One Man Great Enough By Waugh John C 2009 02 13 Paperback:

Picking Presidents Gautam Mukunda, 2022-10-18 This book synthesizes a new way of understanding leader selection with research from political science management psychology and other fields to provide an objective non partisan way to evaluate Presidential candidates that anyone can use and that requires only information about candidates that would be widely available before the election It s a system that American citizens can use to answer the most important question they are ever asked Should this person be President We begin by identifying what sort of presidential candidates are likely to become Presidents who will make a real difference Surprisingly not all Presidents do Some despite the awesome power placed in their hands are surprisingly inconsequential Then we ll examine some of the best and worst of the 44 members of history s most exclusive club which will help us understand what traits are likely to produce failed and successful presidencies and how to detect them Next we ll use this lens to examine Donald Trump the modern president who has perhaps inflamed the most intense passions on either end of the political spectrum and Joe Biden the President as this book goes to print Finally I will suggest some plausible reforms to the way we nominate candidates and changes to the powers of the Presidency that might help us improve the quality and performance of future presidents **Book Review Index - 2009 Cumulation** Dana
