who decide America s defence intelligence and foreign policy and the corporate titans who control them A shocking expose from someone who spend 3 decades in congress [The Public in Peril](#) Henry A. Giroux, 2017-08-07 This is one of the first books to thoroughly critique the rise of Trumpism and its potential impact nationally and globally One of the world s leading social critics Giroux offers new critiques of Trump and his early Cabinet choices in the context of longer term trends including the rise of right wing populism the threat of planetary peril anti intellectual fervor the war on youth a narrowing political discourse deepening inequality and disposability authoritarianism the crisis of civic culture the rise of the mass incarceration state and more Giroux dissects the diverse forces that led to Trump s rise and points to pathways for resisting his authoritarian instincts Offering a new language of hope and possibility Giroux s optimism is rooted especially in the resurgence of progressive politics among youth Giroux reclaims the centrality of education to politics and boldly articulates a vision in which the radical imagination merges with civic courage as part of a broad based struggle for a radical democracy Deep inquiries into fast changing and pressing issues of our time makes this book the essential Giroux that citizens and students must read debate and act upon **Deep State Control** Austin

Barlow, 2024-10-08 Deep State Control Unveiling the Hidden Network Shaping Global Policies delves into the controversial theory that a clandestine network of unelected officials intelligence agencies and powerful entities secretly manipulates national and global policies This comprehensive exploration covers the origins of the Deep State theory key players and institutions mechanisms of control and significant case studies such as the JFK assassination Watergate scandal and the Iran Contra affair The book also examines the global reach of the Deep State its impact on public perception and political discourse and the role of technological advancements and surveillance Through critical analysis and alternative explanations Deep State Control provides a balanced perspective on this complex and often misunderstood topic Whether you are a skeptic or a believer this book offers valuable insights into the dynamics of power governance and the future of democracy

The Failed Experiment Mart Grams, 2018-02-14 When the American government was founded the Founders and Framers assumed a government of the people by the people and for the people That government is dying It is under the authority of not we the people but rather a small elite that is trying to snuff out the great experiment of man ruling himself the common man the man that within the right system of government can attain his purpose to achieve happiness Were the Framers wrong Were the ideas of Alexander Hamilton right Is man incapable of self rule Does he need to be taken care of watched manipulated No It is not a failed experiment It is time to retake that government [Beyond Esoteric](#) Brad

Olsen,2021-01-14 Nothing in this world works the way you think it does there is always more to the story Be aware that there is a war for your mind and your soul Corporations have taken over governments in a new form of Fascism that now incorporates high technology and artificial intelligence The survival of the human race may depend on breaking the Embargo of truth and collectively developing an berMind But truth always resonates Beyond Esoteric takes off the kids gloves and exposes the control grid extending its tentacles across the planet The word occult means nothing more than to study the realm of the hidden So much of real knowledge and wisdom is disguised because the people who run the planet feel that true information of how the world works and how to manifest reality is something you do not need to know Everything we think we know about the world and the universe in which we live whatever we have been led to believe concerning the course of human history could very well be completely wrong distorted and misinformed The 19th century teachers of the occult could never have imagined The Ultimate Journey of the 21st century we now face one that extends far Beyond Esoteric **Public Governance Practices in the Age of AI** Wongmahesak, Kittisak,Ahmad, Jamaluddin,Mustanir, Ahmad,2025-03-13 Advances in digital technology have driven public administration from new public administration public administration 3 0 to digital public administration public administration 4 0 In the same way advances in artificial intelligence AI technology have driven digital public administration public administration 4 0 into super smart society public administration 5 0 With official recognition of its existence as a separate era it can be said that AI is an important condition causing significant changes to public administration Therefore understanding it both in theory and in practice is very important Public Governance Practices in the Age of AI explores the evolution of public administration in the digital age highlighting the shift from traditional governance models to AI driven public administration 5 0 It examines the transformative role of artificial intelligence in shaping policies decision making and service delivery offering insights into both theoretical frameworks and practical applications Covering topics such as local administrative organizations public participation and global digital education this book is an excellent resource for public administrators public managers educators researchers professionals scholars academicians and more *In Search of Monsters to Destroy* Christopher J. Coyne,2022-12-08 Imperialism and militarism build empires not liberalism So says Christopher Coyne Senior Fellow at the Independent Institute and professor of economics at George Mason University in this eye opening must read book on America s recent foreign policy failures The attempt by the United States since 9 11 to establish liberal political regimes in the Middle East and in the mountains of Afghanistan was doomed to fail And the logic is simple illiberal means can lead only to illiberal ends What else are the hundreds of thousands of dead and mutilated civilians the US military left behind from 2003 to 2021 in these regions The destroyed ancient cultures and nearly obliterated nation states Coyne also points out that the illiberal perpetrators also can end up not only nearly bankrupt and humiliated but also profoundly less secure If we do not absorb these hard truths says Coyne the rest of the twenty first century will be a repeat of its bloodstained unstable beginning But Coyne is no isolationist

