Nikon D800 and D800e: A Simple Guide Steve Markelo, 2015-06-11 The Nikon D800 D800e is one of the Nikon cameras to win the Gold Award by Digital Photography Review The camera has several functions that come as standard in the default function such as autofocus in some scenes and scenarios you will need to manually adjust the setting to achieve the quality photos as you shoot The camera has white balance ISO sensitivity and exposure compensation to reduce the effects of a different light source on how the camera captures the photo There are different modes to help you change the shutter speed and aperture values to achieve the settings required for the different scenes Vol. 19:

Photography: Beyond Semi-Pro: The Nikon D800 & D800E Shawn M. Tomlinson, 2018-03-14 I have been somewhat reluctant to write about the absolute best digital single lens reflex camera I have ever used the Nikon D800E The reason is that I like to write about older cameras that have become cheaper to buy and use for the frugal photographer Although some of the

cameras I have written about were terribly expensive when first released by now they are reasonably cheap For example I've written books about the Canon EOS 1DS 1DS Mark II the Nikon D1 and the Nikon D2X These all are pro DSLRs and as such were released at prices ranging from 6 000 to 8 000 By now however the most you will pay is around 400 for any of them In a few years the Nikon D800E too will be much cheaper and an obvious choice for the frugal photographer No matter the price the D800 and D800E are two of the best DSLRs ever made Either will change you as a photographer in fantastic ways

Getting Started in Photography & Sony A100: Great Starter DSLR Shawn M. Tomlinson, 2015-07-19 In Getting Started in Photography Photographer and writer Shawn M Tomlinson creates a quick guide to help budding photographers The book includes equipment advice exercises for becoming better photo processing basics and more From the book What anyone starting out needs is well a starting point Some basic information about equipment and technique to get everything moving And hey I'm here to help In part two Great Starter DSLR Revisiting the Sony A100 he takes an in depth look at the camera and continues his series devoted to helping budding photographers get started without breaking the bank In this case Tomlinson considers the first Sony DSLR the A100 From the book After waiting the proper mourning time for Minolta about a year Sony took the black armband off and unveiled its first DSLR the A100 And why is this important now It's vitally important if you are a beginning photographer and want to get a great DSLR and great lenses that won't mortgage your house

Vol. 26: Medium-Format Photography: Getting Started Shawn M. Tomlinson, 2018-12-14 Simply put medium format photography is quite a bit more complex than shooting with 35mm film SLRs or 35mm style DSLRs It takes a bit more skill and experience to handle medium format cameras Not only do you need to learn to think differently about how you shoot but you also have a whole new type of equipment to learn Medium format cameras produce bigger images which allows for more detail and greater enlargement And because they in general were designed for professional photographers the lenses tend to be of better quality than most 35mm lenses which also adds to the detail in the images In this book we'll take a look at medium format SLRs and TLRs and we'll even touch upon some other types We'll also consider a few lenses although these largely are a matter of choice And there are far fewer choices for medium format cameras than for other types Time to do some weight training and heft those medium format cameras and lenses into position Let's go

Semi-Pro I: Revisiting the Nikon D200 Shawn M. Tomlinson,2018-03-13 The designers at Nikon in 2004 05 were looking for a way to reach the semi pro photographer The semi pro is someone who has another job but shoots photos often at weddings as a part time job They re sometimes called weekend warriors They tend to be serious and dedicated but they had no need for the pro digital single lens reflex behemoths like the Canon EOS IDX Mark II or the Nikon D5 What they needed then and now is a DSLR camera that is built strong is always reliable and can handle their workload That led to the first true semi pro camera from the company the Nikon D200 The D200 may have been overshadowed by its successor the Nikon D300 but it s still a great camera A great camera that can be had relatively cheaply and that makes it an even better camera

Tomlinson,2018-12-31 In some ways the

Nikon F5 is easier to use than the Canon EOS 1N but it is not nearly as elegant There s just something about the way the Canon EOS 1N feels in my hands when I m shooting with it that makes me never want to put it down In that way it reminds me much more of the Nikon F4S than the Nikon F5Practically since I placed the order for the camera it was inevitable that I would need to write about it If you are seeking the perfect late model film SLR camera you need look no further than the second to last pro level Canon EOS 1N Just load a roll of film take the camera in your hands and start shooting You too will never want to let it go

Photography: Choosing Your Film SLR Shawn M. Tomlinson,2018-02-22 Film cameras the bodies themselves have little to do with image quality Lenses are far more important to image quality than camera bodies So as long as your camera has accurate shutter speeds aperture settings and metering the brand you pick doesn t really have much of an effect upon the final image So then it appears the model camera you choose is irrelevant Well no The type of film SLR camera you choose is most important to you as the photographer in features and convenience Comfort has a lot to do with how good you are as a photographer What I mean by that is that you choose a camera that feels comfortable in your hands and becomes an extension of your brain as a photographer This makes it easier to capture the types of images you want
