A Newton's cradle with five silver spheres is positioned behind the title. The spheres are arranged in a horizontal line, and the one on the far right is slightly higher than the others, as if it has just struck or is about to strike them. The background is a gradient of purple and blue.

The Power of Truth in Perilous Times Marcus E. Drake, 2024-09-25 Real Hope in the Midst of a Culture Gone Awry Yes we live in this kind of culture and world However it is clear in the Bible that the more we pursue the knowledge of God as defined and described in Scripture and the more we are devoted to him the more he will work in us and through us during the perilous times in which we live Therefore in thinking about the extraordinary impact biblical truth can have on our society this book focuses on three vitally important areas in the Bible how God reveals his existence through nature and his Word how he discloses his character through his attributes and promises and how he calls his people to seek the knowledge of himself through the fear of the Lord and the bearing of his image Thus the purpose of this book is to lead believers into a deeper understanding of what God is like a deeper understanding of what he has promised to those who know him and a deeper understanding of the unshakable hope and strong encouragement we have in God s Word as we live in a confused and deteriorating culture Rather than simply decrying the devastating changes in our nation and world this book clearly proclaims the hope that is ours in the very nature and character of God himself the identity and security believers have in Christ and the biblical guidance we need in order to be salt and light in our generation A God centered truth loving Christ exalting approach to life changes everything

The Debaters of This Age Steven H Propp, 2019-02-05 It is June 2018 as an unusual group of scholars professors lecturers and students gather in a California hotel They are all attendees of an Apologetics conference intended to join qualified representatives of Christian Deist and Atheist thought for a two week no holds barred debate and discussion of their respective positions that will ultimately be included in a book published after the conference Evangelical Christianity is represented by advocates of Evidentialist and Presuppositionalist approaches to Apologetics Catholicism liberal Christianity and Deism are also well supported The Atheist perspective is advocated by a polemical author and a college professor notorious for attacking the views of his Christian students As the participants argue over controversial issues such as cosmology evolution The Bible historical evidence for Jesus the resurrection biblical prophecies and the problem of evil intellectual fireworks result But what will result when such a volatile and eclectic group is placed face to face for more than two weeks The Debaters of this Age is the tale of what

Answers for the Honest Skeptic Ted Even, 2021-07-01 It is true that mankind himself has probably always been characterized with the main desire to determine just what spiritual truth really is For centuries and centuries highly educated philosophers and religious men alike have always stood toe to toe disagreeing on spiritual truth Since they cannot all be right this would strongly indicate that education religious persuasion

or even intelligence has little to do with our discovery of the real spiritual truth For if these things were truly critical then obviously the spiritual intellectual giants of history would have agreed on spiritual truth long ago In this work author Ted Even endeavors to show that the disagreeing intellectuals skeptics of the past only serve to reinforce Christ's radical statement about our need to just become like little children in order to discover the spiritual truth and that literally everyone has the same opportunity to enter the kingdom of heaven on that basis However while super intelligence or big degrees may not be necessary the discovery of spiritual truth does require just one very reasonable quality of heart which little children have always possessed Find out just what this basic quality of heart is as you continue your search for spiritual truth within this simple to understand work which only leaves the real spiritual truth left standing

Convinced? C. J. Rysen, Dan Manternach, 2021-10-20 What is the complete essence of this book *The Cosmic Harmony of Science Scripture and Reason* Can it be indubitably proven that God absolutely exists Can it really be shown how science actually confirms creation by God Given that some say not even God can create something out of nothing exactly how did God create everything in the universe Just how can the Holy Bible be reliable and the divine Word of God when it is challenged with so much controversy Can it be irrefutably verified that Jesus was for real really rose from the dead and is the Son of God Did the Great Flood of Noah and his Ark really happen How Everybody wants to see proof Atheists and skeptics often demand it A total of twenty one of the most often asked and difficult questions challenging Christianity are answered by coauthors C J Rysen author of the Christian apocalyptic thriller a novel *In the Course of Three Hours* www.inthecourseofthreehours.com and Dan Manternach a public speaker and leader in the Christian Group Ministry to Men www.ministrytomen.net Both men have collaborated to provide irrefutable answers and explanations in a simple easy to understand straightforward way providing new unexpected and intriguing perspectives to which you likely may have never given any thought Many of these will be surprising and often startling to anyone whether skeptic agnostic or atheist The book is also intended to be a reference source for the layperson as well as those with formal theological or philosophical education Although this book is intended to address these questions for the benefit of the nonbeliever it also is intended to prepare the believer to help answer such questions and solidify their faith If one is intellectually honest with oneself the explanations in this book should be overwhelmingly compelling and absolutely convincing If they are not one must ask the question Why