A vocal champion of global engagement Coyne insists there are workable proven alternatives to imperialism militarism and empire ones deeply rooted in human experience that preserve freedom promote security and foster mutually enriching friendship among the nations of the earth Read In Search of Monsters to Destroy and you ll never look at the nation state or international relations the same again

Twilight of the Shadow Government Kevin Shipp, Kent Heckenlively, 2024-10-15

In this groundbreaking book Kevin Shipp a veteran CIA agent who worked with all four Directorates of the agency including protecting the head of the CIA provides his perspective on how the agency has strayed so far from its original mission to provide accurate intelligence to the American president You will learn about the founding of the Agency how the intelligence agencies have manipulated journalists through Project Mockingbird as well as their new efforts with the Center for Global Engagement and Big Tech interference Shipp will also give you his up close and personal assessment of how the directors of the agency have contributed to our safety or undermined it Shipp and Heckenlively detail how the CIA has blocked whistleblowers and the reforms they champion while also controlling our country through secret alliances with large corporations Wall Street Big Media the drug trade and blackmail of our political leaders Shipp provides his own history with the Agency both the good and bad including the Agency s attempt to ruin his career and life when he turned whistleblower Perhaps most striking of all Shipp lays out his plan for a dramatic overhaul of the Agency likely to win wide approval from other sectors of the intelligence community restoring the freedom of our country while also keeping us safe from our adversaries

Ghosts of Iron Mountain Phil Tinline, 2025-03-25

Spellbinding Rick Perlstein A clever fast paced read of dazzling originality William I Hitchcock An excellent new book both important and unsettling The New York Times Ghosts of Iron Mountain unravels the astounding origins and far reaching impacts of a monumental late 1960s hoax perpetrated by cultural icons including Victor Navasky and E L Doctorow a must read for anyone curious about the surprising connections between John F Kennedy Oliver Stone Timothy McVeigh Alex Jones and Donald Trump Explore the intricate web of America s conspiracy culture with this investigative masterpiece that unearths the roots of our era s most potent myths In 1966 amid unrest over the Vietnam War and the alarming growth of the military industrial complex little known writer Leonard Lewin was approached by a group of ingenious satirists on the Left to concoct a document that would pretend to ratify everyone s fears that the government was deceiving the public Devoting more than a year to the project Lewin constructed a fiction passed off as the honest truth that a government run Study Group had been charged with examining the cost of peace setting its first meetings in the very real Iron Mountain nuclear bunker in upstate New York which lent the resulting book Report from Iron Mountain its name In Lewin s telling this gathering of the nation s academic elite concluded that suspending war would be disastrous forcing all sorts of bizarre measures to compensate Lewin didn t realize it at the time but he d created a narrative that fed the interests of both ends of the political spectrum by promoting the idea that the government uses centralized power for evil What fascinates about Phil Tinline s revelation filled recreation of that ingenious hoax is seeing

how it explodes into America's consciousness dominates media reports and sends government officials scrambling And then how Lewin's fabrication is adopted by a seemingly endless string of extremist organizations which view it as supporting their ideology In this riveting and at times chilling tale is an unsettling warning about how in contemporary times a deception may no longer be considered a hoax if it can be used to recruit followers to a cause **How Trump and the Christian Right**

Saved LGBTI Human Rights Cynthia Burack, 2022-08-01 During the Obama administration Christian conservatives insisted that securing human rights for LGBTI people abroad diminished human rights protections for people of faith During the 2016 presidential election the Christian right backed Donald Trump and demanded an end to sexual orientation and gender identity SOGI foreign policy Did the Trump administration move to terminate US advocacy for SOGI human rights Did Christian conservative US officials and elites do everything in their power to publicize, curb, defund and undermine US support for SOGI If not spoiler alert they did not why not Analyzing SOGI human rights and religious freedom foreign policy **How Trump and the Christian Right Saved LGBTI Human Rights** reveals the indifference, mendacity and political interests at play in Trump's alliance with Christian right elites **The Deep State** Rita Santos, 2018-07-15 It used to be that deep state

was a shadowy term used to describe developing nations whose governments operated outside of democratically elected leaders The term has evolved and has been applied to transparent countries such as the United States What is the deep state and how does it apply to the United States and other democratic governments This fascinating and informative volume presents a variety of perspectives that helps readers to decide whether a deep state is something to fear or simply a conspiracy theory **Fundamentals of Public Communication Campaigns** Jonathan Matusitz, 2022-09-08 The most

