## **Online Book Lower Ed Profit Colleges Inequality:**

**Academic Barbarism, Universities and Inequality** Michael O'Sullivan, 2016-04-08 The image of the university is tarnished this book examines how recent philosophies of education new readings of its economics new technologies affecting research and access and contemporary novelists representations of university life all describe a global university that has given up on its promise of greater educational equality

**Lower Ed** Tressie McMillan Cottom, 2018-08-07 The best book yet on the complex lives and choices of for profit students The New York Times Book Review As featured on The Daily Show NPR's Marketplace and Fresh Air the powerful chilling tale Carol Anderson author of White Rage of higher education becoming an engine of social inequality p Lower Ed is quickly becoming the definitive book on the fastest growing sector of higher education at the turn of the twenty first century for profit colleges With sharp insight and deliberate acumen Tressie McMillan Cottom a sociologist who was once a recruiter at two for profit colleges expertly parses the fraught dynamics of this big money industry Drawing on more than one hundred interviews with students employees executives and activists Lower Ed details the benefits pitfalls and real costs of the expansion of for profit colleges Now with a new foreword by Stephanie Kelton economic advisor to Bernie Sanders's presidential campaign this smart and essential book cuts to the very core of our nation's broken social contracts and the challenges we face in our divided unequal society

**Educating Inequality** Robert Samuels, 2017-07-06 Politicians and school officials often argue that higher education is the solution to many of our social and economic problems Educating Inequality argues that in order to reduce inequality and enhance social mobility public policies are needed to revamp the financial aid system and increase the number of good jobs Exploring topics such as the fairness of the current social system the focus on individual competition in an unequal society and democracy and capitalism in higher education this important book seeks to uncover the major myths that shape how people view higher education and its relation to the economy Looking to models that generate economic mobility and social equality this book advocates a broader vision for public higher education to promote universal equality and global awareness

**Digital Sociologies** Jessie Daniels, Karen Gregory, Tressie McMillan Cottom, 2017 This handbook offers a much needed overview of the rapidly growing field of digital sociology Rooted in a critical understanding of inequality as foundational to digital sociology it connects digital media technologies to traditional areas of study in sociology such as labor culture education race class and gender It covers a wide variety of topics including web analytics wearable technologies social media analysis and digital labor The result is a benchmark volume that places the digital squarely at the forefront of contemporary investigations of the social

**Debates in the Digital Humanities 2016** Matthew K. Gold, Lauren F. Klein, 2016-05-18 Pairing full length scholarly essays with shorter pieces drawn from scholarly blogs and conference presentations as well as commissioned interviews and position statements Debates in the Digital Humanities 2016 reveals a dynamic view of a field in negotiation with its identity methods and reach Pieces in the book explore how DH can and must change in response to social justice

