Why Homer Matters Adam Nicolson, 2014-11-18 Adam Nicolson writes popular books as popular books used to be a breeze rather than a scholarly sweat but humanely erudite elegantly written passionately felt and his excitement is contagious James Wood *The New Yorker* Adam Nicolson sees the *Iliad* and the *Odyssey* as the foundation myths of Greek and our consciousness collapsing the passage of 4 000 years and making the distant past of the Mediterranean world as immediate to us as the events of our own time *Why Homer Matters* is a magical journey of discovery across wide stretches of the past sewn together by the poems themselves and their metaphors of life and trouble Homer's poems occupy as Adam Nicolson writes a third space in the way we relate to the past not as memory which lasts no more than three generations nor as the objective accounts of history but as epic invented after memory but before history poetry which aims to bind the wounds that time inflicts The Homeric poems are among the oldest stories we have drawing on deep roots in the Eurasian steppes beyond the Black Sea but emerging at a time around 2000 B C when the people who would become the Greeks came south and both clashed and fused with the more sophisticated inhabitants of the Eastern Mediterranean The poems which ask the eternal questions about the individual and the community honor and service love and war tell us how we became who we are

Homer and His Iliad Robin Lane Fox, 2023-10-24 A compelling and impressive Sunday Times reassessment of the *Iliad* uncovering how the poem was written and why it remains enduringly powerful The *Iliad* is the world's greatest epic poem heroic battle and divine fate set against the Trojan War Its beauty and profound bleakness are intensely moving but

great questions remain Where how and when was it composed and why does it endure Robin Lane Fox addresses these questions drawing on a lifelong love and engagement with the poem He argues for a place a date and a method for its composition subjects of ongoing controversy combining the detailed expertise of a historian with a poetic reader's sensitivity Lane Fox considers hallmarks of the poem its values implicit and explicit its characters its women its gods and even its horses Thousands of readers turn to the Iliad every year Drawing on fifty years of reading and research Lane Fox offers us a breathtaking tour of this magnificent text revealing why the poem has endured for ages Medieval Narratives of Alexander the Great Venetia Bridges, 2018 An investigation into the depiction and reception of the figure of Alexander in the literatures of medieval Europe **Making History** Richard Cohen, 2022-04-19 A supremely entertaining The New Yorker exploration of who gets to record the world's history from Julius Caesar to William Shakespeare to Ken Burns and how their biases influence our understanding about the past There are many stories we can spin about previous ages but which accounts get told And by whom Is there even such a thing as objective history In this witty wise and elegant The Spectator book Richard Cohen reveals how professional historians and other equally significant witnesses such as the writers of the Bible novelists and political propagandists influence what becomes the accepted record Cohen argues for example that some historians are practitioners of Bad History and twist reality to glorify themselves or their country Scholarly lively quotable up to date and fun Hilary Mantel author of the bestselling Thomas Cromwell trilogy Making History investigates the published works and private utterances of our greatest chroniclers to discover the agendas that informed their and our views of the world From the origins of history writing when such an activity itself seemed revolutionary through to television and the digital age Cohen brings captivating figures to vivid light from Thucydides and Tacitus to Voltaire and Gibbon Winston Churchill and Henry Louis Gates Rich in complex truths and surprising anecdotes the result is a revealing exploration of both the aims and art of history making one that will lead us to rethink how we learn about our past and about ourselves *Memories of the Classical Underworld in Irish and Caribbean Literature* Madeleine Scherer, 2021-09-20 Classical Memories is an intervention into the field of adaptation studies taking the example of classical reception to show that adaptation is a process that can be driven by and produce intertextual memories I see classical memories as a memory driven type of adaptation that draws on and reproduces schematic and otherwise decontextualised conceptions of antiquity and its cultural exports in broadly speaking the twentieth and twenty first centuries These memory driven adaptations differ often in significant ways from more traditional adaptations that seek to either continue or deconstruct a long running tradition that can be traced back to antiquity as well as its canonical points of reception in later ages When investigating such a popular and widespread set of narratives characters and images like those that remain of Graeco Roman antiquity terms like adaptation and reception could and should be nuanced further to allow us to understand the complex interactions between modern works and classical antiquity in more detail particularly when it pertains to postcolonial or post digital classical reception In Classical Memories I