The Economics of Meaning in Life Joel Vos, 2020-07-25 There is not such a thing as value free economics All economic theories prescribe a unique meaning in life What meanings are hidden in economic theories How can we live a meaningful life despite the meanings that economists and politicians promote The Economics of Meaning in Life offers a unique multidisciplinary study that systematically examines the meanings that are often hidden in economic and political debates This book starts with a brief world history of how people have experienced meaning in different economic systems For example authors on capitalism often have a rational focus on materialistic and self oriented types of meaning in life Subsequently the book describes research showing that many individuals feel taken hostage by this capitalist perspective but simultaneously defend its meanings This is the Capitalist Life Syndrome named after the Stockholm Syndrome where hostages like their hostage takers and develop a psychological alliance with them Similar to the Communist Life Syndrome individuals take over this capitalist approach to meaning even though these syndromes may not be good for their mental health In response to the Capitalist Life Syndrome increasing numbers of people want personal and societal change A review of research discussed in the book shows that increasing numbers of people have started to focus on social and larger types of meaning since the 2007 2008 market crash the meaning oriented economy Many aspects of the economy are transforming from personal job motivation to organisation structures human resource management and production People search for new meaning within outside against and beyond capitalism This meaning oriented trend is the future of economics according to leaders in for example the World Economic Forum This is the first book to integrate systematic empirical studies on meaning in life with economic theory written by a leading researcher on meaning The author makes his insights accessible with examples ranging from conversations with London CEO s and Ugandan orphans to political uprisings in Latin America environmentalist campaigns and COVID 19 The author defends the human right to a meaningful life and recommends practical meaning oriented steps for political campaigners The Economics of Meaning in Life is for all readers who are interested in the real life world hiding behind the veils of traditional economics and politics This book should be required reading for all students of economics psychology sociology and philosophy Because everyone deserves a meaningful life

Burning the May Tree: The Sacrifice of Jim Morrison Chris M. Balz, 2019-04-01 Unlocks the history and significance of the rock band The Doors in terms of Jim Morrison's published poetry The book gives us a window into an epic struggle for cultural change and how it was suppressed A great way to get started with Jim's poetry and Doors history Every time I pick up the new edition of Burning The May Tree I discover a thought or idea about Jim's poetry that strikes me as unique and insightful Yours is the only book to shine a focused intelligent and critical light on Morrison's writing Frank Lisciandro co editor of Wilderness and The American Night books of Jim Morrison's posthumously published poetry Liminality and the Philosophy of Presence Franziska Hoppen, 2021-03-16 This book departs from the attempt by political theory to confront the challenges of political life with new concepts offering instead a mode of thought so far excluded from the canon of political theory the philosophy of presence Making the experience of liminality the very centre of thought it shows how embracing in betweenness allows us to discern the limits of both the political order and contemporary political theory Through an examination of the works of Gustav Landauer Eric Voegelin Simone Weil and Václav Havel the author demonstrates the manner in which in betweenness may be cultivated by way of the philosophy of presence as a method of self enquiry into existence as it is experienced subjectively Arguing that since externalisation is the essence of politics and that the way to a more just society lies inwards through a confrontation with liminality this study of how to read philosophers of presence renders their work intelligible to the contemporary discourse of crisis and will appeal to scholars of social political and anthropological theory and philosophy

Asia's Reckoning Richard McGregor, 2018-12-04 A Financial Times Best Book of 2017 A shrewd and knowing book Robert D Kaplan The Wall Street Journal A compelling and impressive read The Economist Skillfully crafted and well argued Jeffrey Wasserstrom Financial Times An excellent modern history provides the context needed to make sense of the region's present and future Joyce Lau South China Morning Post A history of the combative military diplomatic and economic relations among China Japan and the United States since the 1970s and the potential crisis that awaits them Richard McGregor's Asia's Reckoning is a compelling account of the widening geopolitical cracks in a region that has flourished under an American security umbrella for more than half a century The toxic rivalry between China and Japan two Asian giants consumed with endless history wars and ruled by entrenched political dynasties is threatening to upend the peace underwritten by Pax Americana since World War II Combined with Donald Trump's disdain for America's old alliances and China's own regional ambitions east Asia is entering a new era of instability and conflict If the United States laid the postwar foundations for modern Asia now the anchor of the global economy Asia's Reckoning reveals how that structure is falling apart With unrivaled access to archives in the United States and Asia as well as to many of the major players in all three countries Richard McGregor has written a tale that blends the tectonic shifts in diplomacy with bitter domestic politics and the personalities driving them It is a story not only of an overstretched America but also of the rise and fall and rise of the great powers of Asia The about turn of Japan from a colossus seemingly poised for world domination to a

nation in inexorable decline in the space of two decades has few parallels in modern history as does the rapid rise of China a country whose military is now larger than those of Japan South Korea Taiwan and southeast Asia s combined The confrontational course on which China and Japan are set is no simple spat between neighbors the United States would be involved on the side of Japan in any military conflict between the two countries The fallout would be an economic tsunami affecting manufacturing centers trade routes and political capitals on every continent Richard McGregor s book takes us behind the headlines of his years reporting as the Financial Times s Beijing and Washington bureau chief to show how American power will stand or fall on its ability to hold its ground in Asia

