Coleman, 2023 **All About Inventing** Andrea Hence Evans, 2018-07-18 While inventors can have great ideas and know everything about their inventions they often don't know how to go about protecting those inventions They try to get patents to protect their intellectual property but make avoidable mistakes and spend unnecessary money and sometimes invest their life savings in inventions that are not patentable or lose their intellectual property to invention scamming companies For people who need help navigating the patent office All About Inventing Everything You Need to Know About Patents from a Former USPTO Patent Examiner Patent Attorney is invaluable Andrea Hence Evans former patent examiner at the USPTO and current patent attorney has written this book to explain different types of patents patent prosecution how to avoid and correct rejections and more This book will help you understand your options to protect your invention and help you navigate your patent application through the USPTO

**Cracking the Patent Code** Steve Sponseller, 2020-09-08 If you want to learn how to identify and protect the critical inventions developed in your business you're in the right place If you are confused about the patent application process and don't understand which inventions are worthy of patent protection this book sheds light on those issues You invest significant time money and effort developing new products and services That means lots of late nights and missed family activities to perfect these inventions You and your team are doing important work Your inventions can

make vehicles safer get vaccines to patients faster and provide improved teaching systems for kids You want to protect those inventions just like you would any other valuable business asset Patents provide a way to protect the inventions in your new products and services Patents covering critical inventions in your industry provide a competitive edge during the life of the patent In my experience many companies do not understand the patent process and fail to properly protect inventions that are critical to the company s success That s why I created the three step system described in this book The system has been tested with hundreds of companies of all sizes in a variety of industries It s the same system I use every day with my own clients
