**Self-Publishing Guide for Independent Authors** Anthony Ekanem, 2016-10-17 If you have always dreamed of being a writer you can live your dreams by writing your own book and then self publishing Self publishing is the way that many writers today are choosing to get their book out to the public Self publishing today is not the same as it was years ago when you had to spend thousands of dollars to publish your book You can self publish a book for as little as 500 when you choose a good self publishing service online The first thing that you need to do is to know your genre The one rule of writing is that you should write about what you know If you have a specific genre that you read chances are that this is what you will want to write about Take a look at your interests and the type of books that you read before you decide on your genre Your book should never be just about making money it should be about something for which you have a passion There are many different genres available in both fiction and non fiction Before you start your book have a plan of what it will be about and the genre it will fill You need to have a specific genre when you are writing a book so that you will be able to market it properly Some books will cross genre lines such as paranormal and romance Some books will fit neatly into a specific genre It should be clear what the book is about to the reader so that they will be interested in what you have

written enough to buy the book Most readers have types of books that they like to read and tend to stick to one or two genres If you are writing a non fiction book there are also genres You need to make your book stand out among the rest in a way that will set it apart from other books of the same genre Self-Publishing Made Simple Book Marketing Pro Press,2025-09-28