propose that understanding certain types of adaptations as intertextual memories allows us to do just that **T. S. Eliot and the Dynamic Imagination** Sarah Kennedy, 2018-04-05 How is a poem made From what constellation of inner and outer worlds does it issue forth Sarah Kennedy's study of Eliot's poetics seeks out those images most striking in their resonance and recurrence the sea change the light invisible and the dark ghost She makes the case for these sustained metaphors as constitutive of the poet's imagination and art Eliot was haunted by recurrence His work is full of moments of luminous recognitions moments in which a writer discovers both subject and appropriate image This book examines such moments of recognition and invocation by reference to three clusters of imagery drawing on the contemporary languages of literary criticism psychology physics and anthropology Eliot's transposition of these registers at turns wary and beguiled interweaves modern understandings of originary processes in the human and natural world with a poet's preoccupation with language The metaphors arising from these intersections generate the imaginative logic of Eliot's poetry Claes Oldenburg and Coosje van Bruggen: Kansas City's Shuttlecocks Edward J. Olszewski, 2020-04-16 Claes Oldenburg and Coosje van Bruggen Kansas City's Shuttlecocks By Edward J Olszewski Claes Oldenburg and Coosje van Bruggen Kansas City's Shuttlecocks is a study of the commission and vicissitudes of a project by the world renowned sculptors Claes Oldenburg and Coosje van Bruggen for a major art museum and a public setting The controversy that the commission initiated presented a challenge to explain a misunderstood work of art in an attempt to confirm the rightness of its acceptance It is important for the reader to appreciate how artists resolve conflicts how modern art functions and to understand something of the cognitive issues undertaken by collaborative artists in the creative process **The Seabird's Cry** Adam Nicolson, 2018-02-06 Originally published in The U K in 2017 by HarperCollins The DIOMEDEIA Gregory Michael Nixon, 2022-08-30 A historically based novel with authentic legendary fictional characters interacting across the extraordinary panorama of the Bronze Age Collapse in the Hittite Empire between the Aegean and eastern Mediterranean seas Diomedes previously a hero of the Trojan War and the polyglot Peoples of the Sea raid inland into the Hittite Empire during its final months It is both a study of ancient mythic consciousness and an exciting adventure of love character destruction desperate survival and the lived mystery of pagan rituals It was a time of such chaos royalty was overthrown palaces and temples were burnt and the power of the gods was thrown into doubt yet the ancient Great Goddess who had been suppressed began to regain her former dominance Diomedes though prominent in Homer's Iliad a warrior the equal of Hektor or Achilleus a thinker as cunning as Odysseus and as wise as Nestor and the only man who dared wound gods has seldom if ever been the chief protagonist in literature He is given his due within His own wandering adventures and suffering after the destruction of Ilios Troy are traced as far north as Kolchis Colchis in the Black Sea through involvement with the last Hittite royal family in Anatolia and as far south as Alasiya Cyprus in the Mediterranean He ascends the heights of glory but also must descend into the dark Underworld in the attempt to save the one he loves *Reading Homer's Iliad* Kostas Myrsiades, 2022-11-11 We still read

Homer's epic the Iliad two and one half millennia since its emergence for the questions it poses and the answers it provides for our age as viable today as they were in Homer's own times What is worth dying for What is the meaning of honor and fame What are the consequences of intense emotion and violence What does recognition of one's mortality teach We also turn to Homer's Iliad in the twenty first century for the poet's preoccupation with the essence of human life His emphasis on human understanding of mortality his celebration of the human mind and his focus on human striving after consciousness and identity has led audiences to this epic generation after generation This study is a book by book commentary on the epic's 24 parts meant to inform students new to the work Endnotes clarify and elaborate on myths that Homer leaves unfinished explain terms and phrases and provide background information The volume concludes with a general bibliography of work on the Iliad in addition to bibliographies accompanying each book's commentary

The Epic Women of Homer Eirene S. Allen, 2025-03-30 Reexamines the women of Homer's Iliad and Odyssey restoring their essential roles and challenging traditional heroic narratives Our earliest written sources for Greek mythology Homer's Iliad and Odyssey feature women prominently as drivers of the narratives Though they occupy a variety of roles and speak eloquently for themselves in every role these women have been obscured by the assumption that each epic's central hero Achilles and Odysseus respectively is also its singular hero And yet the story of the Iliad is not the story of Achilles just as the story of the Odyssey is not the story of Odysseus alone Contrary to centuries of reception the epics are not only about fearless yet flawed men but rather explore and develop the contours of belonging and community in times of war and peace The Epic Women of Homer untangles the women of the Iliad and the Odyssey from centuries of narrative constraints to recover their essential meaning and importance In the process The Epic Women of Homer challenges the commonplace assumption that the Homeric hero is an individual who fights for personal glory a misconception further fuelled by a lack of understanding of the oral tradition out of which Homer's epics emerged in which linguistic and thematic patterning exists at every level Analysing Homer's goddesses and heroes through the lens of these patterns their recurrence and variation reveal them to be preeminent in a wide range of skills all of which are necessary and yet the essence of each is in their relationships with others The Epic Women of Homer re-establishes these goddesses and heroines to their esteemed positions in ancient Greece and reintroduces them to the modern world

