Photograph Like a Thief Glyn Dewis, 2017-03-24 No photographer works in a vacuum Photographers like all artists stand on the shoulders of those who came before them and they are informed and influenced by those working around them contemporaneously If you are striving to find your own style one of the most powerful exercises you can practice is to find influence and inspiration in the work of those around you and then emulate that work in an effort to define shape and grow your own photographic voice By collecting imitating and eventually reshaping and combining the work of those around you your unique voice can be found and the quality of your work can soar In Photograph Like a Thief photographer author and retoucher Glyn Dewis embraces the idea of stealing and recreating others work in order to improve as an artist By stepping inside others images you can learn to reverse engineer their creation then build an image yourself that simultaneously pays homage to that work yet is also an original creation itself The book is divided into two parts In Part 1 Glyn discusses his approach covering the process of stealing ideas and finding inspiration He also covers the gear he uses as well as his retouching and post processing workflow In a very helpful chapter on reverse engineering a photograph Glyn discusses how to read an image by the catchlights shadow position and the hardness softness of the shadows This is a crucial skill to acquire if you want to recreate another s look In Part 2 Glyn works through a series of images from initial concept and influence to lighting shooting and post processing the image to get to the final result For each image he reverse engineers the shot to describe how it was created and discusses how the image influenced him then works through the gear he used the lighting for the image and the post processing of the image from the RAW out of camera shot to the finished piece While Glyn s work primarily focuses on portraiture he finds inspiration and influence from a wide variety of work from legendary photographers to animated films to book covers to movie posters By working alongside Glyn in Photograph Like a Thief you too can learn to find inspiration all around you discover how that work can influence you improve your photographic and post processing skill set and begin your own journey to defining your unique style Who knows Soon others may be stealing from you Art Now Gallery Guide ,2005-05 *Art in America* Frank Jewett Mather, Frederic Fairchild Sherman, 2008 **Nick Brandt: on This Earth, a Shadow Falls** Nick Brandt, Jane Goodall, 2014-07-31 In 2001 Nick Brandt embarked on an ambitious photographic project a trilogy of books memorializing the vanishing natural grandeur of East Africa Focusing on some of the world s last great populations of large mammals elephants giraffes lions gorillas and their kin he created two of the new century s most influential photographic books *On This Earth* 2005 and *A Shadow Falls* 2009 His iconic portraits of these majestic animals express an empathy usually reserved for human subjects The magisterial *On This Earth* *A Shadow Falls* collects the most memorable images from Brandt s first two books along with their accompanying essays A testament to the bookmaker s craft it is the first volume on Brandt s work to capture the superb quality of his remarkable large format prints which are notable for their velvet blacks and tonal subtleties **Art, Design, Photo** ,1975 Graphis Posters ,1988