movements and events like Ferguson how DH alters and is altered by community college classrooms and how scholars applying DH approaches to feminist studies queer studies and black studies might reframe the commitments of DH analysts Numerous contributors examine the movement of interdisciplinary DH work into areas such as history art history and archaeology and a special forum on large scale text mining brings together position statements on a fast growing area of DH research In the multivalent aspects of its arguments progressing across a range of platforms and environments Debates in the Digital Humanities 2016 offers a vision of DH as an expanded field new possibilities differently structured Published simultaneously in print e book and interactive webtext formats each DH annual will be a book length publication highlighting the particular debates that have shaped the discipline in a given year By identifying key issues as they unfold and by providing a hybrid model of open access publication these volumes and the Debates in the Digital Humanities series will articulate the present contours of the field and help forge its future Contributors Moya Bailey Northeastern U Fiona Barnett Matthew Battles Harvard U Jeffrey M Binder Zach Blas U of London Cameron Blevins Rutgers U Sheila A Brennan George Mason U Timothy Burke Swarthmore College Rachel Sagner Buurma Swarthmore College Micha C rdenas U of Washington Bothell Wendy Hui Kyong Chun Brown U Tanya E Clement U of Texas Austin Anne Cong Huyen Whittier College Ryan Cordell Northeastern U Tressie McMillan Cottom Virginia Commonwealth U Amy E Earhart Texas A Domenico Fiormonte U of Roma Tre Paul Fyfe North Carolina State U Jacob Gaboury Stony Brook U Kim Gallon Purdue U Alex Gil Columbia U Brian Greenspan Carleton U Richard Grusin U of Wisconsin Milwaukee Michael Hancher U of Minnesota Molly O Hagan Hardy David L Hoover New York U Wendy F Hsu Patrick Jagoda U of Chicago Jessica Marie Johnson Michigan State U Steven E Jones Loyola U Margaret Linley Simon Fraser U Alan Liu U of California Santa Barbara Elizabeth Losh U of California San Diego Alexis Lothian U of Maryland Michael Maizels Wellesley College Mark C Marino U of Southern California Anne B McGrail Lane Community College Bethany Nowviskie U of Virginia Julianne Nyhan U College London Amanda Phillips U of California Davis Miriam Posner U of California Los Angeles Rita Raley U of California Santa Barbara Stephen Ramsay U of Nebraska Lincoln Margaret Rhee U of Oregon Lisa Marie Rhody Graduate Center CUNY Roopika Risam Salem State U Stephen Robertson George Mason U Mark Sample Davidson College Jentery Sayers U of Victoria Benjamin M Schmidt Northeastern U Scott Selisker U of Arizona Jonathan Senchyne U of Wisconsin Madison Andrew Stauffer U of Virginia Joanna Safford SUNY New Paltz Toniesha L Taylor Prairie View A Dennis Tenen Melissa Terras U College London Anna Tione Ted Underwood U of Illinois Urbana Champaign Ethan Watrall Michigan State U Jacqueline Wernimont Arizona State U Laura Wexler Yale U Hong An Wu U of Illinois Urbana Champaign

**Digitized Institutions** Jessie Daniels, Karen Gregory, Tressie McMillan Cottom, 2016-11-18 A key sociological insight is that institutions whether education the economy politics or the media shape the contours of individual life and drive inequality In this Byte the contributions take up the way that digitally mediated social processes are transforming institutions The writing here examines the interconnectedness of institutions

and considers digitization across schooling work and media with an eye toward how inequality works Together these selections yield important insights into critical features of the institutions that mediate our digitized society arguing that digital sociology s greatest challenge is measuring inequalities that are produced by society s datalogical turn The University Unfettered Ian F. McNeely,2025-05-13 The public university as we once knew it is gone and never coming back After generations of fickle state support public universities behave more and more like their private counterparts charging what the market will bear offering what consumers demand competing relentlessly with peers and managing their own priorities But looking back on how we got here offers surprising reassurance U S public universities emerged largely intact after a decade of disruption bookended by a financial crisis and a pandemic Resisting widespread calls for corporate reinvention or disruptive innovation they hewed to their core missions If anything exposure to the rigors of competition only enhanced their longstanding commitments to the public good The University Unfettered tells the story of a single public research university that was a generation ahead of its peers in repositioning itself for an independent future It answers eight fundamental questions about how any contemporary university balances competing missions questions about how money is spent how education and knowledge are pursued and how decisions get made Each chapter blends deeply informed reconstruction of strategic decisions at one university with concise analyses of the entire sector An unparalleled account of how a typical public university really works this book makes a timely and distinctive case for the nonelite institutions that educate the vast majority of America s college students Rebutting critiques from both left and right it offers a refreshingly optimistic outlook on higher education today The entangled legacies of empire Paul Gilbert,Clea Bourne,Max Haiven,Johnna Montgomerie,2023-02-14 More than 25 experts from around the world have contributed to this unique and provocative book In a series of illuminating short essays each author has presented a striking image as an invitation to consider the ghosts of colonialism and imperialism in today s global economy In defiance of those who claim that today s capitalist system is free of racism and exploitation this book shows that the past is not behind us it defines our world and our lives This book takes the reader on a global tour from Malaysia to Canada from Angola to Mexico from Libya to China from the City of London to the Australian outback from the deep sea to the atmosphere Along the way we meet the financiers artists advertisers activists and everyday people who are grappling with the entangled legacies of empire **Handbook of Education Policy Research** Lora Cohen-Vogel,Peter Youngs,Janelle Scott,2025-07-17 The second edition of the Handbook of Education Policy Research the largest volume published in AERA s history addresses a variety of policy and contextual issues in early childhood K 12 and postsecondary education that have received extensive empirical attention during the past 15 years With the pandemic and social turmoil as a backdrop the editors build on the breadth and depth of the first edition while expanding the scope of the project to include subjects methods theories and analyses that have contributed powerfully to the study of education policy and politics in the 2010s and 2020s The field has become more comprehensive and inclusive