Quick Answers to Tough Questions Bryan Osborne, Bodie Hodge, 2017-06-23 Today the faith of Christians is being undermined daily A relentless stream of secular attacks from supposedly solid science has put many Christians on the defensive Whether the argument is about evolution history or theology every believer must be able to provide an answer for the hope that is within them But you don't have to be an expert to respond effectively when confronted about your faith *Quick Answers to Tough Questions* gives you quick and concise answers to the tough questions that are often posed to believers regarding Creation and evolution Age of the earth and Noah's Ark Death and suffering Origin of life and missing links Biblical history and a biblical worldview help us to

understand the past present and future Too many believers have fallen victim to those who say that the Bible s history is false or that science has disproved it Equip yourself to address the skeptical questions and comments of believers and unbelievers alike and successfully stand strong in your defense of the inerrancy and truth of God s Word **Fifty-Five Questions for Skeptics** Andrew Bernhardt,2018-12-04 Strong evidence abounds for the existence of God and the inspiration of the Bible But atheists are so certain there is no evidence most don t look for it nor do they want to This is a workbook for the rare atheist who is willing to do the work to examine the evidence in detail Most apologetic approaches consist of feeding information to the reader or listener This book is different It consists of fifty five straight forward and unbiased questions for the reader to investigate and answer These questions center on the area of biblical prophecies about the return of the state of Israel in 1948 I chose this set of prophecies because the skeptic can t use any of the standard excuses to dismiss the evidence Even though it is a short book it takes time and effort to work through I find people learn better when they investigate for themselves so I don t force feed answers to any of the questions The reader is free to investigate the questions using any means at his disposal and give honest answers In the end I allow the reader to come to his own conclusions because I m convinced anyone who honestly works his way through this workbook will have all the evidence he needs to know for sure God exists It requires serious study but it is very rewarding in the end *Answers to Tough Questions about the Christian Faith* Josh McDowell,1988 [Skeptics Answered](#) Dennis James Kennedy,1997 See how Christianity is based on historical and concrete evidence and how to defend your faith even in the face of it s toughest critics *Answers to Tough Questions Skeptics Ask about the Christian Faith* Josh McDowell,1980 **Second Thoughts for Skeptics** Douglas D. Webster,2010-05 In the court of public opinion today s skeptic seems to be looking for a quick dismissal of the Christian faith not a long dragged out serious discussion Instead of a fully armored reasoned assault on the truth flippancy sarcasm irony and humor are the preferred weapons of unbelief With a well timed joke or an amusing anecdote he or she hopes this whole business of Christ and the Bible can be laughed out of court How can a Christian respond to a culture of credulity and suspicion In *Second Thoughts for Skeptics* Doug Webster draws out the wisdom of Scripture on some of the most critical questions human beings have ever asked what is the meaning of life Can we really know what God is like Where is the universe heading More importantly can the Christian faith legitimately answer these questions in light of what we know about the universe today With sensitivity and humility Doug Websters directs us not to his own air tight arguments but rather to what Christians believe is God s self revelation Moreover he invites his readers not to embrace a merely intellectual idea but rather to embrace the living Jesus in whom all things hold together Douglas D Webster Ph D is the author of numerous books including *Soulcraft How God Shapes Us Through Relationships* and *Under the Radar A Conversation on Spiritual Leadership* He and his wife Virginia live in Birmingham Alabama where Doug mentors future pastors at Beeson Divinity School **100 Questions Christians Can't Answer** Greg Vanden Berge,2012-03-05 Here s a book you won t be

disappointed reading especially if you believe everything you've been taught about Christianity. Is the Bible true? Is it truly the written word of God, or are there things that can't be answered even though religious leaders have been providing you with answers for years? This book will inspire you to do a little research and could change your views about Christianity. Have you been told your entire life that everything in the Bible is true? Do you ever doubt the information inside of the Bible? Does the story of Noah's Ark make sense, or do you think that it would have been extremely difficult for Noah to round up a couple of million different species and then take care of them for 40 days? Trust me, there are a few questions that can't be answered by Christianity or Christians. If you have any questions about Christianity, this book could provide you with some of the answers you're looking for.

Hope You're Curious Kyle Bair, 2020-02-10 Every honest question leads to God as long as you follow it all the way to the answer. In this book, you'll find questions of all kinds. Most are about God. They have one thing in common: every question is honest. Some questions attack, some probe, some challenge, some grasp for a solution, some yearn for a way out. Every one is searching for truth. God fears no question. He is Truth. Honest questions can always lead us closer to God as long as we're willing to listen to the answer. Crack open this book. Pick a question that sticks out to you. Follow where it leads. It just might draw you closer to the Truth.

Not Your Average Book About God Many books about God start with the author what they want to say. This book starts with the reader what you want to know. Every question in this book comes from genuine curiosity. They come from people in every walk of life: those with master's degrees and those in high school, those confident in their faith and those doubting, those seeking answers and those seeking to attack. The result is a rich tapestry of questions, every one fascinating, all of which can lead you closer to God. If God made it easy to believe in Him, would everyone do it? What would Jesus say about Christianity today? When science has such a great record of improving people's lives, why do evangelicals still give greater credence to blind acceptance of Scripture? Could a skilled magician duplicate some of Jesus' miracles? Why are the Greek gods considered myths while the Christian God isn't? Is there any archaeological proof that Jesus ever existed? Why do I keep thinking thoughts that I don't want to think? Are these from the devil? One of the most sacred things you can ever do is ask questions. Curiosity is a gift. Let's use it.