Understanding Media Propaganda in the 21st Century Simon Foley, 2021-09-02 First published in 1988 Herman and Chomsky s Manufacturing Consent remains the go to book for those interested in understanding why the mainstream media act as vehicles for power elite propaganda The analytical heart of Manufacturing Consent lies in what it calls The Propaganda Model According to this model there are five filters which all newsworthy stories have to pass through before reaching the public sphere However a lot has changed in the subsequent thirty something years Consequently a key question that needs to be addressed is whether Manufacturing Consent is still fit for purpose The conceit underpinning Understanding Media Propaganda in the 21st Century Manufacturing Consent Revisited and Revised is that the election of Trump in 2016 constitutes the proverbial year zero for fourth estate journalism As a result of the journalistic cultural revolution that ensued it argues that the Propaganda Model needs to be overhauled if it is to retain its epistemological bona fides To this end this book is a radical in the true critical sense of the word intervention into the propaganda fake news debate For students in the broadest sense of the term of media studies journalism communication studies and sociology it provides both a compelling critique of Herman and Chomsky s Propaganda Model while at the same time proffering a new explanatory model to understand why MSM output typically replicates the stenographer for power playbook

Beyond Polarized American Democracy Michael Haas, 2023-08-11 Civil war in the United States is now a mainstream topic due to apparent signs of ongoing planning This book reveals why in several ways First four major ideological drivers of possible conflict are identified Next ten arenas of ongoing nonviolent civil war are traced as increasingly for micro level violence Then several dozen alternative scenarios are traced to explain how civil war could break out very soon Finally measures are delineated about how the country might prevent calamity Anarchists Christian Nationalists Libertarians and Triumphalists are determined to impose their views on the diverse nation and reduce opponents to second class status They demonstrate their blatant determination through nonviolent political contests involving conspiracy theories cultural differences verbal contestation anti elitism racism well armed groups with nationwide membership political demonization media disinformation Congressional hyperpartisanship reducing constitutional rights and legal fights by some states against others But often they go beyond and commit violence out of sheer enjoyment in making opponents suffer Beyond Polarized American Democracy From Mass Society to Coups and Civil War suggests remedies for

each of ten types of nonviolent civil war but most are long term solutions that cannot deal with an imminent threat Accordingly the book reviews governmental and military resources as well as efforts to counteract the ideological contest through political innovations The analysis flows from the sociological Mass Society Paradigm which argues that democracy's survival depends upon the ability of civil society to relay the needs of the people to institutions of government and provide effective pressure for corrective action As developed to explain the rise of Nazism in Germany the analysis applies lessons from studies of coups and civil wars to identify how to prevent the loss of democracy in the United States FBI Files on Mexicans and Chicanos, 1940-1980 José Angel Gutiérrez, 2021-03-04 A multi chapter book that examines the FBI files on two well known persons of Mexican origin Luisa Moreno and Ernesto Galarza four Chicanos Ambassador Raymond Telles and his wife Delfina Navarro Francisco Pancho Medrano Freddy Fender two organizations the Texas Farm Workers Union and the American G I Forum and one event the Zoot Suit police riots in Los Angeles California during the 1940s *Uprooting Racism - 4th Edition* Paul Kivel, 2017-08-28 In 2016 the president elect of the United States openly called for segregation and deportation based on race and religion Meanwhile inequalities in education housing health care and the job market continue to prevail while increased insecurity and fear have led to an epidemic of scapegoating and harassment of people of color Yet recent polls show that only thirty one percent of white people in the United States believe racism is a major societal problem at the same time resistance is strong as highlighted by indigenous struggles for land and sovereignty and the Movement for Black Lives Completely revised and updated this fourth edition of *Uprooting Racism* offers a framework around neoliberalism and interpersonal institutional and cultural racism along with stories of resistance and white solidarity It provides practical tools and advice on how white people can work as allies for racial justice engaging the reader through questions exercises and suggestions for action and includes a wealth of information about specific cultural groups such as Muslims people with mixed heritage Native Americans Jews recent immigrants Asian Americans and Latino as Previous editions of *Uprooting Racism* have sold more than 50 000 copies This accessible personal supportive and practical guide is ideal for students community activists teachers youth workers and anyone interested in issues of diversity multiculturalism and social justice Paul Kivel is an award winning author and an accomplished trainer and speaker He has been a social justice activist a nationally and internationally recognized anti racism educator and an innovative leader in violence prevention for over forty years