and the authors represent a diversity of racial ethnic and gender identities and intellectual and disciplinary orientations Most chapters come from multiple authors reflecting the multi sourced development of research in education policy since the first volume was published This compilation consists of 70 chapters and nine commentaries that map past present and future directions of the field and richly attend to critical issues of interest to students researchers policy makers and practitioners

**The New College Classroom** Cathy N. Davidson, Christina Katopodis, 2022-08-30 College still looks like it did a century ago with instructors delivering lectures to silent rows of students Yet research shows unambiguously that active learning is more effective and inclusive The New College Classroom translates the evidence into hands on guidance for teachers in every discipline and institution so all students can excel

**Can Democracy and Capitalism Be Reconciled?** Scott C. Miller, 2025-10-10 In Can Capitalism and Democracy Be Reconciled Sidney M Milkis and Scott C Miller have gathered a truly eminent cast of contributors to provide a multidisciplinary examination of the intersection of capitalist economic systems and democratic societies across time and space Featuring twenty four essays from scholars across nine different academic fields the volume interrogates the ideas history and policy behind these two principal elements of liberal society The volume begins with an introduction that explores the vibrant historical debate over whether democracy and capitalism can and should coexist in America and further analyzes the places where democracy and capitalism thrive and diverge and the systemic adjustments needed to sustain democratic capitalism in the future

A Dream Defaulted Jason N. Houle, Fenaba R. Addo, 2022-08-16 A Dream Defaulted explores how the student loan crisis disproportionately affects Black borrowers and why rising student debt is both a cause and consequence of social inequality in the United States Jason N Houle and Fenaba R Addo offer a deft analysis of the growing financial crisis in education examining its sources and its impacts Based on more than five years of ongoing qualitative and quantitative research this incisive work illustrates how the student loan system has not benefited all students equally The authors tell the story of how first generation college students low income students and students of color are disadvantaged in two opposing phases of the process debt accumulation and debt repayment They further demonstrate that policies intended to mitigate financial burden and prevent default have failed to assist the people who most need help Houle and Addo present these social and racial disparities within a broader context tracing how centuries of institutionalized racism have contributed to social and economic inequities perpetuating the racial wealth gap and leading to intergenerational inequality Through interviews with borrowers they illuminate the ways in which racial disparities affect who has college access how and why people take on debt and who has the ability to repay student loan debt after leaving college Recognizing that the affordability crisis cannot be solved by higher education reform alone Houle and Addo consider solutions They argue that policy must extend beyond debt reduction and financial aid to address entrenched patterns of racial inequality and racial discrimination both inside and outside institutions of higher education

The New Education Cathy N. Davidson, 2017-09-05 A leading educational thinker argues that the American university is stuck in the

past and shows how we can revolutionize it for our era of constant change Our current system of higher education dates to the period from 1865 to 1925 It was in those decades that the nation's new universities created grades and departments majors and minors all in an attempt to prepare young people for a world transformed by the telegraph and the Model T As Cathy N Davidson argues in *The New Education* this approach to education is wholly unsuited to the era of the gig economy From the Ivy League to community colleges she introduces us to innovators who are remaking college for our own time by emphasizing student centered learning that values creativity in the face of change above all *The New Education* ultimately shows how we can teach students not only to survive but to thrive amid the challenges to come [The Post-Pandemic](#)