That Self-Forgetful Perfectly Useless Concentration Alan Shapiro, 2016-11-01 More than a gathering of essays That Self-Forgetful Perfectly Useless Concentration is part memoir part literary criticism and an artful fusion of the two It is an intimate portrait of a life in poetry that only Alan Shapiro could have written In this book Shapiro brings his characteristic warmth humor and many years as both poet and teacher to bear on questions surrounding two preoccupations the role of conventions of literary and social norms in how we fashion our identities on and off the page and how suffering both requires and resists self-expression He sketches affectionate portraits of his early teachers revisits the deaths of his brother and sister and examines poems that have helped him navigate troubled times Integrating storytelling and literary analysis so seamlessly

that art and life become extensions of each other Shapiro embodies in his lively prose the very qualities he celebrates in the poems he loves Brimming with wit and insight this is a book for poets students and scholars of poetry teachers of literature and everyone who cares about the literary arts and how they illuminate our personal and public lives *Troy Ben Hubbard*,2024-12-15 Troy tells the story of the Trojan War from its beginnings with the sparring of the gods to the love story between Paris and Helen to the war fleet the siege and on to the final battles and destruction of the city *Pope, the Odyssey and the Ontology of Language* Nicholas Gayle,2020-02-18 This unique study examines the interface between contemporary philosophy and literature through Alexander Pope s majestic translation of the Odyssey of Homer Employing the lens supplied by the philosopher Graham Harman in his development of Object Oriented Ontology it explores the beautiful and sometimes dazzling figurative language of both Pope s English and Homer s Greek in so doing it uncovers something of the vast withdrawn and subterranean reality to which the poems can only allude setting this against a contrasting sensual world a world encrusted with shimmering images and objects that range from the quotidian to the metaphysically bizarre *The Warm South* Robert Holland,2018-01-01 An evocative exploration of the impact of the Mediterranean on British culture ranging from the mid eighteenth century to today Ever since the age of the Grand Tour in the eighteenth century the Mediterranean has had a significant pull for Britons including many painters and poets who sought from it the inspiration beauty and fulfillment that evaded them at home Referred to as Magick Land by one traveler dreams about the Mediterranean and responses to it went on to shape the culture of a nation Written by one of the world s leading historians of the Mediterranean this book charts how a new sensibility arose from British engagement with the Mediterranean ancient and modern Ranging from Byron s poetry to Damien Hirst s installations Robert Holland shows that while idealized visions and aspirations often met with disillusionment and frustration the Mediterranean also offered a notably insular society the chance to enrich itself through an imagined world of color carnival and sensual self discovery

A Defense of Rule Stuart Gray,2017-03-01 At its core politics is all about relations of rule Accordingly one of the central preoccupations of political theory is what it means for human beings to rule over one another or share in a process of ruling While political theorists tend to regard rule as a necessary evil this book aims to explain how rule need not be understood as anathema to political life Rather by looking at some of the earliest traditions of political thought we can rethink rule in ways that evoke stewardship rather than domination Stuart Gray argues that hierarchical ideas about rule coevolved with political divisions between the human and non human in western theory The earliest discernible Greek thought advanced an instrumental relationship between humans and their environment a position that has persisted into our current age While this seems a defensible position Gray points out that such instrumental understandings of the nonhuman world have gotten us into serious trouble including problems of deforestation global warming rising sea levels species loss and peak oil To rethink the concept of rule *A Defense of Rule* turns to early Indian political thought that suggests that rule is a relationship

predicated on stewardship The book compares these two traditions of thought in order to suggest that we have a normative duty to the environment and thus to act in a way that takes the interests of non human nature into account Basing his argument on his own original translations of primary sources in ancient Greek and Sanskrit Gray shows when and how early concepts of rule evolved to justify divisions between the human and nonhuman In doing so he argues for a reconsideration of our duties toward the nonhuman natural world
