**Het burgerlijk wetboek** Cornelis Willem Opzoomer,1887      Zeerecht in het licht van boek 8 Nieuw Burgerlijk Wetboek  
F. A. van Bakelen,1983      **Aruba Recent Economic and Political Developments Yearbook - Strategic Information and Developments** IBP, Inc.,2018-01-18 2011 Updated Reprint Updated Annually Aruba Recent Economic and Political Developments Yearbook      Het burgerlijk wetboek C.W. Opzoomer,1900      **Naar Nieuw Burgerlijk Procesrecht?** Willem Hugenholtz,1948      Good Faith in European Contract Law Reinhard Zimmermann,Simon Whittaker,2000-06-08 For some Western European legal systems the principle of good faith has proved central to the development of their law of contracts while in others it has been marginalized or even rejected This book starts by surveying the use or neglect of good faith in these legal systems and explaining its historical origins The central part of the book takes thirty situations which would in some legal systems attract the application of good faith analyses them according to fifteen national legal systems and assesses the practical significance of both the principle of good faith and its relationship to other contractual and non contractual doctrines and forms of regulation in each situation The book concludes by explaining how European lawyers whether from a civil or common law background may need to come to terms with the principle of good faith This was the first completed project of The Common Core of European Private Law launched at the University of Trento      **The Principles of European Contract Law (Part III) and Dutch Law** Harriët N. Schelhaas,2006-01-01 The Principles of European Contract Law prepared by the so called Lando Commission today constitute the most advanced project on the harmonisation of European private law As well as providing a set of rules which could facilitate cross border trade within Europe the Principles can be seen as a modern lex mercatoria which for example could be referred to by arbitrators deciding a case according to internationally accepted principles of law Furthermore the Principles provide a framework for EU legislation on contract law and more importantly they can be viewed as a first step towards a European Civil Code They may also prove to be a catalyst for the development of national legislation judicial decisions and legal doctrine This new title which follows the first volume covering Parts I and II of the Principles includes chapters on plurality of parties assignment of claims transfer of contract set off prescription illegality and conditions It provides a systematic overview of the Principles in comparison with Dutch law which will be of interest not only in the Netherlands but also to lawyers in other countries who need to gain a clearer understanding of the Dutch contract law system      **Towards a Chinese Civil Code** Lei Chen,C.H. van Rhee,2012-11-13 Currently China is drafting its new Civil Code Against this background the Chinese legal community has shown a growing interest in various legal and legislative ideas from around the world Towards a Chinese Civil Code aims at providing the necessary historical and comparative legal perspectives The book addresses the following topics property law contract law tort law and civil procedure      **Information Sources in Law** J.R. Winterton,Elizabeth M. Moys,2012-06-21 The aim of each volume of this series Guides to Information Sources is to reduce the time which needs to be spent on patient

searching and to recommend the best starting point and sources most likely to yield the desired information The criteria for selection provide a way into a subject to those new to the field and assists in identifying major new or possibly unexplored sources to those who already have some acquaintance with it The series attempts to achieve evaluation through a careful selection of sources and through the comments provided on those sources *The Netherlands, Switzerland, Czech Republic, Slovakia, Malta, Latvia* Wolfgang Faber, Brigitta Lurger, 2010-12-23 This excellent series presents comparative study analysis and evaluation of 28 European legal systems in the field of transfer of movables Major topics are the notion of ownership the derivative acquisition of ownership e.g. by a sales contract the good faith acquisition of ownership and other property rights the multiple sale of the same movable the protection of possession positive acquisitive prescription and processing and consolidation The work is based on comprehensive country reports which are to be published on the relevant legal rules in Europe and has the drafting and publication of text proposals of uniform European rules with commentary and comparative notes as its primary goal It intends to influence the future development of European private law on the EU level This sixth volume of the series presents up to date national reports of The Netherlands Switzerland Czech Republic Slovakia Malta Latvia *The New European Private Law: Vol. 3: Essays on the Future of Private Law in Europe* Martijn Hesselink, 2002-10-16 In *The New European Private Law* Martijn W Hesselink presents a revised and supplemented collection of essays written over the last five years on European private law He argues that the creation of a common private law in Europe is not merely a matter of rediscovering the old *ius commune* or of neutrally establishing the present common core which may be codified in a European Civil Code Rather it is a matter of making choices some of which may be highly controversial In this book he discusses some of the most important choices which will have to be made with regard to culture principles politics models rights concepts and structure in the new European private law *The Voice of the Law in Transition* A. Massier, 2008-01-01 In the literature on Indonesian legal history the role of language has been paid scant attention Even the replacement of Dutch by Indonesian as the official language of the law surely a major event for the work of Indonesian jurists has not been closely examined Yet since the early 1970s legal usage and terminology have been the topic of a steady stream of highly critical publications by linguists and remarkably by jurists as well Their criticism is focused on the heterogeneity of law language and terminology and the deviation of legal usage from the official standard language Government measures language courses law dictionaries have not allayed this criticism This study exposes two fundamental defects in the government measures and in the criticism itself Firstly they are grounded in an instrumental approach to language an approach that sees language as a mere tool of the jurist and as secondary in importance to the conceptual world that is considered law's core business Secondly they greatly underestimate the impact of the declining knowledge of Dutch upon the development of Indonesian law language Massier argues that the law must be viewed as inextricably bound up with the language in which it is formulated Consequently legal training and practice are examined in this study in terms of

language behaviour and conventions of learning writing and speaking the languages of the law The voice of the law in transition provides a language history of Indonesian law and its practitioners De nieuwe wetgeving aangaande de bewaring van de hypotheeken en het Kadaster ,1838 *De wet op den overgang van de vroegere tot de nieuwe wetgeving, in verband beschouwd met en toegelicht door de daarover in de jaren 1829 en 1837 plaats gehad hebbende beraadslagingen* Joan van den Honert (Thz.),1838 Verslag der handelingen der Staten-Generaal Netherlands. Staten Generaal. Eerste Kamer,1929 Quasi-erfrecht Freek Schols,2005 **Wet op den overgang van de vroegere tot de nieuwe wetgeving** ,1829 *De verbindende eenzijdige belofte* Caroline Cauffman,2005 The Harmonisation of European Contract Law Stefan Vogenauer,Stephen Weatherill,2006-03-16 After an extended period in which the European Community has merely nibbled at the edges of national contract law the bite of a European contract law has lately become more pronounced Many areas of law from competition and consumer law to gender equality law are now the subject of determined efforts at harmonisation though they are perhaps often seen as peripheral to mainstream commercial contract law Despite continuing doubts about the constitutional competence of the Commission to embark on further harmonisation in this area European contract law is now taking shape with the Commission prompting a debate about what it might attempt A central aspect of this book is the report of a remarkable survey carried out by the Oxford Institute of European and Comparative Law in collaboration with Clifford Chance which sought the views of European businesses about the advantages and disadvantages of further harmonisation The final report of this survey brings much needed empirical data to a debate that has thus far lacked clear evidence of this sort The survey is embedded in a range of original and up to date essays by leading European contract scholars reviewing recent developments questioning progress so far and suggesting areas where further analysis and research will be required **Verzameling Nederlandse Wetgeving** ,2007