[Liberal Arts College](#) Steve Volk, Beth Benedix, 2020-12-08 A succinct and impassioned call to reimagine and revive the small liberal arts college by two veteran educators Private liberal arts colleges have struggled for decades now as the COVID 19 pandemic widens cracks latent in many American institutions they are facing a possibly mortal crisis In *The Post Pandemic Liberal Arts College A Manifesto for Reinvention* Steven Volk and Beth Benedix call for small colleges to seize this moment and reinvent themselves With the rise of rankings that set peer institutions against each other tuition that outpaces income creeping pre professionalism and a race to build student customers the splashiest new amenities many private liberal arts colleges have strayed from their founders missions If they could shed the mantle of exclusivity reduce costs facilitate true social mobility and collaborate with each other the authors argue they might both survive and again become just equitable accessible institutions able to offer the transformative and visionary education that is their hallmark Educators students parents and anyone invested in the future of higher education should read this book [Back in School](#) A. Fiona

Pearson, 2019-07-12 Fifty years ago students who were parents were a rarity in college classrooms but recently over a quarter of all undergraduate students were parents A Fiona Pearson explores how these student parents navigate cultural norms and institutional resources forging pathways as they journey to become better parents and successful students

*Higher Education, Stratification, and Workforce Development* Sheila Slaughter, Barrett Jay Taylor, 2015-11-17 This work analyses how political economic shifts contribute to competition within higher education systems in the US EU and Canada The authors highlight competition for prestige and public and private subsidies exploring the consequences of these processes through theoretical and empirical analyses Accordingly the work highlights topics that will be of interest to a wide range of audiences Concepts addressed include stratification privatization of formerly public subsidies preference for high tech academic fields and the vocationalization of the curriculum i e Science Technology Engineering and Mathematics STEM fields selected professions and business rather than the liberal arts or the Humboldtian vision of the university Across national contexts and analytic methods authors analyze the growth of national policies that see universities as a sub set of economic development casting universities as corporate research laboratories and education as central to job creation Throughout the volume the authors make the case that national and regional approaches to politics and markets result in

different experiences of consequences of academic capitalism While these shifts serve the interests of some institutions others find themselves struggling to meet ever greater expectations with stagnant or shrinking resource bases

**Like Nobody's Business** Andrew C. Comrie, 2021-02-23 How do university finances really work From flagship public research universities to small private liberal arts colleges there are few aspects of these institutions associated with more confusion myths or lack of understanding than how they fund themselves and function in the business of higher education Using simple approachable explanations supported by clear illustrations this book takes the reader on an engaging and enlightening tour of how the money flows How does the university really pay for itself Why do tuition and fees rise so fast Why do universities lose money on research Do most donations go to athletics Grounded in hard data original analyses and the practical experience of a seasoned administrator this book provides refreshingly clear answers and comprehensive insights for anyone on or off campus who is interested in the business of the university how it earns its money how it spends it and how it all works

*The Profit Paradox* Jan Eeckhout, 2022-10-25 A pioneering account of the surging global tide of market power and how it stifles workers around the world In an era of technological progress and easy communication it might seem reasonable to assume that the world's working people have never had it so good But wages are stagnant and prices are rising so that everything from a bottle of beer to a prosthetic hip costs more Economist Jan Eeckhout shows how this is due to a small number of companies exploiting an unbridled rise in market power the ability to set prices higher than they could in a properly functioning competitive marketplace Drawing on his own groundbreaking research and telling the stories of common workers throughout he demonstrates how market power has suffocated the world of work and how without better mechanisms to ensure competition it could lead to disastrous market corrections and political turmoil The Profit Paradox describes how over the past forty years a handful of companies have reaped most of the rewards of technological advancements acquiring rivals

securing huge profits and creating brutally unequal outcomes for workers. Instead of passing on the benefits of better technologies to consumers through lower prices, these superstar companies leverage new technologies to charge even higher prices. The consequences are already immense: from unnecessarily high prices for virtually everything to fewer startups that can compete to rising inequality and stagnating wages for most workers to severely limited social mobility. A provocative investigation into how market power hurts average working people, *The Profit Paradox* also offers concrete solutions for fixing the problem and restoring a healthy economy.
